(Police)

NOTIFICATION.

Fort St. George, March 27, 1935
(G.O. No. 179, Public (Police)).

No. 53—

Applications are invited from (1) Anglo-Indians, Christians and non Asiatic candidates, and (2) those of other communities including depressed classes, i.e., persons other than Brahmans, non-Brahman Hindus, Mohammadans and Anglo Indians, Christians and non Asiatics to fill two vacancies (one for a member of the communities coming under the former class and the other for a member of the communities coming under the latter class) in the Indian Police of this Presidency by direct recruitment on the result of a competitive examination among candidates of the communities concerned.

2. A candidate must be a male and either—

(i) a British subject of Indian domicile whose father (if alive) is a British subject, or a subject of a State in India or (if dead) was at the time of his death either a British subject or a subject of a State in India, or a person in the permanent service of the Crown, or a person who had retired from that service; or

(ii) a ruler or a subject of a State in India in respect of whom the Governor-General in Council has made a declaration under section 96-A of the Government of India Act:

Provided that in the case of a British subject the requirements of this rule may be waived by the Secretary of State in Council if he is satisfied that their observance would occasion exceptional hardship, and the candidate is so closely connected by ancestry or upbringing with His Majesty's dominions as to justify special treatment.

3. A candidate's parents must reside in the Madras Presidency or in Coorg at the time of his application or either he (otherwise than as a student of a University only) or his parents must have resided for a period of not less than three years:

Provided that a person resident in a State in India who is otherwise qualified may become a candidate for the vacancy.

(Ordinarily a candidate from a State in India will not be selected as a candidate unless the State is in the neighbourhood of the Madras Presidency.)

4. A candidate must be in good mental and bodily health and free from any physical defect likely to interfere with the efficient performance of the duties of a member of the Indian Police, and a candidate who is found after examination by a Medical Board not to satisfy these requirements will not be admitted to the competitive examination.

5. A candidate must satisfy the Public Service Commission that his character is such as to qualify him for employment in the Indian Police.

6. A candidate must have attained the age of 21 and not have attained the age of 24 on the first day of August in the year in which he is selected for admission to the competitive examination.

7. A candidate must hold a Degree of a University approved by the Governor-General in Council or have passed the Diploma Examination in the 1st or have passed the Diploma Examination in the 1st or 2nd Division from the Aitchison College, Lahore; or 2nd Division from the Aitchison College, Lahore; the Mayo College, Ajmere, the Daly College, Indore; the Mayo College, Ajmere, the Daly College, Indore; the Rajkumar College, Rajkot; or the Rajkumar College, Rajkot; or the Rajkumar College, Raipur; or have passed the Cambridge College, Raipur; or have passed the Cambridge School Certificate Examination.

The following Universities have been approved by the Governor-General in Council, viz.:—

Indian Universities.

Any University incorporated by an Act of the Central or a Provincial Legislature in India.
The Mysore University.
The Osmania University.

English and Welsh Universities.

The Universities of Birmingham, Bristol, Cambridge, Durham, Leeds, Liverpool, London, Manchester, Oxford, Sheffield and Wales.

Scotch Universities.

The Universities of Aberdeen, Edinburgh, Glasgow and St. Andrews.

Irish Universities.

The University of Dublin (Trinity College).
The Queen's University of Belfast.

8. Any person who has appeared at an examination the passing of which will render him eligible to appear at the Indian Police Examination, but has not been informed of the result, may apply for admission to the latter examination. A candidate who intends to appear at such a qualifying examination may also apply, provided the qualifying examination is to be concluded before the commencement of the Indian Police Examination. His application will be accepted provisionally if he is eligible in all other respects and he will be required to furnish before the 15th July 1935 to the Chief Secretary to the Local Government, or thereafter to the Public Service Commission, but not later than the date on which the results are ready for communication to the Government of India, proof of having passed such qualifying examination.

9. Candidates eligible under the foregoing paragraphs will be required to appear before a Selection Committee for interview after they have been passed by the Medical Board. No candidate will be selected for admission to the examination who does not satisfy the Selection Committee that he is suitable in all respects for the Indian Police in the Province for which he is a candidate. The time and place of the interview will be communicated later.

10. Candidates selected by the Selection Committee will be required to appear for the examination to be held at Madras beginning on Monday, the 9th September 1935. There will be a viva voce test, the maximum number of marks for which will be 400. This test will be conducted by the Selection Committee.

11. No candidate shall be admitted to the examination who has not received a certificate of admission from the Public Service Commission.

12. Candidates must pay the following fees:—

A—To the Public Service Commission—

(i) Rs. 7-8-0 with the application form.

(ii) Rs. 50 immediately on receipt of an admission certificate from the Public Service Commission.

(Only Treasury receipts for these amounts will be accepted by the Public Service Commission.)

B—To the Local Government—

Rs. 10 before examination by a Medical Board.

No claim for a refund of these fees will be entertained.

13. The written examination will include the following subjects, each of which will carry 200 marks:—

The standard in subjects in Section B will be that of the B.A. (Pass) Examination of an Indian University.

NOTE 2.—Unless otherwise directed in the question paper the answers to questions in "Sanskrit" must be written in Devanagari script.

NOTE 3.—Papers set for the Indian Police Examination held in India in previous years are obtainable on payment from the Manager of Publications, Delhi.

14. The Public Service Commission will, if they think it desirable, determine what shall be the qualifying marks in all or any of the subjects of the examination.

15 From the marks assigned to candidates in each subject, such deduction will be made as the Public Service Commission may consider necessary in order to secure that no credit is allowed for merely superficial knowledge.

16 If a candidate's handwriting is not easily legible a deduction will be made on this account from the total marks otherwise accruing to him

17 Credit will be given for good English including orderly, effective and exact expression combined with due economy of words in all the subjects of the examination, and not only in the subjects which are specially devoted to English.

18. Candidates must apply before the 15th May 1935 through the Collector of the district in which they reside to the Chief Secretary to the Government of Madras A candidate from Coorg must apply through the Chief Commissioner of Coorg. A candidate from a State in India must apply through his Political Officer or Agent. Collectors or the Chief Commissioner of Coorg or the Political Officer or Agent should forward to the Chief Secretary to Government, Fort St. George, the applications with the certificate in the form attached to the application so as to reach him not later than the 21st May 1935 If in any case it is impossible to complete the enquiries by the date, the Collector or the Chief Commissioner of Coorg or the Political Officer or Agent should send this certificate subject to any necessary reservation and should furnish the result of his enquiries as soon as possible. Copies of the application form may be obtained from the Chief Secretary to Government, Fort St. George, on application with postage stamps to the value of one anna three pies

19. No allegation that an application form or letter respecting such form has been lost or delayed in the post will be considered unless the person making such allegation produces a post office certificate of posting Candidates who delay their applications till a late date do so at their own risk.

20. No recommendations except those invited in the form of applications will be taken into consideration Any attempt on the part of a candidate to obtain support for his application by other means may disqualify him for selection.

21 A candidate for whom a declaration under section 99-A of the Government of India Act is necessary should take immediate steps to obtain the requisite declaration. He will not be appointed unless he has obtained the declaration.

22. Candidates are warned that a revision of the existing rates of pay for the Indian Police is under consideration.

NOTIFICATIONS.

Fort St. George, March 26, 1935
[G. O. No. 311, Public (Services)].

[Typewriting qualification for clerks in Government offices.]

No 68.—The attention of prospective candidates for employment in clerical posts under the Government of Madras is drawn to the fact that under the Statutory Rules governing recruitment to such posts no person will be eligible to be considered for appointment as clerk after the 1st January 1935 unless he has passed the Government special test in typewriting by the higher grade, or by the lower grade at an examination held after the 1st January 1933.

In 1934 the Madras Services Commission will not include in its list of selected candidates who have not passed the typewriting examination unless it is impossible to select an adequate number of candidates who have passed it. Candidates who have not qualified in typewriting will not be included in the Commissions list of approved candidates unless they so qualify before the end of 1934; and these candidates will get no chance of appointment, even if they acquire the typewriting qualification, until after those who have qualified themselves before appearing for the Commission's examination.

Persons who wish to take up clerical appointments under the Government of Madras should, therefore, acquire the typewriting qualification without delay. Examinations in typewriting are held quarterly in January, April, July and October. Further particulars regarding these examinations may be obtained from the Secretary to the Commissioner for Government Examinations, Madras.

NOTIFICATION.

Fort St. George, April 1, 1935
(G. O. No. 341 L.)

No. 228.—The following draft of certain rules which the Governor in Council proposes to make in exercise of the powers conferred by section 13 of the Madras Maternity Benefit Act, 1934 (Madras Act VI of 1934), is hereby published, as required by sub-section (4) of the said section 13, for general information. Notice is hereby given that the draft will be taken into consideration on or after the 24th April 1935 and that any objection or suggestion which may be received from any person with respect thereto before the date aforesaid will be considered by the Governor in Council. Objections and suggestions should be addressed to the Secretary to Government, Public Works and Labour Department, Fort St. George.

DRAFT RULES UNDER THE MADRAS MATERNITY BENEFIT ACT, 1934.

1. These rules may be called the Madras Maternity Benefit Rules, 1935.

2. In these rules, 'the Act' means the Madras Maternity Benefit Act, 1934.

3. (1) For the purposes of sub-section (3) of section 6 of the Act, the fact that a woman has been confined shall be proved by the production of a certified extract from a birth register.

(2) For the purposes of section 7 of the Act, the death of a woman may be proved either by the production of a certificate from a registered medical practitioner or by the production of a certified extract from a death register.

4. Every employer of women in a factory shall, before the 15th of January in each year, furnish to the Inspector of Factories an annual return in duplicate in Form A annexed to these rules for the year ending on the 31st December immediately preceding.

5. (1) Every employer of women in a factory, not being a seasonal factory, shall prepare and maintain a muster roll and shall enter the following particulars in it, namely:—

(a) Name of factory.
(b) Name of woman and father's name.
(c) Department in which employed.
(d) Ticket or departmental number.
(e) Dates each month and year in which employed and not employed, the date of admission to employment and the date of discharge, if any, being clearly indicated.
(f) Date on which the woman gives notice under section 6 (1) of the Act.
(g) Date of confinement.
(h) Date of production of—
(i) certified extract from a birth register that the woman has been confined, or
(ii) certificate from a registered medical practitioner or certified extract from the death register, as to the death of the woman.
(i) Date of first payment of maternity benefit and amount of same.
(j) Date of subsequent payments of maternity benefit and amount of same.
(k) If the woman died, name of person to whom maternity benefit was paid.
(l) Remarks column for the use of the Inspector of Factories only.

(2) All entries in the muster roll shall be maintained up to date and the roll shall always be available for inspection by the Inspector of Factories at the premises during the working hours of the factory.

(3) The employer may enter in the muster roll such other particulars as may be required for any other purpose.

6. (1) The Chief Inspector of Factories appointed under sub-section (2) of section 10 the Factories Act, 1934, shall have jurisdiction throughout the Presidency of Madras, and he shall be responsible for the due administration of the Act and the rules made thereunder, throughout the said Presidency.

(2) Every Inspector of Factories appointed under sub-section (1) of section 10 of the Factories Act, 1934, shall have jurisdiction within the local limits assigned to him under that sub-section, and it shall be the duty of him under that sub-section, and it shall be the duty of such Inspector to see that the provisions of the Act and the rules made thereunder are duly complied with within such limits.

(3) District Magistrates who are ex-officio Inspectors of Factories by virtue of sub-section (3) of section 10 of the Factories Act, shall have jurisdiction under this Act within the limits of their respective districts.

(4) Officers appointed as additional Inspectors under sub-section (3) of section 10 of the Factories Act, 1934, shall have jurisdiction within the local limits assigned to them under the said sub-section.

7. (1) Every Inspector shall have power, within the local limits of his jurisdiction—

(a) to require the production of, and to examine, such records as are maintained in the factory, and

(b) to make such enquiries as may be necessary for the purpose of ascertaining whether the provisions of the Act or the rules made thereunder, have been or are properly carried out.

Provided that he shall not require any employer or to answer any question or to give any evidence tending to criminate himself.

(2) The power to inspect on prosecutions under sub-section (2) of section 11 of the Act shall be exercised—

(a) within the limits of the City of Madras, by the Commissioner of Police as an additional Inspector of Factories and

(b) elsewhere, by the District Magistrate as an ex officio Inspector of Factories.

8. (1) An Inspector shall at each inspection of a factory satisfy himself—

(a) that due action has been taken on every notice given under sub-section (1) of section 6 of the Act;

(b) that the muster roll prescribed in rule 6 of these rules is correctly maintained;

(c) that the amounts of maternity benefit have been correctly calculated;

(d) that there have been no cases of notices without sufficient cause coming within the purview of clause (b) of sub-section (2) of section 6 of the Act since the last inspection; and

(e) that section 14 of the Act has been complied with.

(2) The Inspector shall make a note of every inspection made under sub-rule (1) in the inspection report specified in rule 6 or 6 as the case may be of the Madras Factories (Amended) Rules, 1923.

(3) An Inspector of Factories shall issue orders in writing to the employer asking for the correction of all irregularities under the Act noticed by him and shall after consulting the Chief Inspector of Factories and having obtained the sanction required under sub-rule (2) of rule 7 institute prosecutions for breaches of law whenever deemed necessary.

(4) An Inspector of Factories shall keep a diary of the records of his inspection and shall indicate in the diary maintained with reference to rule 7 of the Madras Factories (Amended) Rules, 1923, the work done by him under this Act.

9. (1) The payment of any amount against a claim of maternity benefit shall be made by the employer to the claimant, or to the person nominated by her in the notice given under sub-section (1) of section 6 of the Act, and if there is no such person, to her legal representative.

(2) Whenever the payment referred to in sub-rule (1) is made, a receipt shall be obtained by the employer in Form B annexed to these rules.

10. Records relating to the payment of maternity benefit under the provisions of the Act or these rules shall be preserved for a period of two years from the date of their preparation.

11. (1) Any employer who contravenes the provisions of rule 5 shall be punishable with fine which may extend to fifty rupees.

(2) Any person who

(a) wilfully obstructs an Inspector of Factories in the exercise of his powers or the performance of his duties under these rules, or

(b) fails to produce on demand—

(i) the muster roll or

(ii) the notice given under sub-section (2) of section 6 of the Act, or

(iii) the receipts for maternity benefits paid or any other document necessary to enable an Inspector of Factories to ascertain whether the provisions of the Act and these rules have been complied with or not, or

(c) fails to submit the return or to preserve the records referred to in these rules shall be punishable with fine which may extend to fifty rupees

No. 213.—In exercise of the powers conferred by section 3 (1) of the Indian Electricity Act, 1910 (as amended), the Governor in Council is pleased to sanction the grant of the licence printed as an appendix to these proceedings to the Ellore Electric Supply Corporation, Limited, Madras, for the supply of electric energy in the area specified in the licence.

APPENDIX.

THE ELLORE ELECTRIC LICENCE, 1935.

LICENCE FOR THE SUPPLY OF ENERGY GRANTED BY THE GOVERNMENT OF MADRAS UNDER THE INDIAN ELECTRICITY ACT, 1910.

Licence is hereby granted to the Ellore Electric Supply Corporation, Limited, to supply electric energy in the area with powers and upon the terms and conditions all specified below.

1. *Short title.*—This licence may be cited as Ellore Electric Licence, 1935.

2. *Interpretation.*—This licence is to be read and construed as subject in all respects to the provisions of the Indian Electricity Act, 1910, with the statutory modifications thereof and to the rules thereunder, and the several words, terms and expressions to which meanings are assigned by that Act or any other statutory modifications thereof or by the rules thereunder or the General Clauses Act, 1897, shall have in this licence and the annexures thereto the same respective meanings provided that in this licence—

(1) The expression "The Act" shall mean the Indian Electricity Act, 1910, with the statutory modifications thereof.

(2) The expression "The licensees" shall mean and include the Ellore Electric Supply Corporation, Limited, Madras, and their permitted assigns.

(3) The expression "First Annexure," "Second Annexure," "Third Annexure," and "Fourth Annexure" shall mean the first, second, third and fourth annexures to the licence, respectively.

(4) The expression "Deposited Map" shall mean the plan showing the area of supply or the streets or routes along which the electric lines have compulsorily to be laid, all hereinafter specified which has been deposited with the Government of Madras in pursuance of the rules under the Act and which plan is signed for the purpose of identification by the Secretary to Government of Madras in the Public Works and Labour Department and by the applicants under the name and style of The Ellore Electric Supply Corporation, Limited.

(5) The expression "Unit" shall mean the quantity of energy contained in a current of one thousand amperes flowing under an electromotive force of one volt during one hour.

(6) The expression "Load Factor" shall mean the ratio or percentage of the average quantity per hour to the maximum quantity per hour of energy supplied in any month.

3. *Commencement of licence.*—The date of the notification by the Government of Madras in the *Fort St. George Gazette*, that this licence has been granted is in this licence referred to as the "Commencement of Licence."

4. *Security.*—(a) The period within which under clause I (a) of the Schedule to the Act the licensees shall show that they have available capital of Rs. 1,30,000 and are in a position fully and efficiently to discharge the duties and obligations imposed upon them by this licence throughout the area of supply shall unless otherwise ordered by the Government of Madras under that clause be six months from the commencement of the licence.

(b) The period within which under clause I (b) of the Schedule to the Act the licensees shall deposit security and the sum so deposited shall unless otherwise ordered by the Government of Madras be six months and rupees five thousand, respectively.

5. *Area of supply.*—The area within which the supply of electric energy is authorised by this licence is the whole of the area contained within a radius of six miles from the Powerpet Railway Station and more properly delineated in red on the deposited map.

6. *Purpose of supply.*—Subject to the provisions of this licence and the Act and Rules thereunder, the licensees shall be entitled during the continuance of the licence to supply energy within the area of supply for all purposes, provided that the licensees shall not without adequate notice being served on them be under any obligation under section 24 of the Act to supply more energy than is consistent with their obligation to maintain a constant supply to consumers due regard being had to the licensees' load factor.

Provided that no supply of energy shall be commenced until the licensees' works have been inspected by the Electric Inspector to Government and passed by him in writing and until the Government of Madras have approved (a) the form of requisition to be made for the supply of energy by owners or occupiers of premises (b) the form of written contract or agreement with the licensees to take a supply of energy and (in) all miscellaneous charges incidental to or in connexion with such supply; and also until the Government have been duly notified of the amount of all retail rates actually to be charged to consumers for energy supplied for various purposes.

Provided further that every change in or addition to the rates shall be communicated to Government at least one month prior to its coming into force.

7. (1) *Systems of supply.*—The systems to be applied for the supply and transmission of electric energy under this licence are the following:—

(a) A medium pressure alternating current 3-phase, 4-wire supply at the pressure at the consumer's terminals of 400 volts (approximately between phases and 230 volts between phase and neutral) which shall be earthed at one point only on each separate distributing system and at a frequency of 50 complete periods per second.

(b) A high pressure alternating current 3-phase transmission lines at a pressure of 11,000 volts between phases at a frequency of 50 complete periods per second.

(c) Extra high pressure alternating current 3-phase energy at any standard pressure approved by the Government and at a frequency of 50 complete periods per second may be transmitted between the generating station and one or more receiving stations.

(d) Any prospective consumer within the licensed area having a connected load of 150 horse-power or more may, if desired, be supplied with electrical energy in bulk at high tension by Government direct provided that, in the opinion of Government, it will be economically possible to do so.

(e) The neutral points of the high pressure system may, with the approval of the Government of Madras and the concurrence of the telegraph authority and the railway authority, be connected to earth. Provided always that it shall be lawful for the Government from time to time to issue, with due regard to the expenses involved, and to the effect upon the commercial prospects of the undertaking regulations dealing with the above system of supply or to authorize subject to such limitations and conditions as shall be prescribed in writing by the Government other systems of supply to be adopted for the purpose of this licence.

(2) The transmission lines, feeders, distributing mains and service lines may be overhead or underground in whole or in part, and shall be erected, constructed and maintained by the licensees in strict conformity with the Act and the rules thereunder and the following provisions:—

(a) The licensees shall not use overhead mains at any higher pressure than medium pressure without the sanction in writing of the Electrical Inspector in each case and subject to any conditions or limitations which the Electrical Inspector may prescribe.

(b) In the streets mentioned in the third annexure hereto or in any other streets which may at any time be hereafter named in writing by the Government of Madras, all electric lines shall be laid underground.

(c) Where the transmission or electric supply line crosses or runs along the routes of takoot, temple car or similar religious processions, the wires shall be laid underground or at such height as will allow of the free and safe passage of those processions.

(d) Posts for overhead lines shall not be erected without the previous permission of an Electrical Inspector in such portions of streets or thoroughfares where the clear width for vehicular traffic after the post is erected is less than 14 feet.

(e) In narrow lanes through which wheeled traffic is not permitted the posts shall be placed on

the extreme edge of the lane and a special construction to be approved by the Electrical Inspector adopted to make the wires recoverable from every bending.

(f) In any street or its direct continuation in which overhead electric lines are run, such lines, except with the previous permission of the Electrical Inspector, shall be run on one side only.

(g) Where overhead mains are used due precaution shall be taken by the licensees to avoid any possible interference with the adjacent Telegraph or Telephone circuits due to inductive effects. The overhead wires shall be suitably transposed, where necessary.

(h) For the purpose of rule 61 of the Indian Electricity Rules, 1922, the maximum wind pressure shall be taken as 20 lb. per square foot.

3. *Compulsory works.*—(a) The licensees shall lay down suitable and sufficient transmission lines, feeders and distributing mains and erect the necessary for giving a continuous supply of energy and shall do all other works necessary for the commencement of the supply and to the satisfaction of the Government of Madras throughout such streets or parts of streets as are mentioned in the first annexure and as indicated in red on the deposited map. In the case of difference between the description in the first annexure and as indicated on the deposited map, the latter shall prevail. The licensees shall commence to execute the works aforesaid within one year from the commencement of the licence and shall complete the same within three years thereof. The works aforesaid shall be in general accordance with the scheme mentioned in the applicant's letter, dated 10th August 1931, to the Secretary to Government, Public Works and Labour Department.

(b) Further within twelve months of the receipt of the application and subject to the first proviso of clause 6 (1) of the schedule to the Act, the licensees shall lay down suitable and sufficient additional transmission lines feeders and distributing mains as may be required to effect supply to every applicant, village or community, within the area having a demand of not less than 6,000 units per annum per mile of an additional low tension line, 12,000 units per mile of 11,000 volt line and 15,000 units per mile of line of over 11,000 volts.

(c) In addition to the streets mentioned in the first annexure the licensees shall lay down further distributing mains to the aggregate length of one mile as may be directed by the Government of Madras within six months of the commencement of the supply.

(d) If the licensees fail to comply with the above provisions or should in the opinion of the Government of Madras the progress made during any portion of the said period of two years be unsatisfactory the licence may be revoked and the security furnished as per clause 4 (c) above forfeited.

(e) The licensees shall submit to the Electrical Inspector to Government (Chief Engineer for Electricity) reports every six months from the commencement of the licence until the completion of the compulsory works specifying all steps taken and the progress made in carrying into effect the licensee.

9. *Generating station.*—(a) There shall be only one generating station and it shall be within the area of supply.

(b) The licensees shall be at liberty to generate from one generating station within the area of supply energy to satisfy all or part of their requirements and buy the remainder in bulk or to generate no energy and to buy all the energy required for distribution and resale from a hydro-electric or other source having a generating station outside the area of this licence.

(c) *Transmission lines from generating station.*—For the purpose of conveying and transmitting energy, the licensees may, after an order in writing has been made by the Government of Madras conferring upon them such of the powers referred to in section 51 of the Act as may be necessary and upon obtaining the general approval required by section 18 of the Act, place aerial transmission lines from the generating station to one or more receiving stations. The alignment of the aerial transmission from the generating station and up to one or more receiving stations shall be subject to the previous approval of the Chief Engineer for Electricity.

(d) The licensees shall employ a resident Electrical Engineer in technical charge of the undertaking who in the opinion of the Government is qualified for the purpose.

10. *Breaking up of streets and railways and crossing of waterways.*—(a) The licensees are hereby specially authorised to open and break up the soil and pavement of the streets not repairable by the Government of Madras or by the local authority and mentioned in the second annexure to this licence and also to open and break up the soil and pavement of the railways also mentioned in the said annexure at such points and places and to such extent only as shall have been previously approved in writing by the Government after the licensees have given such special notice or notices as the Government may direct and within such period as the Government may fix in this behalf on the person who are entitled to work the said railways and after all representations or objections received in accordance with any such notice have been considered by the Government.

(b) The length of the trenches to be opened on any street at any one time and the period for which they may remain open shall be determined from time to time by the Government of Madras or the local authority by which such streets are repairable. When any street is crossed not more than half the width of such street shall without the specific authority in writing of the Government of Madras or the local authority as aforesaid be closed for traffic.

(c) The licensees are further authorised to cross all river, streams and irrigation channels within or contiguous to the area of supply in accordance with such conditions as the Government may impose.

11. *Limits of prices to be charged in respect of supply of energy.*—(a) The prices to be charged by the licensees for energy supplied by them shall not exceed those stated in that behalf in the fourth annexure or in the case of a method of charge approved by the Government of Madras in accordance with clause 10 of the schedule to the Act, such maximum as the Government of Madras may fix on approving the method; nevertheless the licensees may enter into special contracts subject to sections 22 and 23 of the Act for the supply of energy.

(b) Should a supply of energy in bulk become available at any licence date from a Government Power System or other source of supply at such rates, that the rates of supply of distributed energy under this licence should be appreciably reduced, the licensees shall obtain their supply from such system or source of supply within twelve months from the date from which notice is given by Government that such supply is available, provided that this notice by Government shall not be given within the first six years from the commencement of supply.

(c) In the case where the energy is obtained from a Government Power System the licensees shall conform in resale rates and in conditions of working to such regulations as may be issued by the Government. If a bulk supply is obtained from a source other than a Government Power System the licensees shall reduce the rates charged to consumers and also the maximum specified in the fourth annexure of this licence to such extent as may be directed by the Government.

12. *Continuity of service.*—It shall be the duty of the licensees to give to the nearest magistrate immediate and full information of any circumstance in which the interruption of the supply may be apprehended as a result of civil commotion or disturbance of the public peace or any strike or lock out of the nature specified in section 15 of the Trade Disputes Act, 1929.

13. *Purchase of undertaking.*—(a) The option of purchase given by section 7, sub-section (1) of the Act shall first be exercisable on the expiration of twenty years from the commencement of this licence and on the expiration of every subsequent period of seven years during the continuance of this licence. The percentage of the value to be determined in accordance with and for the purpose of sub-section (1) of section 7 of the Act of all lands, buildings, works, materials and plants of the licensee therein mentioned to be added under the second proviso of the sub-section in such value on account of compulsory purchase shall be 20 per centum.

(b) In accordance with section 3, sub-section (2), clause (d) (ii) of the Act it is hereby expressly declared that the generating station within the area of supply belonging to the licensee and to be used in connexion with the undertaking, or if there is

on generating station within the area of supply but energy is bought from a hydro-electric or other source, then in that case the one or more receiving and distributing stations to be used in connexion with the undertaking as also the unpaid balance of any apparatus or wiring provided by the licensees on hire purchase shall form part of the undertaking for the purpose of purchase under section 5 or section 7 of the Act

(i) During the period of notice prescribed in section 7 (4) of the Act all extensions and outlays of money debitable to the capital account of the licensees shall be subject to the previous approval of the Government.

14. *Duration from the schedule to the Act*.—In pursuance of section 3, sub-section (2), clause (f) of the Act it is hereby expressly declared that clause IX of the schedule to the Act shall be excepted from incorporation in this licence

15 *Assignment of licence*.—At any time after the commencement of the licence the licensees may assign this licence or transfer the whole of their undertaking in respect of which this licence is granted (including all lands, buildings, works, materials and plant of the licensees) to a company formed or to be formed and registered in British India, having authority to take over licence and the said undertaking as the case may be and to exercise the powers and perform the obligations given to or imposed upon the licensees under this licence and the Act, and rules made under the Act and on such assignment or transfer the rights, powers and authorities, obligations and liabilities of the licensees shall be assigned and transferred to and shall be exercised by and shall attach to such company formed or to be formed as aforesaid

Provided (1) that a complete statement of the terms of the proposed assignment is placed before the Government of Madras and that no charge on account of premium or in the case of an undertaking not earning profits of goodwill shall be included in the terms of assignment and

(2) that no assignment shall be made without the previous consent in writing of the Government of Madras,

16. *Revocation*.—If the licensees fail to comply with the provisions of any of the clauses hereof, the licence may be revoked.

No. 343.—

The following notice of an advertisement published in the issue of the *Justice*, dated 1st March 1935, is published:—

The Engineers Association, Limited, Bellary, having applied to the Government of Madras for the grant of licence to supply electric energy within the

Municipal limits at Cuddapah, under the conditions set forth in the draft licence published below, notice is hereby given that any local authority, company or person desirous of making any representation in respect of the application may do so by letter addressed to the Secretary to Government, Public Works and Labour Department, Fort St. George, Madras, within three months from the date of the issue of the newspaper in which the advertisement is first published.

The copy of the deposited map may be inspected free and the copies of the above draft licence obtained at a cost of Re. 1 each at the office of the Engineers Association, Limited, Fort, Bellary.

THE DRAFT CUDDAPAH ELECTRIC LICENCE, 1926.

Licence is hereby granted to the Engineers Association, Limited Bellary, to supply electrical energy (hereinafter called the licensees) in the area and with the powers and upon the terms and conditions all specified below :—

1. *Short title.*—This licence may be cited as "The Cuddapah Electric Licence, 1926."

2. *Interpretation.*—This licence is to be read and construed as subject to all respects to the provisions contained in the Indian Electricity Act, 1910, with the statutory modifications thereof and to the rules thereby made, and the several words, terms and expressions, to which meanings are assigned by that Act or any statutory modifications thereof or by the rules thereunder or the General Clauses Act, 1897, shall have in this licence and the annexures thereto the same respective meanings, provided that in this licence—

(1) The expression 'The Act' shall mean the Indian Electricity Act, 1910, with the statutory modifications thereof.

(2) The expression 'The licensees' shall mean and include the Engineers Association, Limited, Bellary, and their permitted assigns.

(3) The expressions 'First Annexure,' 'Second Annexure,' 'Third Annexure,' 'Fourth Annexure' and 'Fifth Annexure' shall mean the first, second, third, fourth and fifth annexures to this licence respectively.

(4) The expression 'Deposited Map' shall mean the plan showing the area of supply or the streets or routes along which electric lines have conjointly to be laid, all hereinafter specified, has been deposited with the Government of Madras in pursuance of the rules under the Act, and which plan is signed for the purpose of identification by the Secretary to the Government of Madras in the Public Works and Labour Department and by the applicants under the name and style of the Engineers Association, Limited, Bellary.

(5) The expression 'Unit' shall mean the quantity of energy contained in a current of one thousand ampere flowing under an electro-motive force of one volt during one hour.

(6) The expression 'Load Factor' shall mean the ratio or percentage of the average quantity per hour to the maximum quantity per hour of energy supplied in any month.

3. *Commencement of licence.*—The date of the notification by the Government of Madras in the *Fort St. George Gazette*, that this licence has been granted is to this licence referred to as 'The Commencement of the Licence.'

4. *Security.*—(a) The period within which under clause I (a) of the schedule to the Act the licensees shall show that they have available capital of rupees one lakh and are in a position fully and efficiently to discharge the duties and obligations imposed upon them by this licence throughout the area of supply shall unless otherwise ordered by the Government of Madras under that clause be nine months from the commencement of the licence.

(b) The period within which under clause I (b) of the schedule to the Act the licensees shall deposit security and the sum so to be deposited shall unless otherwise ordered by the Government of Madras be six months and rupees five thousand respectively.

5. *Area of supply.*—The area, within which the supply of electric energy is authorized by this licence is the whole of the area contained within boundaries of the Cuddapah Municipality and more particularly delineated on the deposited map in white chain line. The supply may have to be extended to the proposed water works on the bank of River Penner.

6. *Purpose of supply.*—Subject to the provisions of this licence and the Act and the rules thereunder the licensees shall be entitled during the continuance of this licence to supply energy within the area of supply for all purposes.

Provided that the licensees shall not without adequate notice being served on them be under any obligation under section 23 of the Act to supply more energy than is consistent with their obligation to maintain a constant supply to consumers due regard being had to the licensees' load factor :

Provided that no supply of energy shall be commenced to be given by the licensees to owners or occupiers of private premises until the Government of Madras have approved the form of requisition of the owners or occupiers for such supply of energy and also the form of written contract or agreement with the licensees to take a supply of energy which is to be executed or entered into by the owners or occupiers and until the Government of Madras have also approved the amounts of all retail rates actually charged to consumers for energy supplied for various purposes as also all miscellaneous charges incidental to or in connexion with such supply and which the licensees propose to make against the other licensees and consumers and also until the licensees' works have been inspected by the Electrical Inspector to Government and passed by him in writing.

7. (1) *System of supply.*—The systems to be adopted for the supply and transmission of electric energy under this licence are the following :—

(a) A medium pressure alternating current 3-phase 4 wire supply at a pressure at the consumer's terminals of 400 volts (approximately) between phases and 230 volts between phase and neutral which shall be earthed at one point only on each separate distributing system and at a frequency of 50 complete periods per second.

(b) A high pressure alternating current 3-phase supply at a pressure of 3,300 or 6,600 volts between phases and at a frequency of 50 complete periods per second.

(c) Extra high pressure alternating current 3-phase energy at any standard pressure approved by Government and at a frequency of 50 complete periods per second may be transmitted between the generating station and the one or more receiving stations.

(d) The neutral points of the high or extra high pressure systems may, with the approval of the Government of Madras and the concurrence of the Telegraph authority and the Railway, be connected to earth.

Provided always that it shall be lawful for the Government from time to time to make, with due regard to the expense involved and to the effect upon the commercial prospects of the undertaking, regulations dealing with the above systems of supply or to authorise subject to such limitations and conditions as shall be prescribed in writing by the Government other systems of supply to be adopted for the purposes of this licence.

(2) The transmission lines, feeders, distributing mains and service lines may be overhead or underground in whole or in part, and shall be erected, constructed and maintained by the licensees in strict conformity with the Act and the rules thereunder and the following provisions :—

(a) The licensees shall not use overhead mains at any higher pressure than medium pressure without the sanction in writing of the Electrical Inspector to Government in each case and subject to any conditions or limitations which the Electrical Inspector to Government may prescribe.

(b) No conductor of an aerial line erected in, over, along or across any of the streets mentioned or in any other streets which may at any time hereafter be named in writing by the Government of Madras shall be at a less height from the ground than 20 feet.

(c) In the streets mentioned in the third annexure hereto or in any other streets which may at any time hereafter be named in writing by the Government of Madras all electric lines shall be laid underground.

(d) Where the transmission or electric supply line crosses or runs along the routes of tabout, temple car or similar religious processions, the wires shall be laid underground or at such height as will allow of the free and safe passage of these processions or shall be temporarily removed.

(e) In all streets and thoroughfares less than 14 feet in width for wheeled traffic, posts for overhead electric lines shall not be erected.

(f) In narrow lanes through which wheeled traffic is not permitted the posts shall be placed on the extreme edge of the lane and a special construction to be approved by the Electrical Inspector

adopted to keep the wires four feet clear of every building.

(c) In any street or its direct continuation in which overhead electric lines are run, such lines shall be run through out on one side only.

(d) Where overhead mains carrying alternating current are used, due precautions shall be taken by the licensees to avoid any possible interference with the adjacent telegraph or telephone circuits due to inductive effects, the overhead wires shall be suitably transposed where necessary.

(e) For the purpose of rule 61 of the Indian Electricity Rules, 1922, the maximum wind pressure shall be taken as 12 lb. per square foot.

8. *Compulsory works.*—(a) The licensees shall lay down suitable and sufficient transmission lines, feeders and distributing mains and erect the generating station with all machinery and apparatus necessary for giving a continuous supply of energy and shall do all other works necessary for the commencement of the supply and to the satisfaction of the Government of Madras throughout such streets or parts of streets as are mentioned in the first annexure and as indicated in red on the deposited map In the case of difference between the description in the first annexure and as indicated on the deposited map the latter shall prevail. The licensees shall commence to execute the works aforesaid within twelve months from the commencement of the licence and shall complete the same within three years thereof. The works aforesaid shall be in general accordance with the scheme mentioned in the fifth annexure and with such modifications as may be approved hereafter in writing by the Government of Madras

(b) Further within 12 months of the receipt of the application and subject to the first proviso of clause VI (1) of the schedule of the Act, the licensees shall lay down suitable and sufficient additional transmission lines, feeders and distributing mains, as may be required to effect a supply to every applicant village or community within the area having a demand of not less than 2,000 units per annum per mile of additional transmission and feeder line.

(c) In addition to the streets mentioned in the first annexure the licensees shall lay down further distributing mains to an aggregated length of one mile as may be directed by the Government of Madras within six months of the commencement of the supply.

(d) If the licensees fail to comply with the above provisions or should, in the opinion of the Government of Madras the progress made during any portion of the said period of three years be unsatisfactory, the licence may be revoked and the security furnished as per clause 4 (b) above forfeited

(e) The licensees shall submit reports to the Electric Inspector of Government every six months from the commencement of this licence until the completion of the compulsory works specifying all steps taken and the progress made in carrying into effect this licence

9. *Generating station.*—(a) There shall be only one generating station and it shall be within the area of supply.

(b) The licensees shall be at liberty to generate from one generating station within the area of supply energy to satisfy all or part of their requirements and buy the remainder in bulk or to generate no energy and to buy all the energy required for distribution and resale from a hydro-electric or other sources having a generating station outside the area of this licence

(c) *Transmission lines from generating stations.*—For the purpose of conveying and transmitting energy, the licensees may, after an order in writing has been made by the Government of Madras conferring upon them such of the powers referred to in section 51 of the Act as may be necessary, and upon obtaining the general approval required by section 18 of the Act, place aerial transmission lines from the generating station to one or more receiving stations. The alignment of the aerial transmission lines from the generating station and up to the one or more receiving stations shall be subject to the previous approval of the Government.

10. *Breaking up of streets and Railways and crossing of water-ways.*—(a) The licensees are hereby specially authorized to open and break up the soil and pavement of the streets not repairable by the Government of Madras or by the local authority and mentioned in the second annexure to this licence and also to open and break up the soil and pavement of the Railways also mentioned in the said annexure at such points and places and to such extent only as shall have been previously approved in writing by the Government after the licensees have given such special notice or notices as the Government may direct and within such period as the Government may fix in this behalf to the persons who are entitled to work the said Railways and after all representations or objections received in accordance with any such notices have been considered by the Government

(b) The length of the trenches to be opened on any street at any one time and the period for which they may remain open shall be determined from time to time by the Government of Madras or the local authority by whom such streets are repairable When any street is crossed not more than half the width of such street shall without the specific authority in writing of the Government of Madras or the local authority as aforesaid be closed for traffic.

(c) The licensees are further authorized to cross all rivers, streams and irrigation channels within or contiguous to the area of supply in accordance with such conditions as the Government may impose.

11. *Limits of prices to be charged in respect of the supply of energy.*—(a) The prices to be charged by the licensees for energy supplied by them shall not exceed those stated in that behalf in the fourth annexure or in the case of a method of charge approved by the Government of Madras in accordance with clause X of the schedule to the Act, such maximum as the Government of Madras may fix on approving the method, nevertheless the licensees may enter into special contracts, subject to sections 22 and 23 of the Act, for the supply of energy.

(b) Should a supply of electrical energy in bulk become available at any future date from a Government power system or other source of supply at such rates that the rates of supply of distributed energy under this licence could be appreciably reduced, the licensees shall obtain their supply from such system or source of supply within 18 months from the date from which notice is given by Government that such supply is available

(c) In the case where the energy is obtained from a Government power system, the licensees shall conform in re-sale rates and in conditions of working to licensees shall obtain their supply from such system such regulations as may be prescribed by the Government. If a bulk supply is obtained from a source, other than a Government power system, the licensees shall reduce the rates charged to consumers and also the maximum specified in the fourth annexure of this licence to such extent as may be directed by the Government.

12. *Continuity of service.*—It shall be the duty of the licensees to give to the nearest Magistrate immediate and full information of any circumstances in which interruption of the supply may be apprehended as a result of civil commotion or disturbance of the public peace or any strike or lock out of the nature specified in section 15 of the Trade Disputes Act, 1929

13. *Purchase of undertaking.*—(a) The option of purchase given by section 7, sub-section (1) of the Act shall first be exercisable on the expiration of thirty years from the commencement of this licence and on the expiration of every subsequent period of ten years during the continuance of this licence. The percentage of the value to be determined in accordance with and for the purpose of sub-section (1) of section 7 of the Act, of all lands buildings, works, plants, and unpaid balances, if any on apparatus or wiring provided on hire-purchase of the licensees therein mentioned to be added under the second proviso of the sub-section to such value on account of compulsory purchase shall be twenty per centum

(b) In accordance with section 3, sub-section (2), clause (*d*) (ii) of the Act it is hereby expressly declared that the generating station within the area of supply belonging to the licensees and to be used in connexion with the undertaking, or if there is no generating station within the area of supply but energy is brought from a hydro-electric or other source, then in that case the one or more receiving and distributing stations to be used in connexion with the undertaking as also the unpaid balances, if any, of apparatus or wiring provided by the licensees on hire-purchase system shall form part of the undertaking for the purpose of purchase under section 5 or section 7 of the Act.

(c) During the period of notice prescribed in section 7 (5) of the Act, all extensions and outlays of money debitable to the capital account of the licensees shall be subject to the previous approval of the Government

14. *Variations from the Schedule to the Act.*—In pursuance of section 3, sub-section (2), clause (*f*)

of the Act it is hereby expressly declared that clauses IV and IX of the schedule to the Act shall be excepted from incorporation in this licence.

11 *Assignment of licence.*—It may (nor after the commencement of the licence, the licensee may assign this licence or transfer the whole of their undertakings in respect of which this licence is granted including all lands, buildings, works, materials and plant of the licensees to a company formed or to be formed and registered in British India having power to take over the licence and the said undertaking as the case may be and to carry on the powers and perform the obligations given to or imposed upon and perform the obligations under this licence and the Act and the licensees under this licence and the Act and the rules made under the Act and on such assignment or transfer the rights, powers and authorities, obligations and liabilities of the licensees shall be assigned and transferred to and shall be exercised by and shall attach to such company formed or to be formed as aforesaid

Provided—

(1) that a complete statement of the terms of the proposed assignment is placed before the Government of Madras and that no charge on account of premium or on the sale of an undertaking not earning profits or goodwill shall be included in the terms of the assignment;

(2) that no assignment shall be made without the previous consent in writing of the Government of Madras.

12 *Revocation.*—If the licensees fail to comply with the provisions of any of the clauses hereof, the licence may be revoked.

FIRST ANNEXURE.

Chamelcherry Works

List of streets or parts of streets in which the licensees are to lay down suitable distributing mains for the purpose of supply of electric energy :—

(1) Trunk road from Railway station to Bellary road.
(2) Madras road from Bazar to Hostel.
(3) Bellary road from trunk road to Saifelt road.
(4) Saifelt road.
(5) Hospital road.
(6) Christian line.
(7) Iswarasingh street.
(8) Nagarapet road.
(9) Smith road.
(10) G. Rama Rao street.
(11) Subrahmanyam temple street.
(12) Narasa Ramayya street.
(13) Sambadri Pantulu street (part).
(14) Badarkhan street.
(15) Yallalla Venkatachala street.
(16) Habibullah Sahib street.
(17) Newham's Bazaar street.
(18) Jangam Erikela street.

SECOND ANNEXURE.

Breaking up of Streets and Railways.

List of streets not repairable by the Government of Madras or by a local authority and of tramways and railways which may be broken up in pursuance of the special powers granted by this licence :—

Streets.—Nil.
Tramways.—Nil
Railways.—Madras and Southern Mahratta Railway.

THIRD ANNEXURE.

Electric Lines.

Underground lines.—List of streets or parts of streets wherein all electric lines shall be laid underground—Nil.

FOURTH ANNEXURE.

Maximum Charges.

1 *Domestic supply.*—(a) Lights only—7½ annas per unit subject to a monthly minimum of Rs. 3 for 5 or more points and Rs. 2-8-0 for lesser number of points.

(b) Lights, ceiling fans and mains, radio receiving sets—7 annas per unit subject to the same minimum as above.

(c) Heating and cooking when metered separately—3 annas per unit subject to a monthly minimum of Rs. 3 per month.

2 *Power lights.*—Rupees 2-8-0 per month for a lamp of a capacity of 40 watts or less burning for not more than 6 hours per day between 5 p.m. and 11 p.m. For lamps burning for more hours or of larger wattages proportionate rates.

3. *Industrial power.*—Subject to a monthly minimum charge of Rs. 5 per K.W. connected load.—

For the first 600 units per measure, 3 annas per unit.

For the next 1,000 units per measure, 2½ annas per unit

For the next 2,500 units per measure, 2 annas per unit

For the rest, 1½ annas per unit.

4 *Municipal street lighting.*—Rupees 22 per annum for each 10 watt lamp burning for not more than 220 hours per month on an average and proportionately for lamps of higher wattages or burning for more number of hours with a minimum of 350 lamps of 40 watts or their equivalent in power.

5 *Water-supply.*—Two and a half annas per unit up to 4,000 units subject to a monthly minimum of 3,000 units and 2 annas per unit in excess of 4,000 units a month.

6 *Clubs, theatres, Railway company, buildings of local authority and such other consumers.*—By special arrangement.

The use of power under items 3 and 4 is restricted to the hours from 11 p.m. to 5 p.m and 50 per cent surcharge may be levied for use from 5 p.m. to 11 p.m.

A rent of 8 annas for meters up to 10 amperes single phase and Re 1 for those above 10 amperes or polyphase per month will be charged

FIFTH ANNEXURE.

Submitted to Government.

D. B. K. Chan ms. (Eng.)
Managing Director,
for Engineers Association, Limited, Bellary

Fort St. George, March 23, 1936.

No. 234.—An application has been made to Government by the Salem Erode Electricity Distribution Company, Limited, the licensee under the Salem Erode Electric Licence, 1930, for the grant to them of the powers of the Telegraph authority for laying a 6.6. K.V. electric transmission line to their sub-stations at Erumapalayam and Kalarampatti villages along the route marked A, B, C and D in plan A 58 submitted with the licensee's letter No. Sal./830/30, dated 5th February 1936. It is proposed to confer upon the applicants the powers which the Telegraph authority possesses under sections 10—10 and 19-A of the Indian Telegraph Act, 1885, subject to the following conditions :—

(1) The transmission line shall be run as far as possible in a straight line along the route marked in the plan.

(2) The telegraph and telephone lines, if any, crossing the power line shall be efficiently guarded to the satisfaction of the Telegraph authority and the Chief Engineer for Electricity and all such crossings shall be at right angles or as nearly at right angles as possible.

(3) In all cases where the telegraph and telephone lines are diverted or altered at the request of the licensees, the cost of such diversion or alteration shall be borne by them.

(4) No distribution shall be effected from the transmission line.

2 Every local authority, company or person desirous of making any representations in respect of the application may do so by letter addressed to the Secretary to Government, Public Works and Labour Department, Fort St. George, Madras, within one month of this notification in the Gazette. The map showing the route of the transmission line will be kept for public inspection in the Municipal Office at Salem.

Fort St. George, March 28, 1935.

DRAFT PALACODE ELECTRIC LICENCE, 1935.

No. 235.—Insert the following as clause 3-A in the draft Palacode Electric Licence, 1935, published as Notification No. 78, on page 200 of Part I of the *Fort St. George Gazette*, dated 5th February 1935 :—

"3 *A. Security.*—The period within which under clause 1 (a) of the schedule to the act, the licensees shall show that they have available capital of Rs. 1,00,000 and are in a position fully and efficiently to discharge the duties and obligations imposed upon them by the licence throughout the area of supply shall unless otherwise ordered by the Government of Madras under that clause be nine months from the commencement of the licence.

The period within which under clause 1 (b) of the schedule to the Act, the licensees shall deposit security and the sum so to be deposited shall unless otherwise ordered by the Government of Madras be six months and rupees five thousand respectively."

Fort St. George, March 26, 1935.

No. 236.—The following notifications of the Government of India are republished :—

RAILWAY DEPARTMENT.

(RAILWAY BOARD)

New Delhi, the 12th March 1935.

No. 1078-T-XXXII.—In exercise of the powers conferred by section 47 of the Indian Railways Act, 1890 (IX of 1890), and by the notification of the Government of India in the Department of Commerce and Industries, No. 803, dated the 24th March 1905, the Railway Board direct that the following further amendment shall be made in the General Rules for all open lines of Railways in British India published with the Notification of the Government of India in the Railway Department (Railway Board), No. 1078-T, dated the 9th March 1929, namely :—

In part I of the said rules, in rule 166—

(1) In clause (a) the word 'immediately' shall be omitted ;

(2) For clauses (c) to (*f*) the following clauses shall be substituted, namely :—

"(c) When such a person is recalled, he shall leave down the three detonators, and on his way back pick up the intermediate detonator ;

(d) Unless otherwise laid down by special instructions, the Driver shall at once show a danger signal to the front, and proceed to protect the train in the manner prescribed in clauses (*b*) and (*c*), either by going himself or by sending his Fireman or some other competent person ;

(e) If the stoppage has occurred on one of two or more parallel lines, whether of the same or different gauges, and it is found that the unoccupied line or lines are also obstructed, the persons deputed to protect the train under clauses (*a*), (*b*), (*c*) and (*d*) shall, while carrying out the duties therein laid down, protect in a similar manner the unoccupied line or lines obstructed, the protection of the obstructed adjacent line or lines preceding that of the occupied line."

DEPARTMENT OF INDUSTRIES AND LABOUR.

The 13th March 1935.

No. L-3033.—In exercise of the powers conferred by section 35 of the Workmen's Compensation Act, 1923 (VIII of 1923), the Governor General in Council is pleased to make the following rules for the transfer to any part of His Majesty's Dominions or to any other country of money paid to a Commissioner under the Act for the benefit of any person residing or about to reside in such part or country and for the receipt and administration in British India of any money awarded under the law relating to workmen's compensation in any part of His Majesty's Dominions or in any other country, and applicable for the benefit of any person residing or about to reside in British India.

RULES.

PART I.—*General.*

1. These rules may be called the Workmen's Compensation (Transfer of Money) Rules, 1935.

2. In these rules, unless there is anything repugnant in the subject or context

(*a*) "the Act" means the Workmen's Compensation Act, 1923,

(*b*) "authorised officer" means any officer whom the local Government may designate either generally or in respect of any area or class of cases, for the purpose of performing the functions assigned by these rules to the authorised officer,

(*c*) "transferring authority" means any authority in any part of His Majesty's Dominions or in any other country who transfers or causes to be transferred any lump sum awarded under the law relating to workmen's compensation in such part or country and applicable for the benefit of any person residing or about to reside in British India.

3. When any sum is transmitted by any authority in British India to any other authority in accordance with these rules, the costs of such transmission may be deducted from the sum so transmitted.

4. Money transmitted by any authority in British India to any other authority in British India in accordance with these rules, shall be transmitted by one of the methods

prescribed in rule 41 of the Workmen's Compensation Rules, 1924.

PART II.—*Transfer of money paid to a Commissioner for the benefit of any person residing or about to reside in another country.*

5. When the whole or any part of a lump sum deposited with a Commissioner for payment as compensation under the Act is payable to any person or persons residing or about to reside in any other country, the Commissioner may order the transfer to that country of the sum so payable.

6. When the Commissioner has ordered the transfer of any sum under rule 5, he shall cause to be prepared and shall certify under his hand a memorandum containing a brief statement of the facts of the case, of the orders passed upon it, and of the name and address of each person to whom payment is to be made.

7. If the Commissioner is not himself the authorised officer he shall forward the memorandum in duplicate to the authorised officer and may either remit the sum to be transferred to the authorised officer or retain it and dispose of it in accordance with the directions of the authorised officer. If the Commissioner is himself the authorised officer, he shall proceed as provided in rule 8.

8. The authorised officer, after satisfying himself that the memorandum is complete, shall forward it, and remit or cause to be remitted the sum to which it relates by such means of safe transmission as he may consider convenient to the authority appointed in this behalf for the country to which the sum is to be transferred, or if no such authority has been appointed, to such authority as the local Government may by general or special order direct, and shall at the same time request the authority addressed

(*a*) to arrange for payment to be made in accordance with the directions contained in the memorandum ; and

(*b*) to furnish him with a report of the action taken upon the memorandum and return any sum the payment of which is for any reason impossible.

9. (1) The authorised officer shall, if he is not the Commissioner with whom the matter originated, forward to such Commissioner a copy of any report received in response to a request made under rule 8

(2) Any sum returned in accordance with rule 8 shall be disposed of in accordance with the Act

PART III.—*Receipt and administration in British India of any money awarded under the law relating to workmen's compensation in another country.*

10. (1) The authorised officer shall be the proper authority to receive moneys from transferring authorities.

(2) If any Commissioner or other Government servant, not being the authorised officer, receives any sum from a transferring authority he shall either forward such sum, together with any papers relating thereto, to the authorised officer for disposal or obtain the instructions of the authorised officer as to the disposal of the sum and papers and act in accordance with his instructions.

11. The authorised officer may himself dispose of any sum or part of any sum which he receives or of which he assumes control under rule 10 or may send it or any part of it for disposal to such Commissioner or Commissioners as he considers proper.

12. All sums received from a transferring authority shall be disposed of as far as possible in accordance with the provisions of the Act and the Workmen's Compensation Rules, 1924.

Provided that the directions, if any, received from the transferring authority as to the manner in which the sum should be administered shall be complied with.

13. (1) The authorised officer shall forward to the transferring authority a report showing how the sum received from him has been disposed of.

(2) Any Commissioner, not being the authorised officer, who has disposed of any part of the sum, shall make a report in duplicate as to the disposal of that part to the authorised officer, and, if the sum was received by him from another such Commissioner acting in accordance with section 21 of the Act, shall forward his report through that Commissioner.

14. Any part of the sum received from the transferring authority which shall have remained undisbursed after the completion of the proceedings shall be returned to the transferring authority by, or under the direction of, the authorised officer.

ELECTRICITY.

New Delhi, the 6th March 1935.

No. S.-601.—The following draft of certain rules, which it is proposed to make in exercise of the powers conferred by section 37 of the Indian Electricity Act, 1910 (IX of 1910), and in supersession of the Indian Electricity Rules, 1922, as published, as required by section 38 of the said Act, for the information of all persons likely to be affected thereby, and notice is hereby given that the said draft will be taken into consideration on or after the 1st September 1935.

Any objection or suggestion which may be received from any person in respect of the draft before the date specified will be considered by the Governor General in Council.

DRAFT RULES.

[NOTE.—Excisions from the Indian Electricity Rules, 1922, are shown by asterisks and additions by italics.]

CHAPTER I.

Preliminary.

1. These rules may be called the Indian Electricity Rules, 193 .

2. (1) **Definitions.**—In these rules, unless there is anything repugnant in the subject or context,—

(a) "the Act" means the Indian Electricity Act, 1910;

[IX of 1910.]

(b) "ampere" means a unit of electric current, and is the unvarying electric current which, when passed through a solution of nitrate of silver in water, in accordance with the specification set out in Annexure I * * *, deposits silver at the rate of 0·001118 of a gramme per second;

such aforesaid unit is represented by the current which is passing in and through the coils of wire forming part of the instrument marked "Government of India Ampere Standard Verified" when the suspended coil in its highest position is exactly balanced by the force exerted by gravity in Calcutta on the iridio-platinum weight marked "A" forming part of the said instrument;

(c) "Annexure" means an *Annexure to these rules*;

(d) "apparatus" means electrical apparatus, and includes all apparatus, machines, and fittings in which conductors are used, or of which they form a part;

* * *

(e) "bare" means not covered with insulating material;

(f) "circuit" means an electrical circuit forming a system or branch of a system;

(g) "concentric system" means a system in which a conductor, called the inner conductor, is insulated and in which the circuit is completed through one or more conductors, called the outer conductors, which are insulated from one another and are disposed over the insulation of, and more or less completely round, the inner conductor;

(h) "conductor" means *any thing used or intended to be used for the conducting of energy*;

(i) "covered with insulating material" means adequately covered with insulating material of such quality and thickness that there is no danger;

(j) "cut-out" means any appliance for automatically interrupting the transmission of energy through any conductor when the current rises above a predetermined amount;

(k) "danger" means danger to health or danger to life or limb from shock, burn, or other injury to persons, or from fire or explosion, attendant upon the generation, transformation, distribution, or use of energy;

(l) "dead" means at or about earth potential, and disconnected from any live system:

Provided that apparatus separated from a live conductor by a spark gap shall not be considered dead;

(m) "distributing licensee" means a licensee who obtains from another licensee a supply of energy in bulk for distribution;

(n) "earthed" or "connected with earth" means connected with the general mass of earth in such manner as to ensure at all times an immediate discharge of energy without danger;

(o) "earthing system" means an electrical system in which all the conductors are earthed;

(p) "electrician" means a person appointed in writing by the lessee or owner, agent or manager of electrical plant or apparatus for the purpose of superintending the same, such person being over 21 years of age and competent for the purposes of the rules in which the term is used;

(q) * * "Inspector" means an *Electric* Inspector appointed under section 36 * * *;

(r) "Inspector of Mines" means an Inspector appointed under the Indian Mines Act, 1923; [IV of 1923.]

(s) "live" means electrically charged;

(t) "metallic covering" means iron or steel armouring, with or without a lead or other metallic sheath as the conditions of the case may require, or an iron or steel pipe surrounding one or more conductors;

(u) "neutral conductor" means that conductor of a multiwire system, the pressure of which is normally intermediate between the pressures of the other conductors of the system;

(v) "non-licensee" means a person * * * generating, supplying, transmitting or using energy to whom any of the provisions of Part III of the Act apply;

(w) "ohm" means a unit of electric resistance, and is the resistance offered to an unvarying electric current by a column of mercury at the temperature of melting ice 14·4521 grammes in mass of a constant cross sectional area and of a length of 106·3 centimetres;

such aforesaid unit is represented by the resistance between the terminals of the instrument marked "Government of India Ohm Standard Verified" to the passage of an unvarying electric current when the coil of wire forming part of the aforesaid instrument and connected to the aforesaid terminals is in all parts at a temperature of 30 degrees C.;

(x) "open sparking" means sparking which owing to the lack of adequate provisions for preventing the ignition of inflammable gas external to the apparatus would ignite such inflammable gas;

* * * *

(y) "owner", "agent" or "manager" of a mine are as defined in sections 3 (g), 3 (e) and 18 (1), respectively, of the Indian Mines Act, 1923; [IV of 1923.]

(z) "pressure" means the difference of electric potential measured in volts between any two conductors, or between any part of either conductor and the earth as read by a hot-wire or electrostatic voltmeter, and is used to be—

(i) "low" where, under ordinary working conditions, it does not exceed 250 volts by an amount greater than 5 per cent of the normal pressure where the energy is used;

(ii) "medium" where, under ordinary working conditions, it may exceed 250 volts, but does not exceed 650 volts by an amount greater than 5 per cent of the normal pressure where the energy is used;

(iii) "high" where, under ordinary working conditions, it may exceed 650 volts;

(aa) "section" means a *section of the Act*;

(bb) "switchgear" means switches, cut-outs or fuses, conductors, and other apparatus in connection therewith, used for the purpose of controlling the current or pressure in any system or part of a system;

(cc) "system" means an electrical system in which all the conductors and apparatus are electrically connected to a common source of pressure;

(dd) "use of energy" means the conversion of electrical energy into mechanical or chemical energy, heat, or light for the purpose of providing mechanical energy, electrolysis heat, or light;

(ee) "volt" means a unit of electro-motive force, and is the electric pressure which, when steadily applied to a conductor whose resistance is one ohm, will produce a current of one ampere; and

(ff) "watt" means a unit of power, and is the energy expended per second by an unvarying electric current of one ampere under an electric pressure of one volt.

(2) *In these rules other words and expressions have the same meaning as are assigned to them in the Act.*

3. **Authorization.**—(1) *A licensee, a non-licensee or a consumer, or the owner, agent or manager of a mine, or the agent of any company operating an oil field or the owner of a derelict well in an oil field or a contractor for the time being under contract with a licensee, a non-licensee or a consumer to carry out duties incidental to the generation, transformation, distribution or use of energy may authorize any person for the purpose of any or all of the following rules, namely, rules 39, 45, 51, 52, 57, 58 (1), 94 (2), 103 (1), 111 (4) and 112.*

(2) *No person shall be authorized under sub-rule (1) unless he is competent to perform the duties specified in the rules for the purpose of which he is authorized.*

(3) *No person shall be deemed to be authorized under sub-rule (1) unless his name has been entered in a list maintained at the office of the person authorizing him, and giving the purposes for which such person is authorized, and the entry has been attested by the person authorizing him.*

(4) *Every list maintained under sub-rule (3) shall be produced before an Inspector when required.*

CHAPTER II.

* * Inspectors.

4. **Qualifications of * * Inspector.**—No person shall be appointed to be an * * Inspector unless,—

(a) he has had at least five years' practical experience in an electrical or mechanical engineering workshop or electric power station; and

(b) after acquiring such experience, he has been regularly engaged for a period of at least five years in the practice of electrical engineering.

Provided that the Governor General in Council or the Local Government, as the case may be, may appoint any person not so qualified if in his or its opinion such person is otherwise fully qualified to exercise the powers and perform the functions of an * * * Inspector.

5. **Entry and Inspection.**—(1) Any * * Inspector or any officer appointed to assist an * * Inspector may enter, inspect and examine any place, carriage or vessel in which he has reason to believe that there is any appliance or apparatus used in the generation, transmission supply or use of energy * * * and may carry out tests thereon.

(2) Every licensee, non-licensee, consumer and occupier shall afford at all times all reasonable facilities to any such Inspector or officer to make such examination and tests as may be necessary to satisfy himself as to the due observance of the Act, the license (if any) and these rules.

(3) The licensee or non-licensee shall provide means for carrying out all tests prescribed by or under the Act of the appliances or apparatus used for the supply of energy by him.

(4) An * * Inspector may serve an order in the form set out in Annexure VIII * * *, upon any licensee, non-licensee, consumer or occupier, calling upon him to comply with any specified rule, and the person so served shall thereupon comply with the order within the period named therein, and shall report in writing to the *Inspector when the order is complied with.*

Provided that, if within that period an appeal is filed against the order, the appellate authority may suspend its operation pending the decision of the appeal.

6. **Limitation of appeals.**—No appeal from any decision of an * * Inspector shall be entertained unless it is preferred within three months of the date of the communication to the appellant of the decision.

7. **Amount of fees.**—(1) The fees set out in Annexure II * * * shall be payable in respect of the services therein mentioned, where the tests are carried out by comparison with the Government of India Standards referred to in rule 2 (2).

(2) The Governor General in Council or the Local Government, as the case may be, may levy such fees for testing and inspection and generally for the services of * * Inspectors under the Act as he or it may from time to time, by general or special order, direct, and may, if he or it thinks fit, remit any fee or any portion thereof.

8. **Incidence of fees.**—Where an * * Inspector is called in to decide any difference or dispute, and where a fee for such services is recoverable the * * Inspector shall decide by whom such fee shall be payable.

9. **Submission of records.**—An * * Inspector may require a licensee and a licensee may require an * * Inspector to submit to such Inspector or licensee for examination any records of tests made in connection with the licensee's works by the licensee or the Inspector; and the licensee or Inspector shall comply with such requisition.

* 10. **List of consumers.**—An * * Inspector may require a licensee to submit to him a list of all consumers supplied with energy by him at a pressure exceeding low pressure and of the addresses at which such energy is supplied; and the licensee shall comply with such requisition.

CHAPTER III.

Licenses.

APPLICATION FOR LICENSES.

11. **Application for license.**—(1) Every application for a license shall be signed by, or on behalf of, the applicant and addressed to such officer as the Local Government may designate in this behalf, and it shall be accompanied by—

(a) *six copies*, in print of the draft license as proposed by the applicant, with the name and address of the applicant and of his agent (if any) * * printed on the outside of the draft;

(b) *three copies*, signed by the applicant, of a map of the proposed area of supply which shall be so marked or coloured as to define any portion of such area which is under the administration of any local authority and shall be on a scale—

(i) of not less than six inches to a mile, or

(ii) if on such map is available, of not less than that of the largest scale ordnance map available, or

(iii) on such scale as may be approved by the Local Government,

(c) a list of any local authorities invested with the administration of any portion of the area of supply;

(d) an approximate statement describing any lands which the applicant proposes to acquire for the purpose of the license under the provisions of the Land Acquisition Act, 1894; 1 of 1894.

(e) an approximate statement of the capital proposed to be expended in connection with the undertaking;

(f) if the applicant is a company which is registered under any of the enactments relating to companies for the time being in force * * * * * * * * in British India, *or in any other part of the British Empire*, or is incorporated by an Act of Parliament or of the Governor General in Council or by Royal Charter or Letters Patent, a copy of the Memorandum and Articles of Association and

(g) a treasury receipt for a fee of five hundred rupees paid into a Government treasury in the province concerned, unless such fee is remitted, wholly or in part, by general or special order of the Local Government.

(2) If the application for a license is rejected or if a license is revoked under sub-section (3) of section 4 * * as to the whole or any part of the area of supply, the Local Government may at its discretion refund, wholly or in part, the fee referred to in clause (g) of sub-rule (1).

12. **Copies of map and draft license for public inspection.**—The applicant shall deposit at his own office and at that of his agents (if any) and at the office of every local authority invested with the administration of any portion of the proposed area of supply—

(a) a copy of the map referred to in clause (b) of *sub-rule* (1) of rule 11 for public inspection; and

(b) a sufficient number of copies of the draft license to be furnished to all persons applying for them at a price not exceeding one rupee per copy.

13. **Contents of draft license.**—The draft license shall contain the following particulars, namely:—

(a) a short title descriptive of the proposed undertaking, together with the address and description of the applicant, or, in the case of a firm, the names of all the individual members of the firm;

(b) a statement of the boundaries of the proposed area of supply;

(c) if the generating station is situated, or to be situated, outside the area of supply or if any intervening area, not included in the area of supply, is to be crossed, a list of the streets along or across which electric supply lines are to be laid down or placed;

(d) the proposed conditions of supply, including the maximum prices, the nature and amount of the supply (if limited) and the like;

(e) a list of the streets (if any) not repairable by the Government or by a local authority and of the railways and tramways (if any) the soil or pavement of which the

applicant seeks powers to open or break up * * * and the names of the persons by whom such streets are repairable, or who are for the time being entitled to work such railway or tramway;

(*f*) the proposed periods after which the right to purchase is to take effect;

(*g*) a statement of any special terms of purchase or orders proposed to be made under section 10 * * * and

(*h*) any proposed modification of the Schedule to be made under clause (*f*) of sub-section (*2*) of section 3 * *.

14. **Form of draft licence.**—The form of draft licence set forth in Annexure III * * * may, with such variation as the circumstances of each case require, be used for the purposes of rule *11*, and if used shall be sufficient.

15 **Advertisement of application and contents thereof.**—(*1*) The applicant shall, within fourteen days from the submission of the application under rule *11*, publish notice of his application by public advertisement, and such advertisement shall consist of—

(*a*) the draft licence,

(*b*) the addresses of the offices at which, under rule *12*, copies of the map therein referred to may be inspected and copies of the draft licence obtained.

(*2*) The advertisement shall be headed by a short title corresponding with that at the head of the draft licence, and shall state that every local authority, company or person, desirous of making any representation with reference to the application to the Local Government, may do so by letter addressed to such officer as the Local Government may designate in this behalf, within three months of the date of issue of the newspaper containing the first advertisement.

(*3*) The advertisement shall be inserted by the applicant in at least three successive issues of such newspaper as the local Government, having regard to its circulation among persons likely to be interested, may direct, and, in the absence of any such direction, in at least three successive issues of any newspaper published within the proposed area of supply, or if there is no such newspaper, of any newspaper published within the province.

(*4*) The applicant shall send a copy of each of the three successive issues of the newspaper containing the advertisement to such officer as the Local Government may designate in this behalf as soon as the third issue has appeared, and the Local Government shall publish the advertisement * * at least once in the local official Gazette within six weeks from the date of the first advertisement published under sub-rule (*3*) * *.

OBJECTIONS TO LICENCE.

16. **Amendment of draft licence.**—* * Any person who desires to have any amendment made in the draft licence * * shall deliver a statement of the amendment to the applicant and * * to such officer as the Local Government may designate in this behalf within the time allowed under sub-rule (*2*) of rule *15* for the submission of representations referring to the application.

17. **Local inquiries.**—*If* any person locally interested objects to the grant of a licence applied for under the Act, the Local Government shall, if either the applicant or the objector so desires, cause a local inquiry to be held of which due notice shall be given to both applicant and objector:

Provided that the Local Government may refuse such an inquiry if in its opinion the objection is of trifling or vexatious nature.

GRANT OF LICENCE.

18 **Approval of draft licence.**—* * When the Local Government has approved * a draft licence, either in its original form or in a modified form, such officer as the Local Government may designate in this behalf shall inform the applicant of such approval and of the form in which it is proposed to grant the licence.

19. **Notification of grant of licence.**—*If* the applicant is willing to accept the licence in the form approved by the Local Government, the Local Government shall, on receipt of an intimation in writing of such acceptance, publish the licence in the local official Gazette, and notify that it has been granted.

20. **Date of commencement of licence.**—The date of a notification under rule *19* shall be deemed to be the date of commencement of a licence.

21. **Deposit of map.**—When a licence has been granted a map showing, as regards each licence, the particulars specified in clause (*b*) of sub-rule (*2*) of rule *12* shall be signed and dated to correspond with the date of the notification of the grant of the licence, by such officer as the Local Government may designate in this behalf and retained by him as the deposited map.

22. **Deposit of printed copies.**—When a licence has been granted, the licensee shall, within thirty days, deposit printed copies of the licence together with copies of the map for public inspection at his own office and at that of his agents (if any) and at the office of every local authority within the area of supply and shall furnish printed copies of the licence to all persons applying for the same at a price not exceeding one rupee per copy.

CERTAIN SUPPLEMENTARY OR ANCILLARY LICENCES.

23. **Application for written consent of Local Government in certain cases.**—*If* a licensee desires the written consent of the Local Government under sub-section (*5*) of section 12 * * to enable him to open or break up the soil or pavement of any street not repairable by the Government or a local authority, or any railway or tramway, *he shall apply* for such consent * * in writing to such officer as the Local Government may designate in this behalf, and shall describe accurately the street, railway, or tramway which he seeks power to open or break up and the names of the persons by whom such street is repairable, or who are for the time being entitled to work such railway or tramway, and the extent to which he proposes to open or break up the same.

24. **Amendment of Licence.**—(*1*) No alterations or amendments in the terms and conditions of any licence shall be made under clause (*b*) of sub-section (*3*) of section 4 * * *, until they have been published by the applicant and by the Local Government; and the provisions of sub-rules (*2*), (*3*) and (*4*) of rule *15* shall apply to such publication.

(*2*) If any such alteration or amendment as is referred to in sub-rule (*1*) * * is made, it shall be notified by the Local Government in the local official Gazette.

CHAPTER IV.

Conditions of Supply by Licensee.

25 **Precautions against leakage before connection.**—(*1*) A licensee shall not connect the *apparatus* on a consumer's premises with his works unless he is reasonably satisfied that the connection will not at the time of making the connection cause a leakage from *that apparatus* exceeding one five-thousandth part of the maximum supply demanded on the consumer's premises.

(*2*) *If* a licensee declines to make a connection in accordance with sub rule (*1*), he shall serve upon the consumer a notice stating his reason for so declining.

26 **Leakage on consumer's premises.**—(*1*) If * * a licensee has reason to believe that *there is at the premises of a consumer* a leakage *which is likely to affect* injuriously * * the use of energy by the licensee or by other persons * * he may give the consumer reasonable notice in writing that he desires to inspect and test *the apparatus* belonging to the consumer. * * *

(*2*) If *on such notice being given*—

(*a*) the consumer does not give all reasonable facilities for inspection and testing, or

(*b*)* a leakage from the consumer's conductors exceeding one five-thousandth part of the maximum supply demanded *from the premises is shown to exist*,

the licensee may forthwith discontinue the supply of energy to the premises in question, giving immediate notice of the discontinuance to the consumer, and need not recommence the supply until *he is satisfied that* the cause of the leakage has been removed.

27. **Appeal to Inspector in regard to leakage.**—(*1*) *If* a consumer is dissatisfied with the action of a licensee under rule *25* or rule *26* in *declining to make* a connection or in discontinuing or in not recommencing the supply of energy to his premises, * * *he may apply (appeal to an Inspector, and the* * * Inspector or *under his orders* any other officer appointed to assist an * * Inspector *shall, on such application and on payment of the prescribed fee, test the apparatus for the existence of leakage*,

(*2*) Any such test as is referred to in sub-rule (*1*) shall be carried out within forty eight hours of *the receipt of* the application *for it* * * or of the payment of the prescribed fee, whichever is later.

(3) If the * * Inspector or other officer, as aforesaid, on testing finds that the leakage from the part of the maximum supply declared on the premises, the * * Inspector shall notify the licensee, and the licensee shall, within twenty four hours, commence or continue the supply of energy, *and shall refund the fee to the consumer.*

* * *

(4) This rule shall be endorsed on every notice given under the provisions of rule 25 *as* rule 26.

25. **Declared pressure of supply to consumers.**—Before commencing to supply energy to a consumer, a licensee shall declare to the consumer the pressure at which he undertakes to * * supply energy and he shall not, without the written consent of the consumer or the previous sanction of the Local Government, vary *the pressure* by more than 6 per cent in the case of low or medium pressure, or by more than 12½ per cent in the case of high pressure.

26. **Declared frequency of supply to consumers.**—Before commencing to supply energy to a consumer by means of an alternating current, a licensee shall declare to the consumer the frequency at which he undertakes to * * supply energy and the licensee shall not, without the written consent of the consumer or the previous sanction of the Local Government, vary *the frequency* by more than 4 per cent.

30. **Examinations of licensee's records by consumer.**—A consumer may, after giving not less than twenty-four hours' notice to the licensee, enter any testing station established by the licensee, in accordance with clause XIII of the Schedule to the Act, and may examine the records of the tests made thereon; and he may also take copies of or extracts from such records on payment to the licensee of a sum of one rupee for every such examination of a record covering a period of twenty four hours or any part of twenty-four hours.

31. **Sealing of meters.**—*(1) A licensee may affix a* seal to any meter, maximum demand indicator, or other apparatus placed upon a consumer's premises in accordance with section 28 * * *, and to any cut-out placed upon a consumer's premises in accordance with rule 32 and no person *other than the licensee shall break any such seal*

(2) The consumer shall use all means in his power to ensure that no seal affixed to any meter, maximum demand indicator, or other apparatus placed on his premises in accordance with section 28 is broken otherwise than by the licensee.

(3) Notwithstanding anything contained in sub-rules (1) and (2), where a meter is the property of the consumer, the consumer may break the seal on such meter forty-eight hours after giving notice in writing to the licensee of his intention so to do.

32. **Limits of error in the meters.**—The limits of error permissible in a meter placed upon a consumer's premises in accordance with section 20 * * are for the purposes of that section the following, namely:—

(a) where the meter is of a type included in the "British Standard Specification for Electricity Meters; No. 37" dated 1930, the limits of error laid down in that Specification;

(b) where the meter is of any other type, it shall not register more than 3 per cent above or below absolute accuracy at all loads in excess of one-tenth of full load and up to full load;

(c) no meter shall register at no load.

33. **Condition for maximum demand indicators.**—The conditions with which a maximum demand indicator or other apparatus placed upon a consumer's premises in accordance with section 28 * * shall comply are for the purposes of that section the following, namely:—

(a) it shall not register more than 3 per cent above or below absolute accuracy at all loads in excess of one-tenth of full load and up to full load;

(b) it shall not register at no load.

36. **Sale of plans.**—Copies of plans or sections such as are referred to in clause XVI of the Schedule to the Act shall be supplied by the licensee to every applicant at a price not exceeding one rupee per square foot.

37. **Point of commencement of supply.**—The point at which the supply of energy by a licensee to a consumer shall be deemed to commence shall—

(a) where the amount of energy supplied to a consumer or the electrical quantity contained in the supply is ascertained by meter, be in respect of a conductor from the service line which passes through the meter the point at which such conductor enters the meter, and in respect of a conductor from the service-line which does not pass through the meter, the point on such conductor nearest to the meter;

(b) where the amount of energy supplied to a consumer or the electrical quantity contained in the supply is not ascertained by meter, be the point at which the cut-out is inserted in the service-line by the licensee in accordance with rule 32.

ACCOUNTS AND FORMS

38. **Preparation and submission of accounts.**—(1) Every licensee, unless exempted in accordance with section 11 * * *, shall annex the accounts of his undertaking to be made up to the thirty-first day of December or the thirty-first day of March, at the option of such licensee, or to such other date as the Local Government may approve.

(2) Such licensee shall prepare and render an annual statement of his accounts in accordance with the provisions of * * section 11 within a period of six months from such date as aforesaid, or such extended period as the Local Government may authorise after it is satisfied that the time allowed is insufficient owing to any cause not within the control of the licensee.

(3) The accounts shall be made up as far as circumstances permit in one or other of the prescribed forms set out in Annexures IV and V * * * according as the licensee is or is not a local authority and may, at the option of the licensee, be rendered either in British Indian or in British sterling currency:

Provided that the Local Government may, by special or general order direct that the accounts of any undertaking shall be made up in any form it may direct in such order.

39. **Forms of certain requisitions.**—(Requisitions under sub-clause (1) of clause V or sub-clause (5) of clause VI, as the case may be, of the Schedule to the Act shall be made in the form set out in Annexure VI or Annexure VII * * *

CHAPTER V.

General precautions for the safety of the Public.

GENERAL.

* * *

43. **Instructions for restoration of persons suffering from electric shock.**—(1) Instructions, both in English and in the vernacular of the district, for the restoration of persons suffering from electric shock, shall be affixed by the owner in a conspicuous place in every generating station, * sub-station, *place, or factory, in which energy is generated, transformed, controlled, or used, and in such other places as an Inspector may direct.*

* * (2) Copies *of the instructions* shall be *supplied* on demand by every * * Inspector at a price to be fixed by the Local Government.

44. **Instruction in artificial respiration.**—*Licensees and non-licensees shall arrange for all authorised persons employed by them to be properly instructed in the practice of applying artificial respiration.*

* * * * *

46. **Protection from lightning.**—*Licensees and non-licensees* shall adopt efficient means for protecting any portion of an electric supply-line or any support guard-wire or bearer-wire of an electric supply line which is exposed in such a position as to be liable to injury from lightning.

47. **Responsibility of licensees for their works on consultant's premises.**—* Licensees shall *ensure* that all electric supply lines or * apparatus belonging to *them*, or under *their* control, which are on a consumer's premises, are maintained in a safe condition and shall take * due precautions to avoid *the risk of* * fire *arising* on such premises *from such* * supply-lines * or apparatus * *.*

48. **Cut-out on consumers' premises.**—A licensee shall provide a suitable cut-out in each *conductor of every* service line (other than an earthed central conductor or the earthed external conductor of a concentric cable) within a consumer's premises, in an accessible position as close as possible to the point of entry. Such cut-out shall be contained within an adequately enclosed fire-proof receptacle:

Provided that, where more than one consumer is supplied through a common service line, each individual consumer, if he so requires, shall be given an independent cut-out at the point of junction to the common service.

49. **Service-line on consumers' premises.**—The following provisions shall in *observed on the premises of all consumers, namely:*—

(1) *Service lines which are underground or which are accessible without the aid of a ladder or other special appliances* and all apparatus in connection therewith placed by a licensee shall be so insulated and protected *by the*

licensee as to be secure under all ordinary conditions against electrical, mechanical, chemical, or other injury to the insulation and against access of moisture.

* * * *

(3) *The licensee shall ensure that* no metal forming part of the electric circuit of any such line *is so* exposed * that it can be touched, *unless it is connected with earth*

* * * *

44. Accessibility of bare conductors.—Where bare conductors are used in a building, *owners shall ensure that* they are inaccessible without the aid of a ladder or other special appliance and *shall provide switches* for rendering them dead whenever necessary.

45. Repairs to apparatus.—No repair of any part of any * * apparatus shall be effected, while the part is charged to a pressure exceeding low pressure, except by an authorized person.

46. Supply to vehicles, etc.—*Every person* * supplying * energy to a vehicle, travelling crane or the like *and* * *shall ensure that it is* * efficiently controlled by a suitable switch enabling all pressure to be cut off * * *and where such vehicles, travelling cranes or the like run on metal rails, the owner shall ensure that the rails are electrically continuous and earthed.*

47. Cables for portable motors.—Trailing cables * * shall not be *used for portable motors unless they are* specially flexible, heavily insulated and protected from mechanical injury, where the protection is by means of metallic covering, the covering shall be in metallic connection with the frame of the motor.

PRECAUTIONS TO BE ADOPTED BY CONSUMERS AND OWNERS, ELECTRICAL CONTRACTORS AND ELECTRICAL WORKMEN.

48. Precautions to be adopted by consumers and owners, electrical contractors and electrical workmen.—(1) No * * * additions, alterations, repairs *or* adjustments to, *or other work on existing electrical installations*, except such replacement of lamps, fans, fuses, switches and other component parts of the installation as in no way alters *its* capacity or character * * * shall be carried out upon the premises or on behalf of any consumer or owner for the purposes of the supply of energy to such consumer or owner, except by an electrical contractor licensed by the Local Government on this behalf and under the direct supervision of a person holding a certificate of competency issued by the Local Government:

Provided that, the Local Government may by notification in the local official Gazette exempt any such description of work * * * either generally or in the case of any specified class of consumers or owners from so much of this sub-rule as requires such work to be carried out by an electrical contractor licensed by the Local Government in this behalf.

(2) This rule shall come into force in any province or part thereof on such date as the Local Government may by notification in the local official Gazette appoint.

ELECTRIC SUPPLY LINES AND APPARATUS.

49. Maintenance.—*The owner of* every electric supply line shall *maintain it* in a safe condition * * both electrically and mechanically * * *

50 Accidental charge.—*The owners of all circuits and apparatus shall so arrange them* that there shall be no danger of any part thereof becoming accidentally charged to any pressure beyond the limits of pressure for which it is intended.

51. Switches to be on the live wire.—(1) *In any case* where the conductors *brought by the licensee to the point of commencement of supply include an earthed neutral conductor, the supply of energy shall not be commenced, or continued, until or unless the following provisions have been or are complied with, namely:*—

(a) *An indication of a permanent nature shall be provided by the licensee at or near the point of commencement of supply to enable such neutral conductor to be distinguished from any live conductor at that point, and no single-pole switch shall be inserted by the licensee in such conductor or any branch thereof except as hereinafter provided by this rule.*

(b) *A similar indication shall be separately provided by the consumer to indicate that conductor, forming part of his system, which is to be* * *connected to the earthed neutral conductor at the point of commencement of supply.*

(2) *In no case referred to in sub-rule (1) shall the consumer insert any single-pole switch or cut-out or permit such switch or cut-out to be or to remain inserted in any conductor referred to in sub-rule (1) (b):*

Provided that, in the case of consumers' systems connected to the licensee's mains prior to (a date three months after the final promulgation of this rule) no *penalty shall attach to any breach of this rule occurring before* (a date twelve months after the expiration of the period of three months mentioned above).

(3) *Notwithstanding the provisions of sub-rule (2) of this rule, certain apparatus may be connected to an earthed neutral conductor as follows:*—

(a) *A link may be inserted for testing purposes, or a switch for use in controlling a generator or transformer.*

(b) *A switch or link may be inserted in the connection between the neutral conductor and earth at a generating station or sub-station for use in testing and emergency only.*

52. Crossing metallic substances.—(1) Where an electric supply line crosses, or is in proximity to any metallic *substance, the owner of the supply-line shall* take such precautions as an * * Inspector may approve * * against the possibility of the metallic substance becoming charged

(2) * * *Where such metallic substance is introduced after* the electric supply line *has* been laid or erected, * * the cost incurred in taking such precautions shall be refunded to the * * *owner of the electric supply-line by the owner of* the metallic substance * *.

53. Cut-out.—*The owner of* every electric supply-line (other than the earthed neutral conductor of any system or the earthed external conductor of a concentric cable) shall *protect it* * * * by a suitable cut-out.

54. Metal casings.—All metal casings or metallic coverings containing or protecting any electric supply-line or apparatus shall be connected with earth by the *owner*, and shall be so joined and connected across all junction-boxes and other openings as to make good mechanical and electrical connection throughout their whole length:

Provided that this rule shall not apply to isolated wall tubes or to brackets, electroliers, standards, switch or fan regulator covers or other fittings (other than portable hand lamps or fasteries) where the supply is at low pressure.

55. Connection with earth of frames of generators, etc.—The frame of every generator, stationary motor, and, so far as is practicable, portable motor, and the metallic parts (not intended as conductors) of all transformers and regulating or controlling apparatus connected with the supply, shall be connected *by the owner* with earth by two separate and distinct connections * *.

56. Control of energy.—*(1) The supply of energy at any pressure to every stationary motor, and, so far as is practicable, to every portable motor, shall be efficiently controlled by suitable linked switches of separate capacity to carry and break the current in each conductor simultaneously placed near the motor in such a position as to be readily handled by an operator, so that by their means all pressure can be cut off from the motor concerned and from any device in connection therewith.*

(2) The linked switches referred to in sub-rule (1) shall be mounted on one box and shall be protected by a mechanically strong metal casing or metallic covering securely fastened throughout

Provided that, in places other than factories, of the supply is at low pressure, the protecting covering may consist of stout and durable insulating material, but it shall be so constructed that no metal parts shall be exposed.

(3) Except in cases where—

(a) the motors are switched direct on to the supply-lines without the use of a starting switch or other such device, or

(b) the motors use energy at a rate not exceeding 250 watts,

the linked switches specified in sub-rule (1) shall be in addition to, and entirely separate from, any starting switch or other device used in connection therewith.

57. Junction-boxes.—The *owners* of all junction-boxes or of pillars in any street shall *secure their doors and covers in such a manner* that they can * * be opened *only* by means of a special appliance.

58 Connection with earth of a multi-wire system.—In every distributing system in which there is a neutral conductor, where the pressure between the neutral conductor and an outer or phase conductor exceeds 125 volts, the neutral conductor shall be connected with earth by two separate and distinct connections * * from the neutral bus-bar and in accordance with the following provisions, namely:—

(a) the connection * * * shall be made at one point only on each distinct system, namely, at the generating station or sub station, or both, as the case may be, and the insulation of the system shall be maintained at all other parts;

(b) the connection * * * shall not be made by the nut of, nor shall it be in contact with any water main, gas-main or similar main not belonging to the licensee or *non-licensee*, as the case may be, except with the consent of the owner thereof and of the * * Inspector; a resistance, not exceeding 30 ohms, may be inserted between the neutral bus bar and earth, and, if so inserted, it shall be of sufficient cross-sectional area to carry the current which would pass should an outer or phase conductor become accidentally connected with earth;

(c) the connections * * shall not be removed except for the purpose of testing, in which case it shall be made good again as soon as such test is finished, and a record of any such disconnection shall be kept by the licensee or *non-licensee*, as the case may be;

(d) * * the * * connection shall not be removed in a licensee's system except between 1 a.m. and 3 a.m., and in a *non-licensee's* system, while the generator is in operation or energy is being used;

(e) the current from the neutral conductor to earth shall, in the case of a licensee's direct current-distributing system, be continually recorded, and if at any time it exceeds one-thousandth part of the maximum supply current, steps shall immediately be taken to improve the insulation of the system.

59. **Connection with earth of polyphase system.**—The neutral point of the star-winding of each distinct polyphase multi-wire system may be either connected with earth or insulated.

60. **Connection with earth of concentric conductors.**—(1) When concentric conductors are used, *the owner shall maintain the insulation* throughout, except that the external conductor may be connected with earth at one point:

Provided that, where energy is generated by a *non-licensee exclusively* for use on his own premises a concentric conductor, the external conductor of which is uninsulated and earthed, may be used.

(2) When the external conductor is bare and uninsulated, *the owner shall ensure that it* is connected with earth, * * and no switch, cut-out or circuit breaker shall be inserted in that conductor or in any conductor connected thereto.

Exception.—Switches, cut-outs or circuit breakers may be used to break the connection with the generators or transformers supplying energy, provided that in no case of bare external conductor the connection of the conductor with the earth is thereby broken.

CHAPTER VI.

Supply at Medium or High Pressure.

61. **General precautions applicable to supply at medium or high pressure.**—*Where a licensee proposes to supply or use energy at medium or high pressure, he shall give notice to an Inspector and shall not commence or continue the supply unless and until he has complied with the following provisions,* namely:—

(a) all live parts of apparatus shall, unless accessible only to, and under the control of, an authorized person, be protected by, mechanically strong metal casing or metallic covering securely fastened throughout;

(b) suitable linked switches, of requisite capacity to carry and break the current, shall be inserted in each conductor, near the point of origin on the consumer's * * premises * *;

(c) every conductor, unless accessible only to an authorized person, shall be, as far as is practicable, completely enclosed in a mechanically strong metal casing or metallic covering, securely fastened throughout or fixed in such other manner as may be approved in writing by an * * Inspector;

(d) the supply to every apparatus shall be efficiently controlled by suitable linked switches, of requisite capacity to carry and break the current in each conductor, placed near the apparatus in such a position as to be readily handled by the operator, so that by their means all pressure can be cut off from the apparatus concerned and from any device in connection therewith;

(e) the word "*DANGER*" both in English and in the vernacular *of the district, and the lightning mark shown below shall be fixed permanently* in a conspicuous position, *where possible*, on * every generator * * * and every motor, and every controlling or regulating apparatus in connection with the same:

Provided that where it is not possible to affix them on the generator, motor, or apparatus, they shall be fixed as near as possible.

62. **Introduction of multi-wire system in buildings.**—Where the conductors of a multi-wire system between any of which there is medium or high pressure, are brought into a building for utilization at low pressure, *the supplier shall deliver the supply* to two or more pairs of terminals, and the wiring from those terminals shall be kept separate and distinct. If in any such case, two or more switches, terminals or cut-outs between any of which there is a difference of pressure exceeding 250 volts, are fitted within reach of one another, all their live parts shall be accessible only to authorized persons.

63. **Main switchboard.**—*The owner of every main switchboard connected with a supply of energy* at medium or high *pressure* * shall *comply with the following provisions, namely*:—

(a) A space of not less than 3 feet in width *shall be provided in front of the switchboard.*

* * (b) If there are any attachments or bare connections at the back of the switchboard, the space (if any) behind the switchboard shall be either less than 6 inches, or more than 30 inches in width, measured from the furthest outstanding part of any attachment or conductor.

(c) If the space behind *the switchboard* exceeds 30 inches in width, there shall be a passage-way clear to a height of not less than 6 feet, save as regards any horizontal supports of the switchboard, which may be placed at a height of not less than 4 *feet* 6 inches.

64. **Distinction of circuits of different pressures.**—*The owner of* every generating station, sub-station, junction-box or pillar in which there are any circuits or apparatus, intended for medium as well as high pressure, *shall ensure that* the respective circuits *are* readily distinguishable from one another.

* * * *

65. **Approval of high pressure supply.**—(1) *No licensee or non-licensee shall deliver* a high *pressure supply* to any person, other than a distributing licensee, except with the approval in writing of an * * Inspector, and subject to such conditions (if any) as such Inspector may think reasonable and proper in the circumstances, and the installation shall not be brought into use until it has been inspected by an * * Inspector or other officer appointed to assist an * * Inspector.

(2) Where energy is to be used by an owner at high pressure, the installation shall not be brought into use except with the approval in writing of an * * Inspector and subject to such conditions (if any) as he may think fit.

(3) When the position of a high pressure motor or other apparatus is changed, notice shall forthwith be given to the * * Inspector showing the extent and nature of the change of position.

(4) *The owner of any high pressure installation who makes any such alterations in or additions to the installation or effects the supply shall not unless the alterations or additions for the purposes of supply undone and until they have been approved by an Inspector.*

66. **Testing of insulation of high pressure circuit.**—(1) *The owner of a high pressure circuit, other than an aerial line, shall not bring it into use unless the insulation of supply lines, machines, devices or apparatus pertaining thereto* has withstood the continuous application, during one minute, *of the testing pressures given in sub rule (2);* * * * and the * * * owner * * * shall duly record the results of such tests and shall forward them to an * * Inspector

* * * *

(2) *For the purposes of sub-rule* (1)—

(a) *if the normal working pressure does not exceed 1,000 volts the testing pressure shall be 2,000 volts,*

(b) *if the normal working pressure exceeds 1,000 volts but does not exceed 10,000 volts, the testing pressure shall be double the normal working pressure,*

(c) *if the normal working pressure exceeds 10,000 volts the testing pressure shall be the normal working pressure plus 10,000 volts:*

Provided * * that an * * Inspector may, if he thinks fit, accept the manufacturer's certified tests *in place of the tests required by this rule*

* * * *

57. **Charge of high pressure supply-line.**—A high pressure electric supply-line shall, during its use, continue in the sole charge of an authorised person.

58. **High pressure electric supply-lines and apparatus placed above ground.**—(1) *The owner of all* high pressure apparatus, including every portion of any high pressure electric supply-line (other than an aerial line) placed above the surface of the ground, *unless it is* in a substation, or in a compartment specially arranged for the purpose and accessible only to authorised persons, shall *ensure that it is* completely enclosed in, or protected by, a metal or wholly strong metal casing or metallic covering securely fastened throughout.

(2) *The owner of* all circuits and apparatus *connected with any high pressure apparatus to which sub-rule* (1) *is applicable shall ensure that they are* marked at frequent intervals with the word "DANGER", both in English and in the vernacular *of the district and with the lightning mark prescribed in rule 61. All supports for aerial lines shall be similarly marked.*

CHAPTER VII.
Aerial Lines.

* * * *

65. **Minimum strength of conductors of aerial lines.**—*The owner of* an aerial line shall *not use it for the supply of energy unless each conductor has* a breaking stress *of not less than* 700 lb.:

Provided that, where *the pressure is* low and the span is of less than 50 feet and is on the owner's premises, * * * a conductor having a breaking-stress of not less than 300 lb. may be used.

70. **Maximum intervals between supports.**—*The owner of* an aerial line *shall ensure that the conductors are* attached to supports at intervals, not exceeding the safe limits based on the breaking stress of the conductor and the factor of safety prescribed in rule 72:

Provided that where such a line is erected in, over, along or across any street, the interval shall not, without the consent in writing of the * * Inspector, exceed 220 feet.

71. **Connection with earth of metal supports and stay wires.**—(1) *The owner of every aerial line supported by metal supports shall ensure that these supports are permanently and efficiently earthed. For the purpose a continuous earth wire securely connected to each support and connected with earth at every seventh support shall be provided, or, alternatively, each support shall be connected to an effective earthing device.*

(2) *Where the pressure between any conductor of an aerial line and earth exceeds 250 volts direct current or 125 volts alternating current, all stay wires other than those which are connected with earth by means of a continuous earth wire, shall be insulated to prevent danger from leakage. For this purpose an insulator shall be placed in each stay wire at a height of not less than ten feet from the ground.*

72. **Factor of safety.**—(1) *The owner of every aerial line shall ensure that it has the following factors of safety* :—

(a) for metal supports, at least 2·5 ;

(b) for other supports, at least 3·5 ;

(c) for guard-wires or bearer-wires, at least 3 ;

(d) for conductors, at least 2 ;

under all conditions, and that *the strength of supports in the direction of the line is not less than one-fourth of the strength required in a direction transverse to the line.*

(2) *For the purpose of calculating the factors of safety* —

(a) the maximum wind pressure *shall be* specified by the Local Government in each case ;

(b) for cylindrical bodies the effective area shall be taken as two-thirds of the sectional area exposed to wind pressure ;

(c) *for lattice steel or other compound structures the wind pressure on the latticed members shall be taken as one-half of the wind pressure on the windward side members, and the factor of safety shall be calculated on the crippling load of struts and upon the elastic limit of tension members ;*

(d) *the temperature shall be taken as 32° F. or such other temperature as the Local Government may specify.*

(3) *Notwithstanding anything in sub-rules* (1) *and* (2), in localities where aerial lines are liable to accumulations of ice or snow, the Local Government may, by order in writing, specify such factor of safety as it may think fit and the conditions under which it is to be calculated.

73. **Height from ground and distance from buildings.**—(1) *The owner of any aerial line shall ensure that* every conductor of the line (not being a trolley-wire or a traction-feeder on the same support as a trolley wire) * * * shall be—

(a) at *least 20 feet* above the ground where *it is over any part of a street or other public place* ;

(b) * * * unscalable, either from the ground or from any building or structure whether permanent or temporary, except, by the aid a ladder or other special appliance.

(2) (a) If, at any time subsequent to the erection of an aerial line, any person proposes to erect a new building or structure, whether permanent or temporary or to make in or upon any building or structure any permanent or temporary addition or alteration, he shall, if such building, structure, addition or alteration would render the aerial line accessible otherwise than by the aid of a ladder or other special appliance, give notice in writing of his intention to the *owner*, and to the * * Inspector and shall furnish therewith a scale drawing showing the proposed building, structure, addition or alteration and the scaffolding required during its construction, and shall not commence work upon the building, structure, addition or alteration until the * * Inspector has certified that neither during nor after the execution of the work will the aerial line be so accessible.

(b) On receipt of such notice the *owner* shall, without under delay, so alter the aerial line as to ensure that it will not be accessible, in such a manner as to contravene the provisions of sub-rule (2) either during or after the execution of the work, and may recover, *from the person from whom the notice was received, the cost of such alterations which shall be deemed to include the following items, namely* :—

(i) *the cost of additional material used on the alteration,*

(ii) *the wages of labour employed in effecting the alteration,*

(iii) *supervision charges to the extent of 10 per cent. of item* (ii), *and*

(iv) *any charges recovered from the owner by a local or road-repairing authority for repairs to a road or foot path impaired by the alteration* :

Provided that the owner may, before so altering the aerial line, require the person from whom the notice was received to deposit the estimated cost of such alteration :

Provided further that an * * Inspector may, if he is satisfied that the aerial line has been so guarded as to secure the protection of persons and property from injury or risk of injury, permit the work to be executed prior to, or, in the case of a temporary addition or alteration, without the alteration of the aerial line.

(3) Where an aerial line is on a consumer's or an owner's premises, the height from the ground or from any railroad or refuse dump and from parts of buildings or structures to which persons have access shall, unless the conductors are adequately guarded, be not less than 15 feet or such greater height as may be necessary to prevent danger.

74. **Conductors at different pressures on same supports.**—*Where line conductors forming parts of systems at different pressures are erected on the same supports, the owners shall make adequate provision in guard against danger to linesmen and others from the lower pressure system being charged above its normal working pressure by leakage from or contact with the higher pressure system ; and the type of construction, clearances between the conductors of the two systems shall be subject to the prior approval of an Inspector.*

75. **Safety devices.**—(1) *The owner of every aerial* line (not being suspended from a dead bearer-wire and not being a trolley wire) erected * over * any part of a street *or other public place* or in any factory or mine or on any consumer's premises shall * protect it with a device approved by an * * Inspector for rendering the line electrically harmless in case it breaks.

(2) *The owner shall similarly protect every such aerial line on* * * his premises *,* if the pressure exceeds the limits of low pressure * *.

76. **Lines crossing or approaching each other.**—* * *

(2) Where an aerial line crosses or is in proximity to (i) any telegraph wire, or (ii) an aerial line belonging to some other person, the owner shall ensure that his aerial

line is so protected as to guard against the possibility of it coming into contact with the telegraph wire or other aerial line.

(2) Within twenty-one days of receiving notice that a new telegraph wire or aerial line has been, is being or is about to be, erected in proximity to his aerial line, the owner shall provide the protection referred to in sub-rule (1).

(3) Where the owner erects a new aerial line in proximity to any telegraph wire, or to any aerial line not belonging to him, he shall not bring the line into use until he has complied with sub-rule (1).

(4) In all cases referred to in the preceding sub-rules the protection shall be carried out at the expense of the person whose line is last erected and to the satisfaction of the * * Inspector.

(5) Where lines cross each other, the crossing shall be made in a direction as nearly at right angles as the nature of the case admits.

(6) All guarding arrangements should ordinarily be erected on the posts of the owner who shall, in that case, be responsible for their efficient maintenance.

* * * * * * *

77. Lines crossing trolley-wires.— * In the case of a crossing over a trolley-wire the guarding *shall fulfil* the following conditions, * namely :—

(1) Where there is only one trolley-wire, two guard-wires shall be erected as in the *appended* diagram A.

(2) Where there are two trolley-wires and the distance between them does not exceed 15 inches, two guard-wires shall be erected as in the *appended* diagram B.

(3) Where there are two trolley-wires and the distance between them exceeds 15 inches but does not exceed 48 inches, three guard-wires shall be erected as in the *appended* diagram C.

(4) Where there are two trolley wires and the distance between them exceeds 48 inches, each trolley-wire shall be separately guarded as in *the appended* diagram D.

(5) The rise of the trolley beam shall be so limited that, if the trolley leaves the trolley wire, it shall not foul the guard-wires

(6) Where a telegraph-wire is liable to fall or be blown down upon an arm, stay-wire or span-wire, and to slide down upon a trolley-wire, guard hooks shall be provided to prevent such sliding.

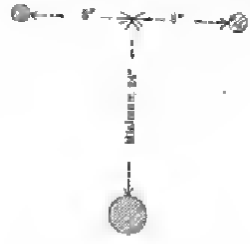

Diagram A.

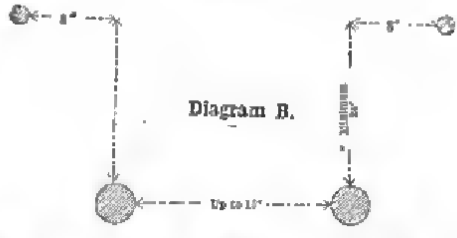

Diagram B.

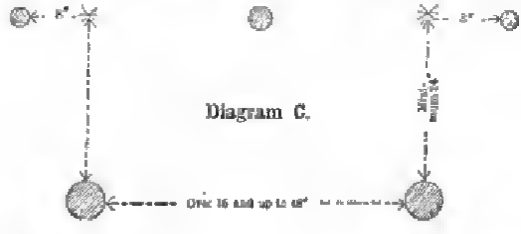

Diagram C.

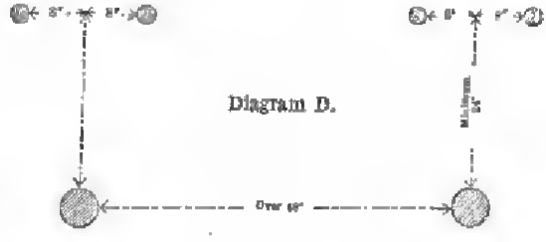

Diagram D.

74. **Guard wires.**—*(1)* * * * Every guard-wire shall be so protected with earth at each point at which its electrical continuity is broken and, in the case of electric traction lines, shall also be connected at intervals of not more than five spans, with the rails.

(2) Every guard-wire shall have a breaking-stress of not less than 1,500 lbs., and shall, if made of iron or steel, be galvanized.

(3) Every guard-wire, or cross-connected system of guard-wires, shall have sufficient current-carrying capacity to ensure the rendering dead, [if] the contact has been removed, of any live wire coming into contact with it, without risk of fusing of the guard-wire or wires.

(4) Every guard-wire or system of guard-wires and its supports shall have sufficient strength to carry with safety the extra load which may be put on *them* by the fall of any or all the wires guarded.

75. **Alternative methods of guarding.**—Alternative methods of guarding may be substituted *for those required by rule 73 and rule 74* with the approval of an * * Inspector.

76. **Service-lines from aerial lines.**—No service-line or tapping shall be taken off an aerial line except at a point of support.

77 **High pressure aerial lines.**—*The owner of* high pressure aerial lines shall not *bring them* into use until they have been approved by an * * Inspector, and *shall, when they are in use,* * * make arrangements * * to prevent any person from climbing up any of the supports without the aid of a ladder or special appliance.

78. **Suspending of aerial lines.**—*The owner of every* aerial line which is covered with insulating material shall ensure that it is efficiently suspended from a bearer-wire or bearer wires, by means of insulating hangers at distances of not more than 3 feet apart; and every bearer-wire, if made of iron or steel, shall be galvanized.

79. **Unused aerial line.** * * * *.*—Where an aerial line erected in, over, along or across any street or *other public place,* ceases to be used as an electric supply-line, *the owner* shall * maintain * it in a safe mechanical condition in accordance with * * * rule *72*, or, if so required by an * * Inspector, *shall remove it* within * * fourteen days *of the receipt* of such Inspector's requisition. * *.

CHAPTER VIII.

Electric Traction.

84. **Additional rules for electric traction.**—*(1) The rules in this Chapter apply only where energy is used for purposes of traction:*

Provided that nothing in this Chapter shall apply to energy used for the public carriage of passengers, animals or goods on, or for the lighting or ventilation of the rolling-stock of, any railway *or tramway subject to the provisions of the Indian Railways Act, 1890.*

[IX of 1890]

(2) In this Chapter the conductor used for transmitting energy to a vehicle is referred to as the "line"; and the other conductor as the "return".

(3) The owner of the line, return, rails or trolley-wire, as the case may be, shall be responsible for the due observance of rules 85, 86, 87, 90, 91, 93, 94, 95 and 98.

85. **Pressure of supply to vehicle.** * * *No person shall supply energy at high pressure* on any trolley-wire or other conductor used in direct electrical and mechanical connection with any vehicle, * * * except with the written approval of the Local Government and subject to such conditions * * as the Local Government may think reasonable and proper in the circumstances.

86. **Insulation of line.**—* * Every line shall be insulated throughout. * * *

87. **Insulation of returns.**—*(1)* Where any rails on which cars run, or any conductors, laid between or within three feet of such rail, form any part of a return, such part may be uninsulated. All other returns or parts of a return shall be insulated, unless they are of such conductivity as to secure the conditions required by rule *88 (2).*

* * * *(2)* Where any part of a return is uninsulated, it shall be connected with the negative terminal of the generator.

88. **Proximity to metallic pipes, etc.**—*(1)* Where * * * an uninsulated return is so proximate to any metallic pipe, structure or substance, not belonging to *the owner of the return,* he shall, if so required by the owner of such pipe, structure or substance * *, connect his return therewith at the latter's expense.

* * *(2)* Where the return is partly or entirely uninsulated, the owner shall, in the construction and maintenance of his system, adopt such means for reducing the difference produced by the current between the potential of the uninsulated return at any one point and the potential of the uninsulated return at any other point as to ensure that the difference of potential between the uninsulated return and any metallic pipe, structure or substance in the vicinity shall not exceed four volts, where the return is relatively positive, or one and one-third volts, where the return is relatively negative.

(3) The owner of any such pipe, structure, or substance as is referred to in sub-rule *(2)* * * may, in respect of it require the owner of the uninsulated return at reasonable times and intervals, to ascertain by test in his presence, or in that of his representative, whether the condition specified in * * sub-rule *(2) is fulfilled*; and if such condition * * is found to be *fulfilled*, all reasonable expenses of, and incidental to, the carrying out of the test shall be borne by the owner of the * * pipe, structure or substance.

89 **Difference of potential on return.**—Where the return is partly or entirely uninsulated, the owner shall keep a continuous record of the difference of potential, during the working of his system, between every junction of an insulated return with an uninsulated return and the point on the route most distant from that junction, and the difference of potential shall not, under normal running conditions, exceed a mean value between the highest momentary peak and the average for the hour of maximum load of seven volts.

90. **Leakage on conduit system.**—Where both the line and the return are placed within a conduit the following conditions shall be *fulfilled* in the construction and maintenance of the system:—

(a) Where the rails are used to form any part of the return, they shall be electrically connected, at distances apart of not more than 100 feet, with the conduit by means of copper strips having a mean sectional area of at least one sixteenth of a square inch or by other means of equal conductivity. Where the return is wholly insulated and contained within the conduit, the latter shall be connected with earth at the generating station or sub station through an instrument suitable for the indication of any contact or partial contact of either the line or the return with the conduit.

(b) The leakage-current shall be ascertained daily, before or after the hours of running, when the line is fully charged, and, if at any time it is found to exceed one ampere per mile of single tramway track, the transmission and use of energy shall be suspended unless the leakage is stopped within twenty-four hours.

91 **Leakage in other than conduit system.**—Where both the line and the return are not placed within a conduit, the leakage-current shall be ascertained daily before or after the hours of running, when the line is fully charged, and if at any time it is found to exceed one-half of an ampere per mile of single tramway track, the transmission and use of energy shall be suspended unless the leakage is stopped within twenty-four hours.

92 **Passengers not to have access to electric circuit.**—Precautions to the satisfaction of an * * Inspector shall be taken by the owner of every vehicle to prevent—

(a) the access of passengers to any portion of the electric circuit where there is danger * * of *their* receiving an electric shock;

(b) any metal handrail or other metallic substance liable to be handled by passengers becoming charged.

93. **Current density in rails.**—Where * rails on which cars run are used as a return, the current density in such rails shall not, under ordinary working conditions, exceed nine amperes per square inch of cross-sectional area.

94. **Isolation of sections.**—Every trolley-wire shall be constructed in sections not exceeding one mile in length, and means shall be provided for isolating each section.

95. **Minimum size and strength of trolley-wire.**—No trolley-wire shall be of less cross sectional area than eight one-hundredths of a square inch or shall * have a * * breaking-stress of less than 1,000 lbs.

96. **Height of trolley-wire and length of span.**—A trolley-wire or a traction-feeder on the same supports as a trolley-wire shall nowhere be at a height from the surface of the street of less than 17 feet, except where it passes under a bridge or other fixed structure, or through or along a tunnel or mine-shaft or the like, in which case it shall be suspended to the satisfaction of an * * Inspector. The intervals between the supports shall not exceed 140 feet.

97. Records.—(1) The owner shall so far as in consistent with the system of working, keep the following records, namely :—

(a) daily records showing—
the maximum working current from the source of supply ;
the maximum working pressure at the source of supply ;
the difference of potential, as required by rule 88 ; and
the leakage-current (if any), as required by rule 90 and rule 91.

(b) occasional records showing—
every test made under rule 86 ;
every stoppage of leakage, together with the time occupied ; and
particulars of any abnormal occurrence affecting the electrical working of the system.

(2) These records shall be open to inspection by an * * Inspector or by any person authorised in writing by an * * Inspector.

CHAPTER IX.

Additional precautions to be adopted in Mines and Oil-fields.

98. Application of Chapter.—(1) *The rules in this Chapter apply only* :—

(a) *Where* energy is used in mines where the provisions of Part III of the Act apply ; and

(b) *Where* energy is used in oil fields.

(2) In the case of *mines the rules in this Chapter do* not apply in the case of apparatus used above ground, *excepting* such *apparatus* as may directly affect the safety of persons below ground.

99. Responsibility for observance.—(1) It shall be the duty of the owner, agent, or manager of the mine or of the agent of any company operating in the oil-field, or of the owner of one or more drilled wells situated in the oil field to comply with and enforce the following rules and it shall be the duty of all persons employed to conduct their work in accordance with the rules.

(2) An authorised person shall be on duty in every mine or oil-field while energy is being used therein.

100. Notices.—*(1)* On or before the first day of February in every year in every *oil field* returns giving the size and type of apparatus and any particulars as to the circumstances of its use which may be required by the person to whom the return is to be sent shall be sent by the persons specified in *rule 99* in the form set out in Annexure IX * * *

(2) This rule *does* not apply to telephones and signalling apparatus or to low pressure installations for lighting only.

IV of 1923. 101. Plans.—(1) A proper plan on the same scale as the plan kept at the mine in fulfilment of the requirements of the Indian Mines Act 1923, shall be kept in the office at the mine showing the position of all fixed apparatus and conductors in the mine, other than lights, telephones or signalling apparatus, or cables for the same. * * * *

(2) A similar plan, on a scale of not less than sixteen inches to the mile, shall be kept by the manager or owner of one or more wells in any oil-field, showing similar particulars. * * * *

(3) A similar plan, on such scale as the Local Government may require, shall be kept in the office of the licensee or person transmitting or distributing energy in a mine or oil-field, showing the position of all electric supply-lines under his control. * * *

(4) The plans required by this rule shall be corrected every six months, and *the dates* of correction entered on *them* by the *Manager of the mine or wells or the owner of the wells*, and *they* shall be produced to an * * Inspector or an Inspector of Mines *at any* time on his request.

102. Lighting, communications and fire precautions.—(1) * * In a mine lighted by electricity, * * * one or more safety lamps or other proper lights shall be kept continuously burning in *all places where failure of the electric light at any time would be likely to cause danger*.

(2) Efficient means shall be provided in every mine for communicating between the place in which the switchgear provided under sub-rule (1) of rule 103 is erected and the shaft-bottom or main distributing centre in the mine.

(3) Appliances for extinguishing fires shall be kept ready for immediate use in every place in a mine containing apparatus, other than cables, telephones and signalling apparatus.

2A

103. Isolation and fixing of transformer, switchgear, etc.—(1) Where necessary to prevent danger or mechanical damage, transformers and switchgear shall be placed in a separate room, compartment or box.

(2) Unless the apparatus is so constructed, protected, and worked as to obviate the risk of fire, no inflammable material shall be used in the construction of any room compartment, or box containing apparatus, or in the construction of any of the fittings therein. Each such room, compartment or box shall be substantially constructed and shall be kept dry.

(3) Adequate working space and means of access clear of obstruction and free from danger shall, * as far as circumstances permit, be provided for all apparatus that has to be worked or attended to, and all handles intended to be operated shall be conveniently placed for that purpose.

104. Method of earthing.—Where earthing is necessary it shall be carried out in a mine by connection to an earthing system at the surface of the mine, * * in a manner approved by an * * Inspector.

105. Construction, * * insulation and earthing of apparatus.—* * (1) All apparatus * * shall be sufficient in power and size and of sufficient mechanical strength for the work it may be required to do, and *shall be* so constructed, installed, protected, worked and maintained as to prevent danger so far as is reasonably practicable. The exposure of live parts shall be avoided.

(2) All insulating material shall be chosen with special regard to the circumstances of its proposed use. It shall be of mechanical strength sufficient for its purpose, and, so far as is practicable, * shall be of such a character or so protected as fully to maintain its insulating properties under working conditions of temperature and moisture.

(3) Every part of a system shall be kept efficiently insulated from earth, except that :—

(i) the neutral point of a polyphase system may be earthed at one point only ;

(ii) the mid-voltage point of any system, other than a concentric system, may be earthed at one point only ; and

(iii) the outer conductor of a concentric system shall be earthed.

(4) Earth or fault detectors or recorders shall be connected up in every system in use in order to show immediately any defect in the insulation of the system. The readings of these instruments shall be recorded daily in a book kept at the generating station, sub-station or switch room.

106. Earthing metal, etc.—(1) All metallic sheaths, coverings, handles, joint-boxes, switchgear frames, instruments covers, switch and fuse covers and boxes, and all lampholders, unless efficiently protected by an earthed or insulating covering made of fire resisting material, and the frames and bed plates of generators transformers, and motors (including portable motors), shall be earthed by connection to an earthing system in the manner prescribed in rule 104.

(2) Where the cables are provided with a metallic covering constructed and installed in accordance with rule 116 (d) such metallic covering may be used as a means of connection to the earthing system.

(3) All the conductors of an earthing system shall have a conductivity at all parts and at all joints at least equal to 50 per cent of that of the largest conductor used solely to supply the apparatus a part of which is to be earthed.

Provided that no conductor of an earthing system shall have a cross-sectional area of less than 0·12 of a square inch.

(4) All joints in earth conductors and all joints to the metallic covering of the cables shall be properly soldered or otherwise efficiently made.

(5) No switch, fuse, or circuit-breaker shall be placed in any earth conductor.

(6) This rule shall not apply (except in the case of portable apparatus) to any system in a mine in which the pressure does not exceed low pressure direct current or 125 volts alternating current.

107. Motors and their transformers.—(1) Where energy is distributed at a pressure higher than medium pressure :—

(i) it shall not be used without transformation to medium or low pressure except in fixed machines in which the high pressure parts are stationary ; and

(ii) portable motors under 20 h.p. shall be supplied through a transformer stepping down to medium or low pressure.

(2) Where energy is transformed, suitable provision shall be made to guard against danger by reason of the lower pressure apparatus becoming accidentally charged above its normal pressure by leakage from, or contact with, the higher pressure apparatus

108. **Switchgear and terminals.**—Switchgear and all terminals, cable-ends, cable joints and connections of apparatus shall be totally enclosed, and *shall be so* constructed and installed *as to comply with the following* requirements :—

(*i*) all parts shall be of mechanical strength sufficient to resist rough usage ;

(*ii*) all conductors and contact areas shall be of ample current-carrying capacity and all joints in conductors shall be properly soldered or otherwise efficiently made ;

(*iii*) the lodgement of any matter likely to diminish the insulation or affect the working of any switchgear shall be prevented ;

(*iv*) all live parts shall be so protected or enclosed as to prevent persons accidentally coming into contact with them and danger from arcs, short-circuits, fire, water, gas or oil ;

(*v*) when there may be risk of igniting gas, coal-dust, oil or other inflammable material, all parts shall be so protected as to prevent open sparking ;

(*vi*) every switch or circuit-breaker shall be capable of opening the circuit it controls, without danger, at any short circuit with which it may have to deal.

109. **Cutting off supply.**—(1) Properly constructed switchgear for cutting off the supply of energy to the mains or oil-field shall be provided at the surface of the mine or oil-field at a point approved by an * * Inspector, or, in the case of the Burma oil-fields, by the Warden of the oil-fields ; and during the time any cable is live, a person authorised to operate the said switchgear shall be available within call of the switchgear.

(2) Efficient mains, suitably placed, shall be provided for cutting off all pressure from every part of a system, when necessary to prevent danger.

(3) Such efficient means shall be provided for cutting off all pressure automatically from the part or parts of the system affected in the event of a fault as may, in the opinion of an * * Inspector, be necessary to prevent danger.

(4) Every motor shall be controlled by switchgear for starting and stopping, so arranged as to cut off all pressure from the motor and from all apparatus in connection therewith, and so placed as to be easily worked by the person appointed to work the motor.

(5) If a concentric system is used, no switch, fuse, or circuit-breaker shall be placed in the outer conductor, or in any conductor connected thereto, except that, if required, a reversing switch may be inserted in the outer conductor at the place where the energy is being used :

Provided that, subject to the connection of the outer conductor with the earthing system being maintained, switches, fuses or circuit-breakers may be used to break the connection with the generators or transformers supplying the energy.

110. **Cables** * *.—All cables * *, other than flexible cables for portable apparatus, shall comply with the following requirements :—

(a) They shall be covered with insulating material (except that the outer conductor of a concentric system may be bare). They shall be efficiently protected from mechanical damage and supported at sufficiently frequent intervals and in such a manner as adequately to prevent danger or damage to the cables.

(b) (*i*) Except as provided in clause (*e*), or with the consent in writing of an * * Inspector and subject to the provisions of clause (*f*) and to such further conditions as the * * Inspector may impose, no cables other than concentric cables, or two-core cables or multi-core cables protected by a metallic covering, or single-core cables which contain all the conductors of the circuit, shall be used where the pressure exceeds low pressure *direct* current or 125 volts alternating current.

(*ii*) The lead sheath of lead-sheathed cables and the iron or steel armouring of armoured cables respectively shall be of a thickness not less than that recommended from time to time by the *British Standards Institution*.

(c) Where the medium pressure direct current system is used two single-core cables may be used for any circuit, if their metallic coverings are bonded together by earth conductors so placed that the distance between any two consecutive bonds is not greater than 300 feet measured along either cable.

(*d*) The metallic covering of every cable shall be—

(*i*) electrically continuous throughout ;

(*ii*) earthed, if at any required by sub-rule (1) of rule 105 to be earthed, by a connection to the earthing system of not less conductivity than the same length of the said metallic coverings ;

(*iii*) efficiently protected against corrosion where necessary ;

(*iv*) of a conductivity at all parts and at all joints at least equal to 30 per cent of the conductivity of the largest conductor enclosed by the said metallic covering ; and

(*v*) where there may be risk of igniting gas, coal dust, or other inflammable material, so constructed as to prevent, as far as is practicable, the occurrence of open sparking as the result of any fault or breakage from live conductors :

Provided that, where two single-core cables protected by metallic covering, bonded together in accordance with clause (*c*) of this rule are used for a circuit, the conductivity of each of the said metallic coverings at all parts and at all joints shall be at least equal to 25 per cent of the conductivity of the conductor enclosed thereby.

(*e*) Cables and conductors where joined up to mains, transformers, switchgear, and other apparatus, shall be installed so that—

(*i*) they are mechanically protected by securely attaching the metallic covering to the apparatus ; and

(*ii*) the insulating material at each cable end is efficiently sealed so as to prevent the diminution of its insulating properties :

Where necessary to prevent abrasion or to secure gas-tightness there shall be properly constructed glands or bushes.

(*f*) Unarmoured cables or conductors, used with the consent of an * * Inspector as provided in sub-clause (*i*) of clause (*b*) shall be either contained in pipes or casings or suspended from efficient insulators by means of some non-conducting material which will not cut the covering and which will prevent contact with any timbering or metal work. If separate unarmoured wires are used they shall be kept at least one and a half inches apart and shall not be brought together except at lamps, switches and fittings.

111. **Flexible cables.**—(1) Flexible cables for portable apparatus shall be two-core or multi-core and covered with insulating material which shall be efficiently protected from mechanical damage. If a flexible metallic covering is used either as the outer conductor of a concentric system or as a means of protection from mechanical damage, it shall not be used by itself to form an earth conductor for the portable apparatus, but it may be used for that purpose in conjunction with an earthing core or other earthing wire.

(2) Every flexible cable for portable apparatus shall be connected to the system and to the portable apparatus * * by a properly constructed connector.

(3) At every point where flexible cables are joined to main cables a switch shall be provided which is capable of entirely cutting off the pressure from the flexible cables.

(4) Every flexible cable *attached to a machine* shall be examined periodically by the person authorised to work the machine, and, if such cable is used with a portable machine, he shall examine it at least once in each shift. If such cable is found to be damaged or defective, it shall forthwith be replaced by a spare cable in good *condition, and shall not again* be used underground until it has been properly repaired.

112. **Portable machines.**—The person authorised to work an electrically driven coal-cutter or other portable machine shall not leave the machine while it is working and shall, before leaving the place where such machine is working, ensure that the pressure is cut off from the flexible trailing cable which supplies such machine. Trailing-cables shall not be dragged along by the machine when working.

113. **Sundry precautions.**—(1) * * All apparatus shall be kept clear of obstruction and free from dust, dirt and moisture.

(2) Inflammable or explosive material shall not be stored in any room compartment, or box containing apparatus or in the vicinity of apparatus.

(3) Should there be a fault in any circuit, the part affected shall be made dead without delay, and shall remain so until the fault has been raised or

(4) Before any conductor or apparatus is handled, adequate precautions shall be taken, by earthing or other suitable means, to discharge electrically such conductor

or apparatus, and any adjacent conductor or apparatus, if there is danger therefrom, and to prevent any regulator or apparatus from being accidentally or inadvertently electrically charged when persons are working on the rope :

Provided that this sub-rule shall not apply to the cleaning of commutators and slip-rings working at low or medium pressures.

(3) While ropes are being charged the pressure shall be cut off.

(4) No lamp-holder shall be in metallic connection with the guard or other metal work of a portable lamp.

116. Precautions where gas exists.—(1) In any part of a mine or oil field or in any working face or other part, in which inflammable gas or vapour, whether normally present or not, is likely to occur in quantity sufficient to be indicative of danger, the following additional requirements shall be satisfied as regards all apparatus * * :—

(a) All cables, apparatus, signalling wires and signalling instruments shall be so constructed, installed, protected, worked and maintained, that in the normal working thereof there shall be no risk of open sparking :

(b) All motors shall be so constructed that, when any part is live, all rubbing contacts (such as commutators and slip-rings) are so arranged or enclosed as to prevent open sparking :

(c) The pressure shall be cut off the apparatus *immediately* I open sparking occurs, and during the whole time that examination or adjustment of live parts liable to open sparking is being made The pressure shall not be switched on again until the apparatus has been examined by the electrician or one of his duly appointed assistants and the defect if any, has been remedied or the adjustment made :

(d) Every electric lamp shall be enclosed in an air-tight fitting, and the lamp globe * shall be hermetically sealed :

(e) A safety lamp shall be provided and kept continually burning near each motor when working and, should the appearance of the flame of such safety lamp indicate the presence of inflammable gas the pressure shall be cut off *immediately* from all apparatus in the vicinity * * and the matter shall be reported forthwith to an official of the same.

(2) If at any time in any place * * the percentage of inflammable gas in the general body of the air current exceed one and a quarter, the supply of energy shall be cut off *immediately* from all cables and apparatus in that place and shall not be recommenced so long as the percentage of inflammable gas exceeds that amount.

118. Shot-firing * —* * (1) *When* shot firing is being carried on * * *adequate* precautions shall be taken to protect conductors and apparatus from injury.

(2) Current from lighting or power circuits shall not be used for firing shots.

(3) Shot firing cables shall be covered and protected as provided by rule *111* for flexible cables Adequate precautions shall be taken to prevent them from touching other cables and apparatus.

116. Signalling.—Where electrical signalling is used * *—

(a) Adequate precautions shall be taken to prevent signal and telephone wires from touching cables and other apparatus.

(b) The pressure used in any one circuit shall not exceed 15 volts

(c) Contact makers shall be so constructed as to prevent the accidental closing of the circuit.

117. Haulage * *.—Haulage by electric locomotives on the overhead trolley wire system, at pressures not exceeding medium, and haulage by storage battery locomotives, may be used * * with the *prior* consent in writing * * of an * * Inspector, * * and subject to such conditions affecting safety as he *may impose*.

118 Supervision * *.—(1) An electrician shall be appointed in writing by the owner, agent or manager of the mine or by the agent or the owner of one or more wells in an oil field to supervise the apparatus. If necessary for the proper fulfilment of the duties detailed in this rule, one or more assistants to the electrician shall be appointed by the aforesaid authority

(2) Every person appointed to work, supervise, examine or adjust any apparatus shall be competent for the work that he is set to do. No person except the electrician or a competent person acting under his supervision, shall undertake any work where, in order adequately to avoid danger, technical knowledge or experience is required.

(3) The electrician shall be responsible for the proper performance by himself or by an assistant appointed under sub-rule (1) of the following duties, namely :—

(i) the thorough examination of all apparatus (including the testing of earth conductors and metallic coverings for continuity) as often as may be necessary to prevent danger ; and

(ii) the examination and testing of all new apparatus, and of all apparatus re-erected in the mine before it is put into service in a new position

* * *(4) In the absence of the electrician for more than three days the owner, agent or manager of the mine or the agent or owner of one or more oil-wells in an oil-field shall appoint in writing an efficient substitute.

(5) The electrician or the substitute appointed for him under sub-rule (4) shall keep in the mine or oil field a log book made up of daily log sheets kept in the forms set out respectively for mines and oil fields in Annexure X * * *. The said log book shall be produced at any time on a request to an Inspector of Mines or an * * Inspector.

119 Exemptions.—(1) The provisions of rules *99* to *120*, both inclusive, *and 118*, shall not apply in any case in which exemption is obtained on such conditions as he may prescribe from an * * Inspector, or, in the case of the Burma oil-fields, from the Warden of the Oil-fields, on the ground either of emergency or special circumstances.

(2) Notwithstanding anything in *this Chapter*, any electrical plant or apparatus installed, or in use, in any mine before the 23rd December 1910, or in any oil field before *31st July 1922*, may be continued in use unless an * * Inspector, after consulting the Chief Inspector of Mines, or, in the case of the Burma oil-fields, the Warden of the Oil fields, * * shall otherwise direct, and subject to *such* conditions affecting safety as such * * Inspector may impose.

CHAPTER X

Miscellaneous.

120. Relaxation by Local Government.—The Local Government may, by order in writing, direct that any of the provisions of rules *99* to *119*, both inclusive, be relaxed to any particular case to such extent and subject to such conditions * * as it may think fit.

121 Relaxation by * * Inspector.—(2) An * * Inspector may, by order in writing direct that *any of the provisions of rules 38, 55, 65, 66, 70, 71, 72, 73* (1) (a) *and 75* be relaxed in any particular case to such extent and subject to such conditions * * as he may think *fit*.

(2) Where the pressure on any system does not exceed 125 volts an * * Inspector may, by order in writing, direct that *any* of the provisions of rules *99* to *97*, both inclusive, *97* to *114*, both inclusive, and *118*, be relaxed as regards such system such extent and subject to such conditions as he may think fit.

(3) Every relaxation so directed shall be reported forthwith to, and shall be subject to disallowance or revision by, the Local Government.

* * * *

122 Supply of energy by non-licensees.—*Where any person is supplied with energy by a non licensee or has his premises for the time being connected for the purposes of a supply of energy with the works of a non-licensee, such person shall be deemed to be a consumer for the purposes of rules 81 to 83 inclusive, 85 and 91 and the non-licensee shall have all the liabilities imposed on a licensee by those rules.*

123 Responsibility of Agents and Managers—*Where any licensee,* * *non-licensee or owner,* * * * *are responsible for* the observance of *any of these rules these persons and managers of such licensees, non-licensees or owners shall be jointly responsible for the observance of these rules in respect of any matters under their control.*

124 Penalty for breaking seal.—Where, in contravention of rule *31*, any seal referred to in that rule is broken,—

(a) the person breaking the seal * * * shall be punishable with fine which may extend to fifty rupees, and

(b) the consumer when he has not himself broken the seal shall be punishable with fine which may extend to fifty rupees unless he proves that he used all means in his power to ensure that the seal should not be broken

125. Penalty for breach of rule *48*.—Where any electrical installation work of the nature specified in rule *48* has been carried out otherwise than—

(a) under the direct supervision of a person holding a certificate of competency issued by the Local Government under that rule ; and

(b) in the absence of any applicable exemption under the proviso to sub-rule (1) of this rule, by an electrical contractor licensed by the Local Government in this behalf,

the consumer or owner, the contractor (if any) through whom the work was carried out, the person who carried out the work, and the person under whose immediate supervision it was carried out shall each be punishable with fine which may extend to three hundred rupees.

126. **Penalty for breach of rules.**—Whoever, being a licensee, *non-licensee* or owner, or the agent or manager of a licensee, *non-licensee* or owner, contravenes a breach of these rules, being a person specified in rule 73 (2) (a) commits a breach of that rule shall be punishable for every such breach with fine which may extend to three hundred rupees and in the case of a continuing breach with a further fine which may extend to fifty rupees for every day after the first during which *the breach has continued.*

127. **Mode of entry.**—All persons entering, in pursuance of the Act or these rules, any building which is used as a human dwelling or as places of worship shall, in making such entry, have due regard, so far as may be compatible with the requirements of the purpose for which such entry is made, to the social and religious usages of the occupant of the building entered.

128. **Application of rules.**—Subject to the provisions of sub-section (2) of section 58 * * these rules shall be binding on all persons, companies, and undertakings to whom licenses have been granted or with whom agreements have been made by or with the sanction of Government for the supply or use of electricity before the commencement of the Act.

Specifications relating to the Deposition of Silver.

The electrolyte of all meters of a capacity of 100 to 20 parts by weight of silver nitrate to 100 parts by weight of distilled water. The solution must only be used once and only as long as it does not contain more than 50 per cent of the silver in the solution dry salts.

The anode shall be of silver and the cathode of platinum. The area of the anode shall not exceed 175 square centimetres and that of the cathode 1,750 square centimetres and both

Shall so that 100 cubic centimetres of electrolyte at all be used in a voltameter

Care must be taken that no particles which may become mechanically detached from the anode shall reach the kathode

Before weighing any meters of cathodes adhering to the kathode must be removed and the kathode dried

ANNEXURE II.

[SEE *Rule* 7 (2).]

Scale of Fees for comparison with the Government of India Standard † referred to in Rule 3 (1).

In cases requiring the expenditure of a considerable amount of power, a charge to cover the actual cost of the energy used, may be made.

	Rs.
For each instrument intended to be used as a sub-standard and submitted for special examination and testing	80
If required to be kept under observation for a period long till an additional charge, for each additional month or part of a month	40
For determining the B.S.C. of a standard cell to highest accuracy obtainable at one temperature.	22
For determining the E.M.F. of a standard cell to highest accuracy obtainable at one temperature.	11

Fees in cases referred to above to be delivered at and received from the Government Electrical Laboratory, Bowbazar, Calcutta, free of cost to Government.

Model Form of Draft License under the Indian Electricity Act, 1910.

[SEE *Section* 3.]

Electric License, 19 .

DRAFT LICENCE.

Signature of Applicant or his Agent (if any).

Address of Applicant.

The Electric License, 19 .

License for the supply of energy granted by the Government of Under the Indian Electricity Act, 1910.

License is hereby granted to * [carrying on business in partnership under the name and style of]

* This license may be any local authority, company or individual—in the case of a firm give names of individual partners.

to supply electrical energy in the area† with the powers and upon the terms and conditions, aliquoted below.

SHORT TITLE.

1. This license may be cited as "The † Electric License 19 ."

INTERPRETATION.

2. The several words, terms and expressions to which by the Indian Electricity Act, 1910, or by the Rules thereunder meanings are assigned shall have in this license the same respective meanings provided that in this license :—

(1) the Act shall mean the Indian Electricity Act, 1910;

(2) the expression the "licensee" shall mean and include the said ‡ and their [or his] permitted assigns ; and

(3) the expression "deposited map" shall mean the plan of the area of supply ‖ to this under specified which has been deposited with Government in pursuance of the Rules under the Act, which plan is signed for the purposes of identification by the Secretary to the Government of in the Department, and by the Applicants under the name and style of .

SECURITY. §

3. (1) The period within which, under clause 7 (b) of the Schedule to the Act, the licensee shall show that he is in a position fully and efficiently to discharge the duties and obligations imposed on him shall be

(2) The period for which, under clause 7 (d) of the Schedule to the Act, the licensee shall be liable to pay to the Government the sum specified therein shall be [here specify period] and if from any cause he is disqualified or removed, shall, unless otherwise ordered by the Government, forfeit all his rights to and interest in respectively.

AREA OF SUPPLY. ¶

4. The area above referred to within which the supply of energy is authorized by this license (the area of supply under the Act) is the whole of the area bounded as follows :—

North—By
East—By
South—By
West—By

the boundaries whereof are delineated in the deposited map.

POWER TO LAY MAINS OUTSIDE AREA OF SUPPLY.

5. The licensee may lay down or place electric supply-lines for the conveyance and transmission of energy from a generating station situated or to be situated at (outside the area of supply) to the boundary of the area of supply.

LIMITS WITHIN WHICH THE SUPPLY OF ENERGY IS TO BE OBLIGATORY. **

6. (1) The works to be executed to the satisfaction of the Government under clause IV of the Schedule to the Act are the following namely :—‖

(2) ‖ If the licensee fails to supply with the provisions of sub-clause (1) the license may be revoked ‡‡

NATURE OF THE SUPPLY AND LIMITS OF PRICE TO BE CHARGED FOR THE SUPPLY OF ENERGY.

7. (1) The nature of the supply shall be for such other as the Local Government may allow

(2) The price to be charged by the licensee for energy supplied by him shall not exceed the following maxima, namely :—

or in the case of a method of supply approved by the Government of a accordance with the sub-section (3) and (4) of section 48 of the Act, such maximum as the Government may fix on approving the method.

DELIVERY BY OF STREETS, RAILWAYS AND TRAMWAYS. §§

8. The licensee is specially authorized to open and break up the soil and pavement of the follow the streets railways tramways or high roads namely :— by the Government or by municipal authority, and of the following railways and tramways or parts of railways and tramways, viz. :—

(a) Streets,
(b) Railways ||
(c) Tramways. ||

* See clause 4.

† Short title to agree with heading.

‡ Individual names only in preamble in the case of a firm.

§ See section 4 (3) (c) of the Act and clause X of the Schedule to the Act.

‖ The area for which each local authority is constituted should be distinctly marked on plans. See rule 23 (3)

¶ This clause should be considered only where the licensee is to supply energy from a generating station outside the area of supply. In which power to cross an intervening area is sought under section 6 (1) of the Act and other details here

** See section 3 (3) (d) of the Act.

†† It is open to the licensee to propose a "compulsory area" or to the Local Government to make provision for such an area. Still supply It will be sufficient in either to fix the names of "compulsory streets" in which the licensee will lay distributing mains. If no compulsory works are specified in the license, the Local Government may subsequently direct what works are to be executed, see clause IV of Schedule

‡‡ See note to sub-clause (1) of this clause.

§§ This clause to be omitted if no such powers are required in the license. See section 12 (3) of the Act and provide for the same. Powers can be obtained subsequently ; see rule 23.

‖ In ordinary cases the level-crossings or points at which interference is proposed must be specified.

PURCHASE OF UNDERTAKING.

8. (1) The option of purchase given by sub-section (1) of section 7 of the Act shall first be exercisable at the expiration of [20 years] from the date of the notification of this licence, and thereafter at the expiration of every subsequent period of [10 years] and the price to be paid on the exercise of such option shall be [ ]. The percentage of the value to be determined in accordance with rules for the purpose of sub-section (1) of section 7 of the Act of the lands, buildings, works, plant and other property of the licensee directly or indirectly used for the purposes of the undertaking but not including any part of the undertaking for the purpose of purchase under section 5 or section 7 is [ ].

* The periods after which an option to purchase arises may be less than 20 and 10 years respectively

† The terms must not differ from those laid down in the Act unless the powers of section 10 are invoked to modify or cancel them.

‡ The generating station or stations belonging to the licensee should ordinarily be included except where they form part of a transaction undertaking previously authorized.

ADDITIONS TO, VARIATIONS FROM AND EXCEPTIONS FROM THE CLAUSES IN THE ACT †

10. (1) In pursuance of clause (f) of sub-section (2) of section 3 of the Act, it is hereby expressly declared that clause [ ] of the Schedule to the Act shall for the purpose of incorporating in this licence be varied/added to by the substitution of the following clause, namely:—‖

(2) In pursuance of clause (f) of sub-section (2) of section 3 of the Act, it is hereby expressly declared that clause (a) [ ] of the Schedule to the Act shall be excepted from incorporation in this licence.

NOTE.—In the preparation of a draft licence the above model form may be varied, or added to, by the addition so far as the Act and rules allow.

RULE NOS. 33 to 38 inclusive, as to applications for licences, should be consulted. In drawing up a draft licence the attention of the draftsman is made particularly directed to the following sections of the Act, viz., 3, 4, 7, 10, 11, 17, 21, 22, 23, 37, 51 and 57. The powers under section 51 can only be conferred after the grant of the licence.

In the case of licences for bulk supply, see clause 15. of the Schedule and the proviso to clause (f) of sub-section (2) of section 3 of the Act, also clause (b) of section 10 of the Act.

‖ To be omitted if not required in any draft licence.

‡ The latter part of the clause may require modification according to the circumstances.

No. 363.—

The following draft of certain rules relating to the representation of different communities in the services under district boards, which the Governor acting with Ministers proposes to make in exercise of the powers conferred by section 10 and clause (a) of sub-section (2) of section 199 of the Madras Local Boards Act, 1920 [Madras Act XIV of 1920], is hereby published, as required by clause (a) of section 200 of the said Act, for general information. Notice is hereby given that the draft will be further proceeded with after six weeks from the date of publication of this notification and that any objection or suggestion which may be received with respect thereto before the expiry of the period aforesaid, will be considered by the Governor acting with Ministers :—

DRAFT RULES.

1. (1) Appointments in each of the groups of district boards grouped in any of the revenue districts specified in Annexure I to these rules, to the categories of posts specified in Annexure II shall, as far as qualified and suitable candidates of the communities concerned are available, be made in the following order, namely :—

(i) One Non-Brahman (Hindu)
(ii) One Muhammadan.
(iii) One Non-Brahman (Hindu).
(iv) One Anglo-Indian or Christian or Non-Asiatic.
(v) One Brahman.
(vi) One Non-Brahman (Hindu).
(vii) One member of the Scheduled Classes.
(viii) One Non-Brahman (Hindu).
(ix) One Muhammadan.
(x) One Non-Brahman (Hindu).
(xi) One Anglo-Indian or Christian or Non-Asiatic.
(xii) One Brahman.

Explanation I.—The expression 'Scheduled Classes' means the communities mentioned in Annexure IV to these rules.

Explanation II.—The expression 'Non-Brahman (Hindu)' shall include every community other than the Brahman, the Muhammadan, the Anglo-Indian, Christian or Non-Asiatic, and the Scheduled Classes.

(2) The stage at which the communal rotation specified in sub-rule (1) shall commence, when first applied to any of the categories specified thereon, shall be determined by the Local Government.

(3) If a qualified and suitable candidate belonging to any community is not available for appointment to any such category in the turn allotted to that community under sub-rules (1) and (2) or under this sub-rule, a qualified and suitable candidate belonging to the community next in the order specified in sub-rule (1) shall, if available, be appointed, but the former community shall have a preferential claim for consideration when any subsequent appointment is to be made to such category until a suitable and qualified candidate belonging to that community has been appointed against that claim.

(4) Where a probationer belonging to any community is discharged from any such category otherwise than for want of a vacancy therein, such community shall have a preferential claim for consideration when any subsequent appointment is to be made to such category until a suitable and qualified candidate belonging to that community has been appointed against that claim.

(5) If, when an appointment to any such category is to be made, there are two or more communities having a preferential claim under sub-rule (3) or sub-rule (4), that community shall receive first consideration whose preferential claim first arose.

(6) On the occurrence of a vacancy in any such category, the president of the district board concerned shall forthwith apply to the Local Government for orders as to the community from which such vacancy should be filled, and the Local Government shall thereupon intimate to him the community from which such vacancy should be filled. The vacancy shall then be filled by the appointment of a member of such community.

2. (1) Where it is necessary in the public interest to fill up immediately a vacancy in any of the categories of posts specified in Annexure II to these rules and there would be undue delay in filling such vacancy in accordance with rule 1, the president of the district board concerned may appoint a person, otherwise than in accordance with rule 1, temporarily, until a person is appointed in accordance with that rule, but such temporary appointment or appointments shall in no case exceed three months altogether in the case of any individual.

(2) Every appointment made under sub-rule (1) together with all the particulars relating to the person so appointed and the reasons therefor shall be reported without delay to the Local Government.

(3) A person so appointed shall be replaced as soon as possible by a member of the community whose turn it is to fill the appointment, and the former shall not be entitled to count the period of his service in such temporary appointment towards probation.

3. (1) Appointments under each district board to the categories of posts specified in Annexure III to these rules, shall be made in accordance with sub-rules (1), (3), (4) and (5) of rule 1 and sub-rules (1) and (3) of rule 2.

(2) The stage at which the communal rotation specified in sub-rule (1) shall commence, when first applied to any of the categories specified in Annexure III, shall be determined by the president of the district board concerned.

4. Nothing contained in these rules shall be deemed—

(a) to affect in any manner the operation of rule 8 of the schedule to the Madras Local Boards and Elementary Education (Amendment) Act, 1934 (Madras Act II of 1934), or of any direction issued by the Local Government in pursuance of the said rule 8;

(b) to apply to promotions in the same category of posts under a district board; or

(c) to affect the operation of the rules relating to establishments, published with Local Self Government Department Notification No. 1410, dated the 4th September 1933, at pages 927-928 of Part I A of the *Fort St. George Gazette*, dated the 20th September 1933, as subsequently amended.

5. These rules may be called the "Madras District Boards (Communal Representation) Rules, 1938."

No. 80.—RULES RELATING TO THE MADRAS TEXT-BOOK COMMITTEE.

I—The objects of the Committee

1. The Madras Text-Book Committee shall be advisory in its functions.

The functions of the Committee are:—

(a) to consider such books as may be submitted to it by the Secretary, Text-Book Committee, under the orders of the Director of Public Instruction, and to advise the latter in regard to their suitability as text-books for the several classes and forms in recognized schools, the list in each subject, and for each class or form being as varied and complete as possible, so that managers of schools may have a wide field in which to exercise the freedom of choice vested in them;

(b) to delete from the number of books available for school use those which are unsuitable for use in schools throughout the area controlled by the Madras Educational Department and to distinguish those which are suitable as text-books from those which deserve a place in the school library or in teachers' library. The Committee does not attempt to prescribe particular text-books; it provides a list of books in the different subjects from which the school authorities may, in selecting, exercise their discretion;

(c) to advise the Educational Department as to the steps to be taken for the preparation and publication of new text-books when necessary;

(d) to help in forming under the control of the Director an educational library containing all text-books approved by the Committee and authorized by him during a period of five years, the text-books approved before that period, except those in current use, being disposed of by the Director in a manner he considers fit; and

(e) to report on any matter concerning text-books which may be referred to it by the Director.

II—Constitution of the committee

2. Exclusive of the President, the Committee shall consist of not more than forty members, of whom eighteen shall be elected by District Secondary Education Boards, as shown below, and the remaining twenty-two (of whom five shall be Muhammadans representing the five chief vernaculars of the Presidency) shall be nominated by the Director subject to the approval of the Government. The District Secondary Education Boards should elect only such members as have the qualifications and experience required for discharging the functions mentioned in rule 1.

NOTE.—Where two districts are mentioned, the elections will be held alternately by the District Secondary Education Boards of those districts. The first election under these rules will be held by the Godavari East, Guntur, Bellary, Anantapur and North Arcot Boards.

3. The members of the Committee shall hold office for three years, but shall be eligible for re-election or re-nomination as the case may be. The Government may, without assigning any reasons, at any time, remove any member whether elected or nominated.

4. A member leaving the Presidency for a period exceeding six months shall be considered to have permanently vacated his seat. Vacancies not exceeding six months in duration shall, when necessary, be filled up temporarily, by nomination by the Director subject to the approval of the Government.

5. A member who fails to attend three consecutive meetings shall cease to be a member, but the Director, subject to the approval of the Government shall have power either to reinstate him or declare his seat permanently vacant.

6. The Director shall be ex officio President and the Secretary to the Commissioner for Government Examinations shall be ex officio Secretary. The Secretary's duties are indicated in rule 31.

7. The Committee shall have power to appoint sub-committees from among its members, consisting of not less than three members each, for the purpose of dealing with different subjects and languages and to consult specialists who are not members of the Committee. Any member appointed to fill a temporary vacancy on the Committee shall *ipso facto* become a member of the sub-committee to which the absent member belongs.

8. The members of each sub-committee and a chairman from among its members shall be appointed by the Director subject to the approval of the Text-Book Committee.

III—Procedure and functions of the Committee and its sub-committees

9. The Committee shall ordinarily meet twice a year, on the second Wednesday in March and the second Wednesday in October. The President shall have power to convene special meetings on occasion arises or on the requisition in writing of not less than four members. Sub-committees shall meet at such times as their respective chairmen may consider necessary.

10. Seven members of the committee shall form a quorum. The quorum for a sub-committee shall be not less than half those members of such committee as are resident in Madras.

11. The meetings of the committee and of sub-committees shall ordinarily be held at the office of the Director. Fifteen days' notice shall be given of every meeting of the committee.

12. At all meetings of the committee or sub-committees, the President or the Chairman, as the case may be, shall take the chair, but in case of his absence the members present shall appoint a chairman.

13. All questions that may arise at meetings of the committee or of sub-committees shall be decided by a majority of the votes of those present. In the event of the votes (including that of the President or the Chairman) being equal, the President or Chairman shall have a second or casting vote. Opinions of absent members may be submitted in writing but shall not count as votes.

14. A copy of the proceedings of every committee meeting shall be forwarded to the Director within two weeks of the date of the meeting.

15. The committee shall in the third year of the three-year period, during which the members hold office, forward to the Director a report on the work done during its tenure of three years with special reference to the text-books examined, defects noticed in them, and improvements that should be made in them. This report should be submitted to Government by the Director with his remarks. Extracts from the report as reviewed by Government may be published in the *Fort St. George Gazette* for the information of publishers and authors.

16. In the case of a book specially prepared for use in schools in the Presidency, the Director may, if he considers urgent action necessary, call for the opinion of the sub-committee concerned and, if such opinion be favourable, may notify the book as approved for use in schools without further reference to the full Text-Book Committee. Should the opinion of the sub-committee be unfavourable, the book shall be referred in the ordinary course to the Text-Book Committee.

17. The Committee will have no concern with the text-books of schools recognized under the Code of Regulations for European Schools, unless they are specially referred to it for opinion by Government or by the Director.

18. All books received by the Secretary shall be forwarded by him, with the approval of the Director, to not less than two members of the sub-committee concerned for expression of opinion and, on receipt of their opinions, shall be transmitted together with their opinions to the Chairman of the sub-committee.

The Chairman may either—

(a) endorse such opinions, if they coincide, or
(b) give a casting vote if they are at variance, or
(c) bring the book before the Text-Book Committee if he sees reason to differ from two opinions which coincide.

Note.—(1) In cases where, in the opinion of the Director, the books submitted to the Text-Book Committee are too many to be examined by the sub-committees concerned within the time allowed for the purpose, as for example, English texts, vernacular texts, etc., he may forward them to the Principal of any Government College for a preliminary examination and report by the college staff, so that books definitely unsuitable on any of the grounds mentioned in rule 23 may be rejected and the rest sent to the sub-committees for an expression of opinion.

(2) Books which (a) are immoral in tone; (b) by extreme views on social reforms are likely to create disharmony among the various communities, and (c) tend to create feelings of political disloyalty or disaffection or to bring into contempt the Government established by law, may be withheld from circulation by the Director.

19. No book referred to a member shall be retained by him for more than a month.

20. In cases where the Chairman decides to obtain the opinion of the remaining members of the sub-committee concerned on the book or books referred to in rule 18 (c), the Secretary shall arrange to call for copies of the book or books from the two members of the sub-committee to whom they were originally referred, and circulate them to the remaining members before the meeting of the Text-Book Committee.

21. No member of the Text-Book Committee, who has or has had any financial interest in a book under the consideration of the Committee, shall be invited to offer his opinion on such a book, or allowed to take part in the discussion of its merits, or vote on the question of its suitability for use in schools.

22. In the case of books rejected as unsuitable by the Text-Book Committee, some brief indication of the grounds on which the judgment has been formed shall be given.

23. The general grounds upon which books may be described as unsuitable may be tabulated as follows:—

(a) not adapted for Indian requirements,
(b) too advanced for school classes,
(c) method of treatment faulty,
(d) subject matter badly arranged,
(e) irrelevant to the prescribed school course,
(f) composition defective,
(g) language unsuitable,
(h) containing sentiments objectionable politically or morally,
(i) offensive to the religious susceptibilities of any community, or
(j) publishers' work defective in respect to—
  (i) the compositors' work,
  (ii) the quality of the type,
  (iii) the quality of the illustrations,
  (iv) the quality of the paper, and
  (v) the quality of the binding.

24. A list of books under consideration indicating which items, if any, have been passed by the various sub-committees shall be printed and circulated among the members of the Committee at least a fortnight before the date of the meeting at which they are to be approved.

25. Before the Committee meets, the Chairman of sub-committees shall convene a meeting of the members of the sub-committees and present to them the books which have been dealt with. At these meetings, which may be convened, if necessary, on the day previous to the meeting of the Text-Book Committee all business to be brought before the Committee shall be prepared.

These meetings of the sub-committees will give the Chairmen the opportunity of receiving further guidance from sub-committee members in cases where difference of opinion has arisen or may arise.

26. The Chairmen of Sub-Committees shall be responsible for presenting books (with the opinions thereon) to the Committee at its meetings and for giving previous intimation to the Secretary of the several opinions on the books under consideration.

The Chairmen of sub-committees shall present, through the Secretary, to the Director the reasons for unfavourable opinions whenever called for.

27. Authors and publishers shall not as a matter of right be informed of the grounds on which the books sent by them have not been included in the approved list.

28 As soon as possible after each of the half-yearly meetings of the Text-Book Committee held under rule 9, the Director shall publish in the *Fort St. George Gazette*, a list of text-books approved by the Committee and authorized by him for use in the several subjects and languages for class use or for libraries or for teachers.

29. Any book approved for use in recognized schools as text-books shall normally remain on the list for five years. Authors or publishers who desire that the book should continue on the approved list shall apply in the fifth year of such period for renewal of approval, forwarding a copy of the latest edition of the book in the manner prescribed for the submission of new books. Failing such application the book will be removed from the list without notification.

Notwithstanding what is said above, it will always be open to the Director to remove, on the advice of the Text-Book Committee or the inspecting officers, books that are found unsuitable for use in schools from the approved list even before the expiry of the period of five years.

30. Every year the Director shall publish in the *Fort St. George Gazette*, a consolidated list of approved books adding to it the books approved or re-approved in the previous year and deleting such books as have lost their approval either by lapse of time, or for any other reason This yearly list will cancel all the lists issued in the previous years and will be in force during a full school-year, i.e., from 1st June of the year of its publication to 31st May of the following year.

IV—Duties of the Secretary

31. The duties of the Secretary shall be—

(i) to send to and receive from members of the appropriate sub-committees books submitted for consideration and report, and to take further action thereon;

(ii) to prepare the agenda and fix the dates of meetings in consultation with the President;

(iii) to circulate notices and agenda papers of meetings;

(iv) to arrange for and attend meetings of the committee, and of sub committees whenever possible;

(v) to keep a record of the proceedings of meetings When the Secretary is unable to be present at a meeting of a sub-committee, a record of the proceedings shall be kept by the Chairman of the sub-committee concerned, who shall forward it to the Secretary;

(vi) to maintain a list of books received for consideration;

(vii) to keep an up-to-date list of all approved books;

(viii) to carry on all correspondence in connexion with the work of the committee;

(ix) to forward to the Director a copy of each of the approved books for the library referred to in rule 1 (*d*);

(x) to bring to the notice of the President any books approved by a sub committee, which for any reason appear to him to be open to objection;

(xi) to perform such other duties as may be required of him by the President; and

(xii) to correspond with the Secretaries of the Text-book Committees of other provinces, whenever necessary.

V—Rules relating to recognized schools

33 All text-books used in recognized schools shall be selected only from the approved lists of text-books issued during the year.

33. No school in which a text-book not authorized by the Director is in use shall enjoy the privilege of recognition or receive grants-in-aid from the Educational Department.

34. If the manager or the headmaster of a recognized school wishes to adopt a text-book which is not included in the authorized list the Director will give every facility for referring the question of such adoption to the Text-book Committee, in order that the book may be definitely placed on the prescribed list or definitely rejected within six months of its receipt. If in any case the Text-book Committee is unable to make a recommendation within that period, the Director may issue provisional orders on the subject.

35 Under the powers delegated to him by Government the Director retains on behalf of Government the right of prescribing text books in particular subjects for use in recognized schools or of prohibiting the use of any text-books which he considers objectionable.

VI—Rules for authors and publishers

36 Books for consideration by the Text-book Committee should reach the Secretary, Text-book Committee, at least three months before the date of a meeting which shall be held ordinarily on the second Wednesday in March and the second Wednesday in October every year.

37. Authors and publishers shall send their books with a covering letter in English containing information on the following points:—

(i) Title of book, the subject under which it is classified; and the class or standard for which it is intended;

(ii) name of author(s) or editor(s) as given on the title page;

(iii) names and addresses of the publisher and of the printing press;

(iv) price of the book;

(v) whether the book was submitted previously for the consideration of the Text-book Committee and if so, on what date and with what result?

(vi) if the book(s) sent belong to a series, whether previous parts or volumes of the series have already been considered by the Text-book Committee, and if so, with what result? If approved, the date and page of the *Fort St. George Gazette* notifying the approval should be furnished.

38 Books sent for consideration by the Text-book Committee shall be in print and shall have on the cover or on the title page the names of the author(s) and publisher, and the price, and on the fly-leaf the year of every issue of the book, revised edition or reprint. Books in manuscript or in typewriting shall not be considered.

39. Revised editions of books should be sent for the consideration of the Text-book Committee although the original editions have been previously approved. When revised editions are sent, the decision of the Text-book Committee on the previous editions and the nature of changes, such as, additions, alterations in matter and language, corrections, etc., made in the revised editions should be clearly stated in the covering letter. Revised editions should contain an indication of the year in which they are revised, e.g., 'Revised 1935.' No changes can be made in the title of an approved text-book or in the name of its author(s) or publisher(s) without the approval of the Text-book Committee. Unaltered reprints need not be sent for the consideration of the Text-book Committee, but the entry 'Reprinted 1935', should find a place on the fly-leaf.

40. Magazines, journals, annotations, dictionaries, maps, charts, copy books, drawing books and publications of a similar nature shall not be considered by the Text-book Committee.

41. Four copies of each publication shall be submitted for the consideration of the Text-book Committee. Books submitted will not be returned.

42. Requests from authors and publishers for the issue of errata to the list of approved books published in the *Fort St. George Gazette* should be made within two months after the date of publication of the list in the Gazette.

43 Apart from revised editions as provided in rule 39, books once considered and approved should not be submitted for reconsideration before the lapse of five years.

If a revised edition of a book is approved, the original edition of the book will automatically lose its approval even though five years from the date of its approval may not have elapsed.

Rejected books may be reconsidered after the lapse of one year from the date of its rejection provided that all the defects noticed in the rejected edition have been eliminated.

If any indication is printed in or affixed to a book to the effect that the book has been approved by the Text-book Committee, then the dates of the meeting at which approval or reapproval was given and of the notification in the *Fort St George Gazette* must be added.

44. Authors and publishers found placing on the market for sale or recommending for use in schools unapproved books purporting to be approved, or approved books in which unauthorized changes have been made, or otherwise offending against the provisions of rule 39 shall, thereby, render their publications liable to be excluded from the consideration of the Text-book Committee or to have their approved books expunged from the authorized list for such period as the Director considers fit, subject to the approval of Government.

45. The books of authors and publishers who attempt to canvass, or bring influence to bear on the members of the Committee, directly or indirectly, shall not be considered by the Text-book Committee.

VII—Rules regarding Government Officers

46. Government officers should not retain any interest in the sale of books written by them and will receive only a definite lump sum as remuneration from the publishing firm or any other party. Retention of the copyright may, at the discretion of the Director or the Government as the case may demand, be allowed in cases where the book in question is used (*a*) in countries other than India or (*b*) in India after the retirement of the officer who wrote it.

47. (*a*) No Government officer, who is a member of the Text-book Committee, shall write or edit any books for use in schools during his membership of the Committee.

(*b*) No books written or edited by a Government officer who is a member of the Text-book Committee shall be considered by the committee during his membership.

VIII—General

48. The matter in which there is a disagreement between the Director and the Text-book Committee shall be referred by the Director to the Local Government for their orders.

49. The Director shall, in his annual reports, describe the manner in which the above rules have been carried out in practice during the preceding year.

50. Government officers who are members of the Text-book Committee will be paid travelling allowance and daily allowance at the rates permissible to them in the Madras Travelling Allowance Rules. Non-official members will be paid travelling allowance at the following rates:—

By rail—single second-class fare.
By road—two annas per mile.
By canal—one anna and six pies per mile

They will not be eligible for any daily allowance. Travelling allowance bills should be forwarded to the Director of Public Instruction, Madras.

51. If any question arises as to the interpretation of these rules, the question shall be referred for the decision of the Local Government and their decision shall be final.

D. H. BOULTON,
Deputy Secretary to Government.

III. Regulations to be observed by the Candidates.

Both at Madras and in the Mofussal.

(i) Candidates in all the subjects must bring with them for use in the examinations their own rulers, erasers, knives, pens, pencils, carbon papers and ink of two or more colours (other than black) for map drawing and drawing lines, etc. Candidates are also informed that they must bring their drawing instruments with them for those subjects which require plans to be copied or scales and diagrams to be drawn. The drawing paper required will be supplied to them at the examination.

(b) Candidates in *Surveying* and *Levelling (Higher Grade)* will be allowed to bring with them their own instruments (both the grades) will be allowed to bring with them their mathematical tables for use in the examination.

Candidates in the practical examination in which repairs to the use of tools, etc., must bring their own tools, etc., with them.

Candidates in *Shorthand* will be allowed to transcribe their shorthand notes with a Typewriter. They will not be supplied with any 'thick' paper for the purpose, but will be allowed to bring with them their own 'thick' paper, if they wish to use such paper. The use of carbon paper and of no account be allowed in transcribing the shorthand notes with a Typewriter. If the machine should be a card slate, however, goes out of order, no extra time will be given to him to compensate for loss of time while the machine is out of order and is being put right.

At the end of the period allotted candidates must give up both their shorthand and longhand performances to the Chief Superintendent for submission to the Examiner.

(c) INSTRUCTIONS REGARDING THE EXAMINATION IN TYPEWRITING

Both at Madras and in the Mufassal.

1. Candidates in Typewriting will have to bring their own Typewriters, rulers, erasers, and also the necessary carbon paper with them and must specify clearly on their answer papers, the particular kind of machine used by them as otherwise their answer papers will not be valued.

2. The following is the list of the names of Typewriters recognised for use in the examinations:—

The Remington, Remington Portable, New Model Remington No. 12; Yost; New Century; Smith Premier; Empire; Underwood; Underwood Portable; Oliver, Armstrong, Standard Folding; Steam's Visible, Sun Typewriter, Box Visible; Salter; Victor Typewriter—Model No 3 and No 10; Monarch Visible, Wood-Stock Standard Visible; Royal Standard No 10; Rex Visible; Mollé; Mercedes; Densmore; Elite; Imperial Typewriter; British Empire Typewriter, Corona Portable No 4; All British Barlock Typewriter, Royal Portable; Mers, Kappel; Imperial Typewriter Model No 50; Orga Private, Corona Model '8'; Continental—Office Model; or L. C. Smith & Bros machine.

NOTE.—Only one particular kind of machine should be used by the candidate throughout the examination.

Typewriting—Higher Grade—Oral and Practical Examinations.

With reference to the Proceedings of the Commissioner for Government Examinations, Madras, Memorandum C. No. 491 D/34, dated 18th July 1934, published on page 372 of Part I-B of the *Fort St. George Gazette*, dated the 24th July 1934 and with reference to the syllabus in Typewriting—Higher Grade (Oral and Practical portions only), the following list of duplicating machines that have been approved for use in connexion with the Government Technical Examinations is published for the general information of the heads of commercial institutions in the Presidency and in the Indian States and of the candidates offering themselves for the examination:—

1 Multor, hand feed.
2 R.R.R. No 14, hand feed (Old R.R.R. No. 11).
3 Roneo No. 2, hand feed.
4 Roneo No 100, self-feeding.
5 Ellams D-1, hand feed.
6 Ellams K., self feeding.
7 Rota Rotary No. 8, self-feeding.
8 Gestetner No. 3, hand feed.
9 " No. 4, self feeding.
10 " No. 66, automatic.

The knowledge of the duplicating machines mentioned above with regard to the cutting of stencil and the taking of copies on them will be demanded of candidates with effect from the examination of January 1935. They are, therefore, warned to pay adequate attention to this part of the syllabus. Candidates are expected to bring with them when they attend the Oral and Practical examinations, any one of the above duplicating machines in addition to the particular kind of typewriter which they used while answering the written test.

3. *Seats and accommodation for the candidates*—(a) Candidates will be permitted to bring with them for their use at the examination hall their own tables, chairs or stools, if they choose, provided they take care to see that by so doing, they do not give room to the slightest disturbance being caused in the examination hall.

(b) The candidates will be allowed to take their seats in the examination hall five minutes before the appointed hour for giving out the question paper and supplied with the necessary paper for answering and get their machines ready for work with paper inserted in them and to have their register numbers at the left hand corner of their answer papers and the particular kind of Typewriter they use of the right hand corner, typed before the question paper is given to them.

4. Candidates are strictly told not to write anything on the question paper itself. Calculations or any other points they wish to note must be written on one of the blank sheets supplied to them and such sheets including the carbon papers should be left on the table. Further candidates are strictly warned not to take carbon copies more than what is required of them in the question paper.

5. The candidates will, if necessary, be examined in batches but at least every four candidates for the Lower grade, at least every two candidates for the Higher grade, must have one machine among them.

6. Managers and Instructors of institutions concerned are expected to see that their pupils are supplied with Typewriting machines in proper working order.

7. Managers and Instructors will be allowed into the examination hall in the intervals between the various batches to inspect the machines and to remedy any defects. They should take care to see that they do not remain in the examination hall while the question paper is being distributed to the candidates in the examination hall or while their pupils are answering the question papers.

8 (1). If, however, a candidate reports to the Superintendent that his machine has gone out of order, the Superintendent will intimate him to the Manager or Instructor, if he is waiting outside on the premises, and will permit such Manager or Instructor to enter the hall (though the candidates may be at work) to inspect the machine and to remedy the defect or to supply another machine. It must, however, be clearly understood that the Superintendent incurs no responsibility in the matter; his action will be purely *ex gratia*, the whole responsibility resting on the candidate and the Manager or Instructor.

A similar concession will be allowed in the case of a private candidate, if he has someone outside who is willing to inspect the machine and put it right, etc.

No extra time will be given to candidates to compensate for loss of time while the machine is out of order and is being put right.

In the Mufassal.

Heads of Institutions who are desirous that their pupils should be examined in batches and private candidates who desire to be similarly examined should make the necessary arrangements with the Chief Superintendent concerned four days before the examination and furnish him with all the necessary information as to the number of candidates and machines and the time at which each batch will attend on the day fixed for the examination.

At Madras.

Lower Grade—Candidate's Hall Ticket.—Tickets of admission specifying the particular batch (first or second and so forth in which the candidates (have to appear) will be issued on Friday, the 20th April, between 11 a.m. and 5 p.m. at the Office of the Commissioner for Government Examinations, Old College, Nungambakkam. These tickets should be shown at the entrance to the examination hall. Candidates who produce tickets will be admitted to the batch specified in the tickets. Candidates who do not provide themselves with tickets cannot claim to be admitted to any particular batch. They will be admitted only, if spare seats are available in the hall, i.e., after seats are reserved for those who have registered their names and obtained tickets for the batch. Candidates who do not hold tickets will accordingly have to wait at the entrance to the examination hall from the hour of commencement of the first batch and take their chance of being provided with seats in the first or in any subsequent batch. To avoid all inconvenience and possible disappointment, heads of institutions who are desirous that their pupils should be examined in batches and private candidates who desire to be similarly examined are particularly requested to call at the office on Friday, the 20th April, with all the necessary information as to the number and name of candidates that will attend at the particular batch on the day fixed for the examination and obtain tickets of admission accordingly. *No tickets can on any account be sent by post whether to heads of institutions or to private candidates.*

Candidates that have such a separate machine and that do not want to be examined in batches are expected to appear for their examination with the third batch for

the Lower grade. But this does not preclude them from registering their names for that batch and obtaining tickets accordingly.

Candidates for the *Higher grade* may appear for the first or second batch at their option and no *tickets accordingly are issued for the grade*

Instructor's Hall Ticket.—Managers or Instructors of institutions and other persons who wish to be allowed into the examination hall in the intervals between the examinations of the various batches to inspect the machines and remedy any defects, are requested to call at the office on Friday, the 26th April, and have their names registered. Tickets of admission specifying their names, the institutions to which they belong, etc., will be issued to these and these should be produced at the entrance to the examination hall.

Hall at Madras and in the Mufassal.

(iii) Attention is particularly drawn to the following rules:—

1. No candidate will be allowed to enter the examination hall unless he wears a clean and decent dress and in all cases where good manners require it, a suitable covering for the head, nor will he be allowed to keep his shoes on unless they are shoes of English pattern, and socks and trousers are worn also.

No candidate suffering from any contagious disease will be admitted to the examination hall.

2. Candidates are expected to take their seats in the examination hall at least five minutes before the time fixed for giving out the question papers. No candidate will be allowed to quit the examination hall on any day until the expiration of half an hour from the time fixed for the commencement of the examination and candidates arriving after the expiration of that half-hour will not be admitted.

3. No candidate will be allowed to re-enter the examination hall during the hours of examination after once quitting it, nor to leave the hall without finally giving up his answer papers.

4. Silence should be maintained in the examination hall.

5. *No candidate will*, on any account, *be allowed to take into the examination hall slates, books, or portion of a book, ruled sheets, manuscripts or papers of any kind.* Any candidate detected in the violation of this rule as detected in speaking to, or in any way communicating with or copying from each other and in communicating with any other person outside the examination hall or having recourse to any unfair practices will be sent out of the hall forthwith, and his conduct reported to the Commissioner for disciplinary action. The use of mathematical instruments for drawing figures or ruling lines will, however, be allowed.

6. Candidates are forbidden to note down the answer to any question on the question paper itself; they will not be allowed to take any papers, except their question papers, out of the examination hall.

7. Candidates are forbidden to tear up paper, or to throw ink or papers on the floor. All 'spoilt' copies, etc., should be left on the desk where the candidate has been writing.

8. Candidates may have to write their answers on both sides of the paper supplied to them and they will receive the necessary instruction on this point in the examination hall from the Chief Superintendent of the examinations.

9. No candidate will be allowed to exceed the time assigned to each paper.

10. As soon as candidates have finished writing their answers and wish to give up their answer papers, or at the end of the period prescribed for each particular part of the examination, each should rise from his seat and remain standing until one of the Superintendents has gone up to him and has received his answer paper from him. Any candidate wishing to ask any question of the Superintendent will pursue the same course but will on no account leave his seat.

11. Candidates whose names are not in the printed list furnished to the Chief Superintendent must submit a written declaration through the Chief Superintendent giving full particulars in regard to themselves *including their address*, and furnish such evidence as may be possible of their having applied for admission to the examinations at the proper time and paid the prescribed fees. The answer papers of such candidates will not be valued unless it is clear that the omission of their names is due to no fault of theirs.

12. Candidates are requested to note carefully the particulars printed in the nominal list and satisfy themselves whether they tally with those as given by them in their applications for admission to the examinations, so that any alteration with regard to their initials, name or class of community or any other correction that may appear necessary might be pointed out by them in writing to the Chief Superintendent.

13. Candidates choosing to change their place of examination without previous permission, or appearing at any centre other than the one at which they ought to have appeared according to the notice published in the Gazette, must not expect to have their papers valued or their results published. In all cases where permission has been granted, the memorandum or letter permitting the change should be produced for the satisfaction of the Superintendents.

14. The answer papers should be stitched or pinned together at the upper left hand corner, and the whole folded into four, lengthwise (not crosswise into four). The register number, the place of examination and also (in the case of the examination in Shorthand, the particular system adopted) and (in the case of the examinations in Typewriting, the name and Model number of the Typewriter used) should be written out clearly by the candidates on the top right-hand side of the first page of the answer paper, as well as on the top of the paper after it is folded.

(N.B.—(1) Candidates are strictly forbidden to write on type their names on the answer papers.

(2) Candidates should distinctly understand that failure to furnish even any one of these particulars may involve the rejection of valuing their answer papers—positively any answer paper sent up without the candidate's register number and name of centre will not be valued.)

15. *Any candidate who does not behave properly towards the Chief and Assistant Superintendents of the examinations or is suspected of having had recourse to malpractice of any kind in connection with the examination or whose answer papers contain objectionable matter, is liable to have his examination invalidated and also to be debarred from appearing again for any of the examinations under the control of the Commissioner for such term of years as the Commissioner may think fit; or, if the Commissioner is not satisfied for any reason whatsoever as to the trustworthiness of his results, he may be required to undergo a re-examination at some future date to be fixed by the Commissioner in any one or more of the subjects of the examination for which he appeared, his success or failure being determined on the results of such re-examination.*

16. Candidates are forbidden to communicate with the Examiners; should they do so, their answer papers will not be valued and further their conduct will be reported to the Commissioner for any action that he may deem fit.

17. No information can be furnished on regard to the results of a candidate in any subject or in regard to the marks obtained by him or in regard to the particular section or subdivision in which he may have failed. The names of successful candidates in each subject arranged in two classes, First and Second, will be published in the *Fort St. George Gazette*. The pass-list for each grade of a subject so published in the Gazette is complete and final. Applications from or on behalf of unsuccessful candidates asking for information as to the cause of failure or for a revaluation of the answer papers will not be attended to. No revaluation of answer papers is permissible.

French—5-30 to 7 p.m. on Tuesdays and Thursdays; and 5 to 7 p.m. on Saturdays.

The course will extend over a period of one academic year from July to March and is open to persons who have passed the examinations for Certificates of Proficiency in Oriental Learning or Matriculation Examination of this University or an Examination recognised as equivalent thereto. Regulations and syllabuses regarding the course will be found in pages 241 of Volume I, Part II of the University Calendar for 1934-35, available for sale at Messrs. G. Coomaraswami Naydu & Sons, Georgetown, Madras. A candidate can take up both the languages in the same year.

The fee for the course in each language is Rs. 45 payable on admission to the course. The following classes of candidates will be admitted at a concession rate of Rs. 30 in each language, preference being given to honours students, provided the number of students so admitted each year does not exceed 50 per cent of the total number of students admitted in each language:—

Students reading for Honours Degree Examinations in Arts and Science.

Students reading for other Degree Examinations (including Professional Degrees).

Students reading for the Diploma Examinations in Economics and Geography.

Students in the Bachelor of Engineering Class who have still to undergo the Practical Course.

Applications for admission to the course should reach the Registrar, University of Madras, on or before the 15th June 1935. Forms of application can be obtained at the office.

Diploma Course in Geography.

The Diploma course in Geography for the academic year 1935-36 will commence on July 1935.

The course will extend over a period of three terms from July to March. The classes will be held from 4-30 p.m. to 7-30 p.m. If necessary, classes will also be held in the morning. The classes will be held at the Wesley College, Koyampetta, Madras. Regulations and syllabuses regarding the course will be found in page 236 of Volume I, Part II of the University Calendar for the year 1934-35, available for sale at Messrs. G. Coomaraswamy Naydu & Sons, Georgetown, Madras, and the notifications in the *Fort St. George Gazette* dated the 23rd October 1934, 6th November 1934 and 19th March 1935.

The course is open to—

(1) Graduates in Arts or Science;

(2) those who have passed the Intermediate Examination in Arts and Science with Geography as one of their optional subjects;

(3) teachers of Geography who can produce evidence of sufficient knowledge of the subject to profit by the course.

The number of candidates who will be admitted will not exceed 32.

The fee for the course is Rs. 75 and is payable in advance on receipt of intimation of admission from the Registrar.

Applications for admission in the prescribed form, available at the Registrar's office, will be received in this office up to the 15th June 1935. Teachers in colleges and schools should send their applications through their Principals or Headmasters.

Diploma Course in Economics.

Applications for admission to the above course of study will be received by the Professor of Indian Economics, University of Madras, Triplicane, Madras, up to the 15th June 1935.

The course of study will be open to students who have qualified for a degree in this University or other recognised Universities.

The course (part-time) will extend over a period of two years. The fee for the course is Rs. 75 which shall be paid in two annual instalments of Rs. 37-8-0.

The course of study shall be:—

(1) Economic Theory;

(2) Statistical Methods;

(3) Recent Economic History and Economic Geography;

(4) Rural Economics;

(5) Social Economics (including Elements of Social Institutions);

(6) A special subject,—

either (1) Co-operation

or (2) Labour problems.

Each candidate shall also submit before 1st March preceding the date of the examination a short thesis based on original enquiry on some problem of limited scope connected with either (4) or (5).

The examination will be held in April and no student shall be admitted to the examination unless he has attended not less than three fourths of the lectures and classes provided, and also produces the prescribed certificates.

Classes will be held at the Senate House, Chepauk, Madras, from 5-30 to 6-30 p.m.

A limited number of non-graduates, not exceeding six, will be admitted to the course on payment of the prescribed fee of Rs. 75 (payable in two annual instalments of Rs. 37-8-0). They will not be entitled to appear for the examination for the diploma, but will be granted a certificate by the Professor of Indian Economics to the effect that they have attended the lectures for the course.

Forms of application for admission to the course can be had from the Professor of Indian Economics, University of Madras, Senate House, Triplicane P.O., Madras, and selected candidates will be informed early in July 1935.

Diploma Course in Indian Music.

Classes for the Diploma Course in Indian Music will be opened from July next. The course will extend over a period of three terms (July to March) and will be held at "Lumbini Gardens," Peter's Road, Royapetta, Madras. Instruction will be imparted in the theory of Indian music, vocal, violin, and vecna music. Regulations, syllabuses etc., regarding the course will be found on page 306 of the University Calendar, Volume I, Part II for 1934-35. Admission is open only to persons who have been declared eligible for admission to a University course of study and possess a fair knowledge of music.

Applicants will be required to come to Madras, at their own cost, for a selection test.

The fee for the course is Rs. 30 and is payable in advance after receipt of intimation of selection for admission to the course. Classes will be held in the evening daily, except holidays and Sundays, for two hours, 5 p.m. to 7 p.m. If necessary, classes will also be held in the morning. Classes may be held separately for men and women, if there are sufficient number of students for each class.

Applications for admission giving particulars as to age, general and special qualifications, etc., with testimonials if any, in support of the applicant's proficiency in music, should be forwarded so as to reach the Registrar on or before the 15th June 1935.

Forms of application can be obtained at the office.

MADRAS UNIVERSITY STUDENTS' INFORMATION BUREAU

President: The Vice-Chancellor of the University of Madras (ex-officio).

Vice-President: The Director of Public Instruction, Madras (ex-officio).

Secretary: Dr. A. V. Moses, M.A., M.O., Professor, Madras Christian College, Madras.

The main functions of the Bureau are—

(1) To furnish information and advice to Indians proceeding to England and other foreign countries for further studies.

(2) To circulate in India to colleges and other institutions the educational, financial and social information, collected by the Bureau in London.

(3) To communicate with the Central Bureau on behalf of students before they start, or on behalf of their parents when they are in England.

(4) To help prospective candidates for the Indian Civil Service to assess their ability and enable them to compute their chance of success at the examination, and to advise them in general.

Students of the Madras Presidency and of Native States whose colleges are affiliated to the Madras University, who contemplate going to England and other countries and the relatives and friends of those who are going or are already gone, are invited to correspond with Dr. A. V. Moses, Secretary to the Madras University Students' Information Bureau, Madras Christian College, Esplanade, Madras from whom all necessary information can be obtained.

Letters from Madras Students to the Educational Adviser in London, or to other Educational authorities in Great Britain are forwarded to the Madras Secretary for disposal and much delay will therefore be saved by direct correspondence with the latter.

There is a library attached to the Secretary's office, Madras Christian College, Esplanade, Madras, consisting of the prospectuses, syllabuses and calendars of various educational institutions and Universities in Great Britain, America and other countries and students and other enquirers will be allowed the use of the library on all week days except Saturdays and holidays between 11 a.m. and 4 p.m.

A. V. MOSES,
Secretary.

GOVERNMENT TRAINING SCHOOL, KURNOOL.

Applications are invited for admission into the Secondary Training Class, Government Training School, Kurnool, in July 1935.

2. The period of training will be two years in the case of secondary school leaving certificate holders and one year in the case of those who have passed the Intermediate Examination or have completed the Intermediate course. No stipends will be paid.

3. S S L C holders should attach to their applications extracts of marks obtained by them in each subject at the Public Examination. If the marks in one or more subjects are below 35 per cent it should be stated whether the applicants have secured eligibility and if so, the date and page of the gazette in which the eligibility is notified should be quoted. Original certificates need be produced by the selected candidates only on the date of admission.

4. Candidates who have put in one year's teaching experience will state the fact in their applications for training; they should possess the minimum number of marks prescribed by the Director of Public Instruction, Madras, in his Proceedings Dis. No. 3756/33, dated 25th September 1933. The candidates will also attach an original certificate of service put in as teachers of recognized schools countersigned by an officer of the department not lower in rank than a Deputy Inspector of Schools. Every application for admission should be supported by the manager of a recognized school who should state clearly that he will provide the candidate with a post immediately after training.

5. Candidates applying for admission from other districts should submit their applications through the District Educational Officer of the district concerned.

6. Applications should be made in the prescribed form and should be submitted so as to reach this office before 1st May 1935.

20338 J Windrum. *An improved apparatus for separating woody material, dirt and the like from the stalks of bast plants such as flax, hemp and jute.* (July 15, 1933.) *A rotating transverse axial or vibratory movement imparted to the rollers for rubbing and ruling action of the fibres.*

20378 Dortmund-Hörder Hüttenverein Aktiengesellschaft. *Improvements in iron structures. Member of section shaped so that neutral axis of such section is out of coincidence with gravitational axis of structure.*

20740 C. W. Hartmann. *Improvements in and connected with cartons or containers.* (April 13, 1933.) *Substantially rectangular in form and sealed at its lower end and the base ribbed at the perimeter.*

20839 (Mrs.) S. S. Bhat. *A lime juice press. Comprising a circular wooden disc to which is fixed a set of a concentrically arranged steel blades with slanting edges and means for cleaning the interspace of the blades.*

20867 Associated Electrical Industries Ltd. *Improvements in or relating to governor mechanism for controlling rate of change of velocity.* (July 18, 1933.) *Members responsive to change of velocity and to direction of movement actuate control means which renders governor operative or inoperative.*

20889 Wanderer-Werke Vorm. Winklhofer und Jaenicke Akt.-Ges. *A paper carriage escapement device for typewriters. Adjustable stop to give different spacing distances of paper-carriage and transmission members connected with key levers for stop adjustment.*

21018 Associated Electrical Industries, Ld. *Improvements in electrical switchgear.* (July 28, 1933.) [Addition to No. 19644.] *Stationary contact of circuit-breaker is supported on upper ends of bushings extending through the tank.*

21027 L. M. Chakradeo. *Improvements in and relating to electricity supply meters and relays. Magnet is so arranged that the longer axis of its pole face is at right angles to the radius.*

21059 L. R. H. Irvine. *An improved machine for the hot treatment of earth roads and surfaces.* (22nd August 1933.) *Frame carrying a furnace having two combustion chambers, the lower chamber heats the surface.*

21161 C. J. Gordon. *Improvements in electric batteries.* (October 11, 1933.) *Unit built up of shallow cup like cells.*

21175 N. V. Philips' Gloeilampenfabrieken. *Improvements in or relating to electric gas-filled discharge tubes. Containing Krypton or Xenon, and having a special volume with reference to its wattage.*

21202 The Bibby Metallic Packing Co., Ld., J. Batey and W. C. McGregor. *Improvements in and relating to gudeon and piston valves. Providing a combined tongue piece and split ring for maintaining fluid tight joint.*

21207 Zircon Rutile, Ld. *Process of recovering zircon, rutile and ilmenite from zirconium sands and ores.* (October 16, 1933.) *By conditioning the material with a saponaceous solution.*

21213 Svenska Aktiebolaget Gasaccumulator. *Improvements in or relating to liquid fuel vaporising devices.* (January 18, 1934.) [Addition to No. 20220.] *Use of tilting cock for alternating the feed of fuel to the vaporisers.*

21218 Henry and Son. *Improvements relating to cylinder castings for steam locomotives. Integral casting with seatings for a cam chamber for mounting cams for operating valve.*

21223 Associated Electrical Industries, Ld. *Improvements relating to braking equipments for moving apparatus such as hoisting, winding, hauling and like gear.* (October 25, 1933.) *Pump driven at a speed proportional to the moving apparatus delivers fluid the discharge of which produces braking effect.*

21230 The General Electric Co., Ld. *Improvements in luminous electric discharge tubes.* (September 5, 1934.) *Transparent sheath surrounds the electrode chambers.*

21239 Standard Telephones and Cables, Ld. *Improvements in or relating to automatic or semi-automatic telephone systems.* (March 16, 1934.) *Digital relays indicate the types of outgoing calls from satellite exchanges.*

Calcutta, the 2nd February 1936.

20551 The General Electric Co., Ld. and Dr. Ing. E. Marx. *Improvements in or relating to arrangements for converting voltages by means of discharge gaps. Arcing initiated periodically by auxiliary means and ions supplied to arc gap before auxiliary means becomes effective.*

20555 B. D. Virmani. *Improvements in and relating to weighing machines. Weighing receptacle and substances thereon independently.*

20556 F. Karim. *Improvements in and connected with electro-magnetic switches for train lighting and similar installations. Means for energising all the circuits if one is energised.*

20558 L. Holland. *Improvements in or relating to the suspension arrangements and construction of mechanically operated pendulums. Pivot joint having a pivot edge and a substantially flat or concave bearing surface.*

20559 E. W. Baker and Saxby and Farmer (India), Limited. *Improvements in or relating to railway signal lamps and the like. Burner attached to a fixed part of lamp casing.*

20620 F. C. Kraty. *Improved manner of or means for cutting tea in the process of manufacture. Tea passed through reciprocating perforated plate and cut by contact with knives.*

21106 The General Electric Co., Ld. *Improvements in or relating to television systems.* (August 21, 1933.) *Applying to the anodes a potential proportional to the signal voltage, but negative in sign.*

21229 Dognin Societe Anonyme. *Improvements in or relating to tulles and laces comprising multiple elastic threads. At least one of the series of warp or weft threads made of elastic elements.*

21244 D. Barné and F. Barné. *Improvements in reflecting lenses. A plano-convex lens having on its flat side a circumferential row of prisms.*

Calcutta, the 9th February 1936.

20470 J. H. Wrigley and A. Melville. *An improved method of and apparatus for altering the length of woven and the like fabrics or yarns. Rollers having confronting faces, one harder than the other, pressed heavily and rotated in opposite directions at different peripheral velocities.*

20570 K. C. Dé and C. S. Duraiswamy. *Improvements for the manufacture of metal mesh stencils for fabric printing and duplicating work. Use of metal mesh stencil.*

20589 Dollroed Gears (Holdings) Company, Limited. *Improvements in frictional epicyclic gearing* (February 21, 1933). *Sun member, planets and annulus, sun and planets being locked against relative axial movement and are bodily movable in axial direction relatively to the annulus.*

20388 The Francois Cementation Company, Limited. *Process for waterproofing or piling caverns in the ground or in structures. Emulsions of bitumen, as asphalt or like and binding material such as cement, lime, plaster or like are simultaneously injected in cavity.*

20390 The Francois Cementation Company, Limited. *Improved method of consolidating and waterproofing strata or masonry. Fine aqueous dispersion of clay and a swelling agent are forced into the stratum.*

20628 E. Freyssinet. *Process and apparatus for the manufacture of reinforced concrete hollow bodies. Concrete in annular mould having deformable wall is subjected to radial compression for lessening reinforcements contained therein.*

20672 Ellerman's Arracan Rice and Trading Co., Ld. *Improvements in or relating to the extraction of oils* (March 9, 1933.) *Material treated with an oil disengaging medium and then with an aqueous medium in which the oil floats.*

20707 Naamlooze Vennootschap De Bataafsche Petroleum Maatschappij. *Process for lubricating particularly under very high pressures and at high speeds and for manufacturing lubricants especially suitable for use at very high pressures and speeds. Lubricants containing phosphoric or arsenic compounds having organic radicle with long chain for instance in the form of an ester.*

20732 Durand & Huguenin A. G. *An improvement in printing or padding with mordant dyestuffs. Lactic acid or lactates added to the printing paste.*

20773 F. Strafvon Orelli and M. Stalder. *Improvements in or relating to combined refrigerating and heating devices. Heat delivering elements such as generator, condenser or absorber arranged within a storage vessel arranged with the medium to be heated.*

20778 W. J. Hund and L. Rosenstein. *Process for the recovery of free alkylolamines from their soaps with fatty acids or from materials containing such compounds. Steam distillation in the presence of an alkalinous compound.*

20863 Naamlooze Vennootschap De Bataafsche Petroleum Maatschappij. *Process of preparing alkenes containing at least five carbon atoms in the molecule in a pure or substantially pure condition. Cracking aliphatic hydrocarbons and fractionating the cracked product.*

20887 Hume Pipe Co. (Australia) Ltd. *Improvements relating to the moulding of concrete pipes and the like. Semi-dry or non-flowing material is distributed into the mould by a scratching device.*

20928 J. C. Samson. *An anchoring post. Body section, tip section anchoring arms secured there between and shiftable ring to spread said arms.*

21176 W. F. DePenning. *Process for altering the energy contents of dipole substances. Exposing to a concentrated electromagnetic field oscillating with quasioptical frequency.*

21193 A. E. Tilburn. *Improvements in or relating to bridles.* (October 7, 1933.) *Independent control members applied at corners of animal's mouth.*

21203 E. Cohn. *Improvements in or relating to wireless receiving or transmission apparatus. Tuning member controlled by an impulse sender in the form of a dial.*

21257 Society of Chemical Industry in Basle. *Manufacture of polynuclear cyclic Ketones. Treating alcohols and fatty acids with oxidising agents, separating neutral portions and dissolving the cyclic ketones formed.*

21265 Maschinenfabrik Sarth, Zweigniederlassung Der Gesellschaft Fur Linden Eismaschinen A.-G. *Process for making carbon dioxide ice.* [Addition to No. 19897.] *Liquid carbondioxide undercooled before ice making in absence of its vapour.*

21266 Beck Trust Ltd. *A process for the manufacture of a synthetic balsam by condensation of phenols with aldehydes. Condensing phenol with aldehyde in the presence of unsaturated aromatic acid or benzoic acid and incorporating a polyhydric alcohol or hydrogenated phenol.*

21297 J. P. Roe. *Improvements in or relating to air compressors. Sparking plug and exhaust valve of some of the cylinders of internal combustion engine substituted by spring loaded air valves.*

ALTERATION OF DATE.

20928 The claim to priority date 23rd June 1933, has been abandoned and the application dated as of 9th June 1934, the date of filing in India.

Legislative Assembly Bill :

No. 21 of 1935.—Indian Tariff (Amendment) 97

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

LEGISLATIVE ASSEMBLY DEPARTMENT.

The following Bill * was introduced in the Legislative Assembly on the 13th March 1935 :—

LA BILL No. 21 OF 1935.

A Bill to amend the Indian Tariff Act, 1934, for certain purposes.

XXXI of 1934.

WHEREAS it is expedient to amend the Indian Tariff Act, 1934, for the purposes hereinafter appearing ; It is hereby enacted as follows :—

Short title and commencement.

1 (*1*) This Act may be called the Indian Tariff (Amendment) Act, 1935.

(*2*) It shall come into force on such date as the Governor General in Council may, by notification in the *Gazette of India*, appoint.

* The Governor General has been pleased to accord the sanction required by section 67 (3) of the Government of India Act.

Amendment of the Indian Tariff Schedule, Act XXXII of 1934.

2. In the First Schedule to the Indian Tariff Act, 1934,— XXXII of 1934.

(1) for the entry "Rs. 2 per cwt." in column 4 against Item 10 (1) the entry "Re. 1-8 per cwt." shall be substituted, and for the entry "March 31st, 1935" in column 7 against the same item the entry "March 31st, 1936" shall be substituted;

(2) after Item 10 (1) the following new item shall be inserted, namely:—

"10 (2)	Broken rice.	Protective.	Twelve annas per Indian maund of 82·2/7 lbs. avoirdupois weight.	—	—	March 31st, 1936 ";

and

(3) for the entry "Rs. 2-8 per cwt." in column 4 against Item 11 (1) the entry "Re. 1-8 per cwt." shall be substituted, and for the entry "March 31st, 1935" in column 7 against the same item the entry "March 31st, 1936" shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

Since the passing of the Wheat Import Duty (Extending) Act, 1934, the Government of India have continued to watch the situation in India and in other world markets. Indian wheat is still out of parity with world prices and there are still in existence considerable stocks which constitute a possible menace to the Indian wheat grower. At the same time the situation has exhibited marked signs of improvement and the Government of India are of opinion that it is now possible to reduce the import duty from Rs. 2 to Re. 1-8 per cwt. It is also proposed to restore the former equality in the levels of the duties on wheat and wheat flour.

2. For some time past the imports of foreign rice into India, especially into the Madras Presidency, have been the cause of some alarm to the Indian rice producer. In the last year particularly these imports have reached very considerable proportions and detailed investigations have shown that broken rice, which constitutes the major portion of these imports from abroad, is a very serious competitor with certain of the better grades of rice produced in Madras. The Government of India are, therefore, of opinion that in the interests of the Indian rice grower an import duty at the rate of twelve annas per maund should be imposed on imports of broken rice of foreign origin.

3. It will be remembered that the Wheat Import Duty Act was repealed when the consolidating Indian Tariff Act was passed last September and that the duties, which it is proposed to continue, are now an integral part of the Schedule to that Act. The legislation necessary to continue the operation of the wheat and wheat flour duties therefore takes the form of an amendment to the Indian Tariff Act and not as on former occasions of a special Bill extending the life of the Wheat Import Duty Act.

DISTRICT REPORTS.

GANJAM.

Water-supply sufficient. 37·45 feet of water in the Russellkonda reservoir (F.T.L. 45·40); 25·3 feet in the Surada reservoir (F.T.L. 26). Sowings so far of dry crops restricted; sowings of wet crops satisfactory. Standing crops fair. Pasture available. Fodder sufficient. Condition of cattle generally good.

VIZAGAPATAM.

Water-supply sufficient except in the Vizagapatam town where it is inadequate for drinking as the supply is reported to be restricted to limited hours in the day. Planting of sugarcane proceeding in parts. Sowings so far restricted. Standing crops thriving. Harvest of sugarcane proceeding in parts; outturn fair to normal. Pasture available. Fodder sufficient. Condition of cattle generally good.

EAST GODAVARI.

Water-supply sufficient. The Godavari 0·6 foot below crest. Sowings so far satisfactory. Standing crops fair. Harvest of chillies, sugarcane and cotton proceeding in parts; outturn of sugarcane fair to normal; chillies, fair; cotton, poor to fair. Pasture available. Fodder sufficient. Condition of cattle generally good.

WEST GODAVARI.

Water-supply sufficient for drinking except in the upland taluk of Chintalapudi, supply sufficient for agricultural purposes. Sowings so far of dry crops satisfactory though less than last year; sowings of wet crops restricted. Standing crops fair. Pasture available except in the Chintalapudi taluk. Fodder sufficient. Condition of cattle generally good.

KISTNA.

Water-supply sufficient for drinking except in the Jaggayyapeta sub taluk. The Kistna 1·4 feet below crest. Sowings so far of dry crops satisfactory though less than last year; sowings of wet crops restricted. Standing crops fair; the paddy stored in granaries, godowns, etc., is reported to be infested in some villages with a pest and intimation is being sent to the Agricultural department. Harvest of cholam, pulses, chillies and cotton proceeding in parts; outturn generally fair to normal. Pasture scanty in the Gannavaram taluk, not available in the Nandigama taluk but available in all the other taluks. Fodder sufficient. Condition of cattle generally good.

GUNTUR.

Water-supply sufficient for drinking. Sowings so far satisfactory. Standing crops fair but paddy stored in granaries in the Bapatla taluk damaged by borer insect pest. Harvest of ragi, redgram, sugarcane, chillies, castor, cotton and tobacco proceeding in parts; outturn of ragi and redgram, poor; rest, fair. Pasture available except in the taluks of Bapatla, Narasaraopet, Palnad and Venkatagiri. Fodder sufficient. Condition of cattle generally good.

KURNOOL.

Water-supply sufficient for drinking; supply sufficient for irrigation only in parts of the sub-taluks of Atmakur and Jaggayyapeta. Sowings so far restricted. Standing crops generally fair. Harvest of sugarcane and cotton proceeding in parts; outturn poor. Pasture available only in parts of the taluks of Markapur and Cumbum. Fodder sufficient except in parts of the Owk sub taluk and in the Maddikera villages of the Pattikonda taluk. Condition of cattle generally good. Employment available. Prospects fair except in the Maddikera villages in the Pattikonda taluk and in parts of the Owk sub-taluk.

BELLARY.

Water-supply sufficient for drinking except in parts of the taluks of Alur, Bellary, Hospet and Rayadrug; supply generally sufficient for irrigation under the Tungabhadra channels and spring channels except in two spring channels in the Hadagalli taluk, 20 spring channels in the Adoni taluk and 35 spring channels in the Rayadrug taluk; 2 tanks in each of the taluks of Harpanahalli and Rayadrug, 5 in the Alur taluk and 2 in the Hospet taluk contain adequate supply; the remaining tanks are either empty or contain insufficient supplies. Sowings so far restricted though greater than last year for dry crops. Standing crops of cotton fair except in the Bellary taluk and parts of the taluks of Alur and Harpanahalli. Harvest of cotton proceeding in parts; outturn bad to fair. Pasture not available. Fodder insufficient in parts of the taluks of Alur, Bellary and Hospet, in Rayadrug and Harpanahalli, scarce in the Kudligi taluk and sufficient in the other parts of the district. Condition of cattle generally good. Labourers find employment in agricultural operations, grass cutting operations, ginning factories, irrigation works and road works except in parts of the taluks of Alur, Bellary, Rayadrug and Siruguppa where famine works are providing labour and in the Kudligi taluk. Stocks of food-grains sufficient for the present requirements except in parts of the taluks of Alur and Hospet. Prospects are not encouraging. In the Alur taluk, famine relief works at Kakkarachedu and Holalgundi are continuing; agricultural loans are being disbursed for the purchase of fodder. The famine relief work at Sirguppi in the Siruguppa taluk is continuing; the distress in the affected area is slight. The famine relief work at Kurugodu in the Bellary taluk and the fodder depot at Kudatini are continuing. Agricultural loans are being disbursed in the Harpanahalli taluk; repairs to road from Ilkal to Kottur will be taken up shortly by the District Board to provide employment. In the Kudligi taluk, there is not much demand for labour; some labourers are engaged in grass-cutting operations and irrigation works; some more irrigation works will be started. The test work at Rolapalle in the Rayadrug taluk and the fodder depot at Rayadrug are continuing. Agricultural and land improvement loans are being disbursed.

ANANTAPUR.

Water-supply generally sufficient for drinking except in three villages in the Gooty taluk, in four villages in the Tadpatri taluk, in two villages in Kalyandrug taluk, in seven villages in the Dharmavaram taluk, and in parts of the taluks of Anantapur, Hindupur and Kadiri; supply insufficient for irrigation; all the tanks are dry, wells have poor springs and are failing in parts; river and spring channels have scanty supplies and are flowing from very little to fail. Sowings so far restricted. Standing crops of bengalgram, castor and cotton are poor, stunted and failing. Harvest of bengalgram and castor and picking of cotton proceeding in parts; outturn 0 to 2 annas. Pasture scarce. Fodder inadequate; hill grass is being imported and sold in all taluk headquarter stations and in Guntakal; fodder cholam supplements the stock. Condition of cattle generally good; only useful cattle are taken care of. The rest are undecided for want of fodder. Labourers find employment to a very limited extent in agricultural operations; the programme of works relating to District Board, Public Works Department and minor irrigation has been expanded, the relief works in the taluks of Gooty, Tadpatri, Anantapur, Penukonda and Hindupur are affording employment to the coolies who are attending them in large numbers; arrangements are being made to open test works in the taluks of Gooty and Dharmavaram. Stocks of food-grains generally sufficient for the present requirements except in the Kalyandrug taluk; stocks are reported to be limited in the Penukonda taluk. Kitchens have been opened at the relief centres and the dependants of workers are being fed, gratuitous relief in the shape of cash doles is distributed; private charity is being stimulated for the relief of the destitutes. Plague prevalent in Hindupur town; two attacks and one death reported during the week.

CUDDAPAH.

Water-supply sufficient for drinking except in parts of the Rayachoti taluk and in five villages of the Cuddapah taluk; supply generally sufficient for irrigation except in channels and wells in parts of the Rayachoti taluk. Sowings so far satisfactory though less than last year. Standing crops fair. Harvest of ragi proceeding in parts; outturn fair. Pasture available in limited quantities in the taluks of Cuddapah and Rajampet and not available in the other taluks. Fodder generally sufficient. Condition of cattle generally good. In the taluks of Pulivendla and Rayachoti, road and minor irrigation works have been providing labour. Prospects fair in all taluks except in parts of the taluks of Pulivendla and Rayachoti.

NELLORE.

Water-supply sufficient except in non-delta tanks in the taluks of Nellore, Gudur, Rapur, Sullurpet, Udayagiri, Venkatagiri, Kandukur and Kavali and in rivers and in river channels in the Nellore taluk 7 feet of water in the Kanuguru reservoir (F.T.L. 21·45); 13·6 feet in the Mopad reservoir (F.T.L. 27·4). Sowings so far of dry crops satisfactory though less than last year; sowings of wet crops restricted. Standing crops generally fair, but paddy withering for want of water-supply. Harvest of paddy, cholam, ragi and horsegram proceeding in parts; outturn of paddy, poor to normal; rest, poor to fair. Pasture scanty in the taluks of Rapur and Kandukur, not available in the taluks of Sullurpet and Darsi and generally available in the other taluks. Fodder generally sufficient except in the Rapur taluk where it is scanty. Condition of cattle generally good. The outturn of paddy is generally likely to be less than that of last year.

CHINGLEPUT.

Water-supply sufficient except in parts of the taluks of Madurantakam, Chingleput, Conjeevaram and Tiruvallur. Sowings so far satisfactory. Standing crops generally fair but paddy is reported to have become shavi in parts of the taluks of Madurantakam, Chingleput and Conjeevaram and to be failing in parts of these taluks. Pasture available. Fodder sufficient. Condition of cattle generally good. Rain needed.

SOUTH ARCOT.

Water-supply sufficient for drinking; supply insufficient in most parts of the district. Sowings so far of dry crops satisfactory; sowings of wet crops restricted. Standing crops fair. Harvest of paddy proceeding in parts; outturn fair. Pasture available. Fodder sufficient. Condition of cattle generally good.

CHITTOOR.

Water-supply sufficient for drinking except in almost all the villages of Vayalpad taluk; drinking water wells are being deepened by villagers; supply generally sufficient for irrigation except in parts of the taluks of Palmaner, Puttur, Chandragiri and Chittoor and in the taluks of Madanapalle and Vayalpad. Sowings so far of dry crops satisfactory; sowings of wet crops restricted. Standing crops generally fair. Pasture available except in the Kalahasti taluk where it is scanty, in the taluks of Palmaner and Madanapalle where it is getting scarce, and in the Vayalpad taluk. Fodder

sufficient except in the Vayalpad taluk. Condition of cattle generally good. The condition of the labouring classes is generally good except in the taluks of Madanapalle and Vayalpad; with the starting of the large number of minor irrigation works sanctioned for these two taluks, there will be sufficient labour for the labouring classes and also for agriculturists in the off season. Prospects fair except in the taluks of Madanapalle and Vayalpad.

NORTH ARCOT.

Water-supply sufficient for drinking; supply insufficient for agricultural purposes in parts of all the taluks. Sowings so far restricted though greater than last year for wet crops. Standing crops generally fair except in parts of the taluks of Polur, Cheyyar, Arkonam, Wallajah, Gudiyattam and Wandiwash where paddy has become shavi for want of sufficient supply of water; the areas effected are not however appreciable. Pasture available. Fodder sufficient; the price of fodder is high in the Arkonam taluk. Condition of cattle generally good. Rain needed.

SALEM.

Water-supply sufficient for drinking; supply sufficient for irrigation except in the taluks of Hosur, Krishnagiri, Dharmapuri, Harur, Omalur and Tiruchengode and in parts of the Namakkal taluk. The water level in the Stanley Reservoir above the sill of the low level sluices was 32·7 feet on 30th March 1935 (F.R.L. 120 feet). Sowings so far satisfactory though less than last year. Standing crops fair. Pasture generally available; fodder sufficient except in parts of the taluks of Hosur and Krishnagiri where it is scanty. Condition of cattle generally good.

COIMBATORE.

Water-supply generally sufficient for drinking except in parts of the Coimbatore taluk and in the Udumalpet taluk; supply generally insufficient for agricultural purposes in irrigation channels and tanks and generally sufficient in garden wells. Sowings so far of dry crops satisfactory, sowings of wet crops restricted though greater than last year. Standing crops generally fair. Harvest of paddy, ragi, cholam, sugarcane, cotton and tobacco proceeding in parts; outturn of cotton, poor to normal; rest, fair to normal. Pasture available except in parts of the taluks of Udumalpet, Coimbatore, Erode and Cobichettipalayam. Fodder generally sufficient. Condition of cattle generally good. Prospects generally fair. Rain urgently needed. In the Kollegal taluk, no difficulty or hardship is generally felt among the labouring population.

TRICHINOPOLY.

Water-supply generally sufficient except in the Amaravathi channels of Karur taluk. Transplanting of second-crop paddy proceeding in parts. Sowings so far restricted. Standing crops generally fair. Harvest of paddy and sugarcane proceeding in parts; outturn of paddy, fair to normal; sugarcane fair. Pasture available. Fodder sufficient. Condition of cattle good. Prospects generally fair; the crops under the ruzaled tanks in the Trichinopoly taluk have withered as are withering due to scarcity of rain.

TANJORE.

Water-supply sufficient for drinking except in the Arantangi taluk and in the non-deltaic part of the Tanjore taluk; supply sufficient for irrigation except in the taluks of Pattukkottai and Arantangi and parts of the Shiyali taluk. Height of water at the Grand Anicut 9·5 feet below crest. Discharge in the Coleroon over Lower anicut, northern and southern branches 3·6 and 2·4 feet respectively in the front. Sowings so far of dry crops satisfactory though less than last year; sowings of wet crops restricted. Standing crops fair except in the Arantangi taluk and parts of the Shiyali taluk where the paddy crops are withering. Pasture available. Fodder sufficient. Condition of cattle good. Prospects fair except in the Arantangi taluk and in the non-deltaic parts of the Tanjore taluk not affected by the Cauvery-Mettur Project.

MADURA.

Water-supply sufficient for drinking except in the taluks of Dindigul and Tirumangalam and in the non-Periyar tract of the Madura taluk, supply insufficient for agricultural purposes. Sowings so far restricted. Standing crops fair. Harvest of paddy proceeding in parts, outturn poor to fair. Pasture available except in the Tirumangalam taluk. Fodder sufficient. Condition of cattle generally good. Prospects poor.

RAMNAD.

Water-supply sufficient for drinking except in the taluks of Mudukulattur and Aruppukkottai where scarcity is felt; supply generally insufficient for irrigation. Sowings so far of dry crops restricted, sowings of wet crops satisfactory. Standing crops of cotton good; paddy withered in limited areas of the Paramakudi taluk. Harvest of paddy proceeding in parts; outturn bad to poor. Pasture available and fodder sufficient except in parts of the taluks of Mudukulattur, Aruppukkottai, Sivaganga and Tiruppattur. Condition of cattle generally good. The situation has not improved.

TINNEVELLY.

Water-supply sufficient except in the rainfed areas in all the taluks and in the riverfed areas in the Tenkasi taluk and in parts of the Tinnevelly taluk. No flow over the Sarvakulattan sluice. Discharge just adequate for direct irrigation. Sowings so far restricted. Harvest of paddy and cumbu proceeding in parts; outturn of paddy, poor to fair; cumbu, fair. Pasture available. Fodder sufficient. Condition of cattle generally good. Prospects generally fair in the riverfed areas but they are bad in the rest of the district.

MALABAR.

Water-supply sufficient for drinking except in the Alathur sub-taluk of the Palghat taluk and in the Cannanore town; supply sufficient for agricultural purposes except in the taluks of Walluvanad, Ponnani and Kasad. Sowings so far satisfactory though less than last year for wet crops. Standing crop of paddy fair. Pasture scanty in the Calicut taluk, not available in the Alathur sub-taluk and available in the other taluks. Fodder sufficient. Condition of cattle generally good.

SOUTH KANARA.

Water-supply sufficient for drinking except in the Puttur taluk, supply insufficient for agricultural purposes except in the Kasaragod taluk. Sowings so far satisfactory though less than last year for wet crops. Standing second crop of paddy fair except in the Belangadi sub taluk and the third crop of paddy fair except in the Udipi taluk. Pasture available. Fodder sufficient. Condition of cattle good.

THE NILGIRIS.

Water-supply generally sufficient. Sowings so far of dry crops satisfactory, sowings of wet crops restricted. Standing crops fair. Plucking of tea proceeding in parts; outturn fair. Pasture available. Fodder sufficient. Condition of cattle good.
